Medicine

The classic textbook on cardiac anatomy

First prize in the
**2006 British Medical
Association Book awards**

Surgical Anatomy of the Heart Third Edition

**Benson R. Wilcox
Andrew C. Cook
Robert H. Anderson**

Presenting the classic textbook on cardiac anatomy, invaluable to surgeons, cardiologists, anaesthetists, and surgical pathologists.

Topics covered include the normal surgical anatomy of the cardiac chambers, heart valves, and the system for circulation and conduction within the heart. The detailed text provides the essential anatomical knowledge required to assess and interpret the malformations, lesions, abnormalities, and positional anomalies illustrated.

Full colour surgical and pathological photographs accompany almost all of the anatomical descriptions, and detailed colour drawings help to explain concepts and simplify complex descriptions.

'This well written text is accompanied by beautifully clear colour photographs. ... beautiful illustrations and excellent writing making a book that can be strongly recommended to anybody seriously interested in the practice of cardiac surgery.'

British Journal of Surgery

£185.00 | HB | 9780521861410
2005 | 328 pages | 530 illustrations

JOURNALS

Journal of Developmental Origins of Health and Disease

Published in association with the International
Society for Developmental Origins of Health and
Disease (DOHaD)

Editor-in-Chief

Michael G. Ross, *Los Angeles Biomedical Research Institute at Harbor-
UCLA Medical Center, USA*

A multi-disciplinary journal linking basic science to applied science; focusing on how the environment during early animal and human development, and interactions between environmental and genetic factors, influence health and risk of disease in later life. The journal publishes original research articles, short communications, reviews, and regular themed issues, with guest editors.

Bulk Article Reprints

Reprints of articles published in this journal can be purchased for use by your company or organisation. These reprints can be produced as straight article reprints or with custom designed covers and, if required, the sponsor's name printed on or inside the cover. Reprints represent a versatile sales tool for the distribution of up-to-date information on your particular areas – via your sales force, direct mail campaigns and as handouts at major conferences and commercial exhibitions. Reprints can usually be delivered to clients 2-4 weeks after the receipt of the order.
