MENTAL PROPHYLAXIS SERVICE OF THE SEINE DEPARTMENT, PARIS.

WE have received an interesting account from Dr. Edouard Toulouse, an Honorary Member of the Association since 1901, of the work in connection with the mental Clinic in the Seine district which was started in 1922 and has been organized on similar lines to the Maudsley Hospital. Dr. Toulouse, of Sainte Anne Asylum, is Director of the Clinic, which is, however, administratively independent of the asylum, and directly associated with the out-patient department of the Paris Medical School under the direction of Prof. Henri Claude. The Clinic has been opened and developed by the Council General of the Seine, thanks to the unflinching initiative of M. Henri Rouselle, President of the Commission for Assistance.

In the out-patient department patients are seen daily, and there are full facilities for medical and surgical examinations by specialists. The department is under the direction of the asylum and hospital physicians. The consultations are free, but are reserved for inhabitants of Paris and the Seine district. The work is growing rapidly; there are no less than 30 patients to be examined every day, and 8000 patients have been treated in the department. In connection with the clinic there are pathological laboratories affording full facilities for modern methods of biological investigation.

There are separate pavilions for men and women, and the wards contain dormitories for quiet patients, and rooms for those who need temporary isolation and for those who are placed under observation until medico-administrative decision has been adopted in regard to them; this decision cannot be taken until all tests and inquiries into the case have been made. An atmosphere of comfort and cheerfulness has been obtained, thanks to inexpensive contrivances, such as a tasteful selection of paintings and furniture, some of which are gifts, and arranged according to the advice of generous decorators and artists.

There is a Social Service Department, which is headed by the physicians, and functions through trained social workers. Supervision of the cases in the out-patient department and of former patients who have been discharged from the hospital is undertaken. This service undertakes, also, the ascertainment of psychopathic patients in the various city centres, schools and factories. A visiting system has been planned for patients who have been brought to the attention of the service but who cannot attend at the out-patient department. This part of the service is of considerable value, and becomes more necessary every day. Financial help is also afforded to the needy through the medium of the various charitable organizations. Dr. Toulouse points out that by means of this "open" clinic care and treatment is effected without restrictive measures. Its directing principle is the preservation of individual freedom, for legal measures are only used when it is found necessary after testing, observation, inquiries and reports of social workers. He anticipates that the number of legal commitments will be constantly diminishing with the development of clinics of this kind.

EDUCATIONAL NOTES.

The Maudsley Hospital, Denmark Hill, S.E. 5 (University of London).—Lectures and Practical Courses of Instruction (under the direction of Sir Frederick Mott) for a Diploma of Psychological Medicine. Course IX, 1926.

Part I.—(1) Eight Lectures on the Anatomy of the Nervous System. By Sir Frederick Mott, *K.B.E.*, M.D., LL.D., F.R.S., F.R.C.P., on Tuesdays at 2.30, commencing on January 5, 1926.

Practical Instruction and Demonstrations. Demonstrator: Charles Geary.

(2) Eight Lectures on the Physiology of the Nervous System. By F. Golla, M.D., F.R.C.P., on Fridays at 2.30, commencing on January 8, 1926.

Practical Instruction and Demonstrations. Demonstrator: S. A. Mann, B.Sc. Lond., F.I.C.

(3) Eight Lectures on Psychology. By Henry Devine, M.D., F.R.C.P., on Thursdays at 2.30, commencing on January 7, 1926.

Practical Instruction and Demonstrations.—Sensation; psycho-physical methods; statistical methods; reaction times; association; memory; intelligence tests; muscular and mental work.

Part II will follow in April, 1926, and will include lectures and demonstrations. A detailed time-table will be issued later.

Posts as voluntary clinical assistants at the Maudsley Hospital may be granted without fee to practitioners of both sexes specializing in psychological medicine. These appointments can be either for whole or part-time work in wards, out-patient department or laboratories as desired. They can be held in conjunction with attendance at either part of the course for the Diploma in Psychological Medicine. Such an appointment will satisfy the requirements of the various examining bodies in respect of clinical experience of mental disorders for the Diploma in Psychological Medicine or for the M.D. in Psychological Medicine; its necessary duration depends on whether it is whole or part time. There are various other opportunities for clinical study, also without fee, to all attending the course. Applications and inquiries regarding these clinical facilities should be made to the Medical Superintendent of the Hospital.

Fees: For the whole course of Parts I and II, £15 15s.; for Part I separately, £10 10s.; for Part II separately, £10 10s.; for one single series of lectures in Part I, £4 4s.; for one single series of lectures in Part II, £2 2s.

Inquiries as to lectures, etc., should be addressed to "The Director of the Pathological Laboratory," Maudsley Hospital, Denmark Hill, S.E. 5.

The Fellowship of Medicine, 1, Wimpole Street, W., will collect fees from and issue admission tickets to medical men intending to take the course who are introduced by the Fellowship.

Institute of Psycho-analysis.—The following courses of lectures will be given to medical practitioners and medical students at the Examination Hall, Queen Square, W.C., on Friday evenings at 8.30 p.m.: "The Unconscious," by J. C. Flügel, B.A.; "The Theory of Sexuality," by Ernest Jones, M.D., M.R.C.P.; "The Psycho-pathology of Anxiety States, Phobias and Obsessions," by James Glover, M.B.

The course commences on January 15, 1926. For further particulars applications should be made to the Hon. Secretary, Dr. John Rickman, 26, Devonshire Place, W. 1.

ROYAL MEDICO-PSYCHOLOGICAL ASSOCIATION LIBRARY.

THE following is a list of the Journals which are circulated from the Library: *American Journal of Insanity*, *Journal of Neurology and Psycho-pathology*, *L'Encephale*, *International Journal of Psycho-analysis*, *Journal of Abnormal Psychology*, *Mental Hygiene*.

They will be forwarded on loan as they are published to any member notifying the Librarian, 11, Chandos Street, Cavendish Square, W. 1.

One of the main functions of the Library is that it is a place of reference; in consequence this opportunity is taken to remind members that should they from time to time have books which are old, or not wanted for any reason, the Sub-Committee would be glad to be given the opportunity of placing them in the Society's care. Presentation copies of members' own publications would also be gratefully acknowledged.
