

Engineering

Books and Journals from
Cambridge University Press

Cambridge publishes a range of high-quality books and journals on the theory and practice of engineering, in communications, information theory, signal processing, networks, RF and microwave, circuits and devices, materials science and polymer research, applied photonics, thermal-fluids, mechanics, aerospace, and chemical engineering.

Submission of Manuscripts

All manuscripts should be submitted online at: <http://www.edmgr.com/aeroj>
Any enquiries should be directed to Wayne J Davis at aerjournal@aerosociety.com.
The current set of instructions for authors are available at: <http://journals.cambridge.org/AER>

Subscriptions

The Aeronautical Journal (ISSN 0001-9240) is published monthly in 12 issues each year.

Non-Members

The subscription price (excluding VAT) to *The Aeronautical Journal* for volume 125 (2021), which includes print and electronic access, is £672 (USA, Canada and Mexico US\$1,006) and includes delivery by air; single parts are available at £64 (USA, Canada and Mexico US\$96) plus postage. The electronic-only price available to institutional subscribers is £588 (USA, Canada and Mexico US\$882). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, University Printing House, Shaftesbury Road, Cambridge CB2 8BS, or in the USA, Canada, and Mexico to Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Japanese Prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo, Japan.

RAeS Conference Proceedings

Details, prices and availability of Royal Aeronautical Society Conference Proceedings can be obtained from: RAeS Conference and Events Department, No.4 Hamilton Place, London, W1J 7BQ, UK.
Tel: +44 (0)20 7670 4345, email: conference@aerosociety.com or via www.aerosociety.com/events/catch-up-on-events/conference-proceedings

Advertising

All advertising enquiries should be sent to Neeral Patel
partners@aerosociety.com

Internet Access

The Aeronautical Journal is included in the Cambridge Journals Online service and can be found at:
<http://journals.cambridge.org/AER>.

The Aeronautical Journal now supports open access publications across its hardcopy and online platforms, and accepts papers to consider for publication under both the 'green' and 'gold' open access options.

Information contained within *The Aeronautical Journal* has been published in good faith and the opinions expressed do not represent those of the Royal Aeronautical Society.

The Royal Aeronautical Society is a registered charity: No 313708

CONTENTS

Volume 125 Number 1286

April 2021

| | |
|---|-----|
| Fast and accurate quasi-3D aerodynamic methods for aircraft conceptual design studies O. Şugar-Gabor and A. Koreanschi | 593 |
| New flight trajectory optimisation method using genetic algorithms R.I. Dancila and R.M. Botez | 618 |
| Enhanced cruise range prediction for narrow-body turbofan commercial aircraft based on QAR data V.E. Atasoy and C. Cetek | 672 |
| Influence of distorted inflows on the performance of a contra-rotating fan M.P. Manas and A.M. Pradeep | 702 |
| A generalised force equivalence-based modelling method for a dry wind-tunnel flutter test system Z. Zhang, B. Gao, J. Wang, D. Xu, G. Chen and W. Yao | 720 |
| Experimental investigation of rotating instability in a contra-rotating axial flow compressor S. Yue, Y. Wang, Z. Zhang, L. Wei and H. Wang | 742 |
| A non-iterative design for aileron to rudder interconnect gain J. Myala, V.V. Patel and G.K. Singh | 763 |
| A non-iterative design for aileron to rudder interconnect gain – CORRIGENDUM J. Myala, V.V. Patel and G.K. Singh | 775 |
