**Radiocarbon** is available online to all subscribers (access is *free*!)

# **Benefits include:**

- Document-to-document linking via references for fast reliable access to the wider literature
- Fully searchable across full text, abstracts, text, titles, TOC and figures delivering comprehensive search results
- Links to and from major Abstract and Indexing resources to aid research
- Full-text searching across multiple journals for a wider view of the research that counts
- TOC alerting service keeping you up to date with the latest research
- Access full-text articles online before you receive the hard copy issue

*Radiocarbon* reaches libraries, labs, individuals, and institutions in North America, South America, Europe, the Middle East, Asia, Africa, and Australasia. We can help you reach your target market, wherever it is.

We publish three issues per volume year. Advertise in two consecutive issues and get the third at a significant discount (must reserve all three ads at once for discount to apply).

We accept full-page and multipage advertisements in black and white or full-color. You may send camera-ready copy, film negatives, or digital files. Or, for a small fee, we will create an ad from your supplied text and graphics.

For more information, please contact Managing Editor Mark McClure at editor@radiocarbon.org.

# The test of time

Accelerator Mass Spectrometry Radiocarbon Dating

## Rafter provides:

- Prompt reporting times

   never more than 8 weeks
- Competitive prices
   NZ\$ 820 per sample
- Stable isotope corrections

   δ<sup>13</sup>C measurement at no extra charge

## Additional services

- ♦ 3 week express turnarounds
- ♦ enhanced precision measurements
- ♦ radiometric <sup>14</sup>C dating for large samples
- ♦ bone C:N analysis:- %C, %N,  $\delta^{13}$ C,  $\delta^{15}$ N
- ♦ direct dating of pollen
- ♦ X-ray diffraction for shells
- ♦ calibration assistance
- ♦ consultancy services

At the Rafter Radiocarbon Laboratory we have been successfully meeting the test of time for more than 50 years.

The Rafter Radiocarbon Laboratory has an international reputation for accurately dating a wide range of organic materials, sediments, textiles, bone, ivory, paper, wood, parchment, charcoal, shell, foraminifera and peat.

At Rafter we understand what our clients expect: accurate dating, at competitive rates and superior turn around times and service.
