THE PHARMACOPŒIAS of THIRTEEN of the LONDON HOSPITALS, arranged in Groups for Easy Reference and Comparison. By PETER SQUIRE, Chemist in Ordinary to the Queen and the Prince of Wales; President of the Pharmaceutical Society.

Having had occasion to make frequent reference to the formulæ used in the different London Hospitals, it occurred to the author that a classified collection of these formulæ, many of them very valuable and not generally known, would be acceptable to the profession in general, and particularly useful as a ready work of reference to Pharmacentists. The following Hospitals have been selected:—

CONSUMPTION,	ST. GEORGE'S,
GUY'S,	ST. MARY'S,
KING'S COLLEGE,	ST. THOMAS'S,
LONDON,	SKIN,
LONDON OPHTHALMIC,	UNIVERSITY COLLEGE,
MIDDLESEX,	WESTMINSTER.

HEALTH, FRESH AIR, AND PURE WATER.

CONDY'S HYGIENIC PREPARATIONS,

BY HER MAJESTY'S LETTERS.

CONDY'S FLUID,

Which contains *nascent Oxygen, Nature's true and only purifying agent*, instantly destroys all offensive smells, removes organic impurities from water and air, and, being entirely innoxious and uniritating in its nature, is the only safe disinfectant of the living tissues, whether for external application or for consuming and counteracting organic poisons taken into the stomach, or generated in the system. "*I consider it to be a most important addition to sanitary science, and a valuable agent in the hands of the medical profession.*"—ROBERT DUNDAS THOMSON, M.D., F.R.S.

CONDY'S PATENT FLUID,

By reason of its peculiar composition, is invaluable as a preventive and cure for the diseases of domestic animals, which are so liable to assume a contagious type. "*I consider Condy's fluid, in short, a boon to the veterinary profession and the sportsman, as well as to the community at large.*"—W. H. KENT, M.R.C.V.S. "*It appears to me to be a most valuable and healthy life preserver.*"—F. T. BUCKLAND, Ass.-Surg., 2d Life Guards. In Bottles, Green, 6d., 1s., and 2s. Crimson, stronger and purer, 1s., 2s., and 4s.

CONDY'S PATENT HEALTH POWDER,

Also contains nascent oxygen, is odourless, and destroys all smells. Sold in Bottles, 1s., 1s. 6d., and 3s.; and in casks, 1 cwt., 36s.

CONDY'S PATENT OZONISED WATER,

For the toilet, bath, &c., removes from the mouth impure and foreign tastes and odours, whether arising from tobacco or other causes, and counteracts the irritation and morbid secretions of carious teeth. It purifies and softens the skin, and, used in the bath, tends to promote a healthy state of the whole body. "*A teaspoonful added to a tumbler of water will remove instantaneously all the taste and smell which are often so troublesome, after smoking pipes or cigars.*"—*The Field*, November 24th, 1860. In stoppered Bottles, price 2s.; double size, 3s. 6d.

Liq. Potass. v. Calc. v. Magnes. Permangan (Condy), gr. ij ad ʒj.

Solutions of absolutely pure salts of permanganic acid, prepared of uniform strength for prescription by medical men.

Internally—Dose from ten drops to a drachm in half a pint of pure water.

Externally—As a lotion or gargle, from one to four drachms in half a pint of pure water.
