## PROCEEDINGS

OF

# THE ROYAL SOCIETY

0F

### EDINBURGH.

VOL. XXI.

NOVEMBER 1895 TO JULY 1897.

#### EDINBURGH: PRINTED BY NEILL AND COMPANY. MDCCCXCVII.

https://doi.org/10.1017/S0370164600049920 Published online by Cambridge University Press

#### CONTENTS.

	PAGE
Election of Office-Bearers, Session 1895–96,	1
Chairman's Opening Address, Session 1895-96. By Professor	
James Geikie, F.R.S., Vice-President,	2
Notes regarding, and Model of, Mass of Manufactured Iron,	
bearing date 1807, found beside Glacier de la Plaine Morte,	
Rhone Valley. By James Milne, Milton House Works,	18
On the Relationship of the Liver to Fats. By D. Noël Paton,	
M.D., F.R.C.P.E., Superintendent of the Research Laboratory	
of the Royal College of Physicians, Edinburgh,	<b>22</b>
On the Cause and Nature of the Chemical Changes occurring	
in Oceanic Deposits. By W. N. Hartley, F.R.S., Royal College	
of Science, Dublin,	<b>25</b>
On Chemical Changes in Marine Muds. By Robert Irvine and	
John Murray, LL.D.,	35
Note of a Case of Early Appreciation of Musical Pitch. By John	
G. M'Kendrick, M.D., Professor of Physiology in the Uni-	
versity of Glasgow,	40
Demonstration of the Acoustic Turbine or Sound Mill of Alfred	
M. Mayer and V. Dvořák. By John G. M'Kendrick, M.D.,	
Professor of Physiology in the University of Glasgow,	44
Note on a Sensitive Flame. By John G. M'Kendrick, M.D.,	
Professor of Physiology in the University of Glasgow, .	45
Note on Mr Alfred Graham's Method of producing Sound by an	
Electrical Arrangement. By John G. M'Kendrick, M.D.,	
Professor of Physiology in the University of Glasgow, .	46
The Cranial Nerves of Chimæra monstrosa. By Frank J. Cole,	
Demonstrator of Zoology, University College, Liverpool.	
Communicated by Professor Ewart, F.R.S. (Preliminary Com-	
munication),	49
Experiment illustrating the Modern Theory of Salt-Solution.	
By Professor Crum Brown,	57
Preliminary Note on the Structure and Affinities of Phoronis.	
By Arthur T. Masterton, B.A. (Cant.), Assistant Professor and	
Lecturer in Zoology at the University of St Andrews, .	59
Some Points in the Physiological Chemistry and Coagulation of	
Milk. By David Fraser Harris, B.Sc. (Lond.), M.B., C.M.,	
F.R.S.E. Communicated by John G. M'Kendrick, M.D., Pro-	
fessor of Physiology in the University of Glasgow, .	72

vi

	PAGE
A Graphical Representation of Emotion as expressed in Rhyme.	
By Professor J. M. Dixon, M.A. (With a Plate), .	90
Notes on Clouds. By John Aitken, Esq., F.R.S.,	93
Note on the Digestion of Starch in the Stomach. By W. G.	
Aitchison Robertson, M.D., D.Sc.,	96
On the Seasonal Death-rate from certain Diseases in Edinburgh	
during the period 1878-94, with Remarks on the Relation	
between Weather and Mortality. By R. C. Mossman, F.R.S.E.,	
F.R.Met.Soc. (With a Plate),	105
On the Path of a Rotating Spherical Projectile. Part II. By	
Professor Tait. (Abstract).	116
Note on Centrobaric Shells. By Professor Tait,	117
On the Motion of a Heterogeneous Liquid, commencing from	
Rest with a given Motion of its Boundary. By Lord Kelvin,	
President,	119
Note on Clerk-Maxwell's Law of Distribution of Velocity in a	
Group of Equal Colliding Spheres. By Professor Tait,	123
On the Structure of Actinotrocha considered in relation to the	
suggested Chordate Affinities of Phoronis. By A. T. Master-	
man, B.A., Lecturer and Assistant Professor of Natural	
History in the University of St Andrews,	129
Some Results obtained with the Röntgen X-Rays. By J. Mac-	
intyre, M.B., F.R.M.S.,	137
Additional Notes on the Röntgen X-Rays. By J. Macintyre,	
M.B., F.R.M.S.,	140
On the Relation between the Hall Effect and Thermo-electricity	
in Bismuth and in various Alloys. By Dr J. C. Beattie,	146
Preliminary Note on Dietthio and Diethylsulphone derivatives	
of Succinic Acid. By Professor Crum Brown and R. Fair-	
bairn, B.Sc.,	156
On the Linear and Vector Function. (Abstract.) By Prof. Tait,	160
On the Electro-magnetic Wave-surface. By Professor Tait, .	165
The Physiological Action of Eucain. By M. Charteris, M.D.,	
Professor of Materia Medica, University of Glasgow, and	
William MacLennan, M.B., C.M.,	167
Chairman's Opening Address, Session 1896-97. By Professor	
John G. M'Kendrick, M.D., Vice-President,	170
(a) The Structural and Physiological Nervous Unit,	182
(b) Experiments on the Rhythmic Stimulation of Sensory	
Nerves of the Skin,	189
(c) Demonstration of an Improved Phonograph Recorder,	
and Remarks on the Curves thereby obtained, .	194
On the Reproduction of some Marine Diatoms. By George	,
Murray, F.R.S.E., F.L.S., Keeper of Botany, British Museum.	
(With Three Plates),	207

Contents.

On the Eliminant of a Set of Ternary Quadrics. By Thomas	PAGE
Muir, LL.D.,	<b>22</b> 0
On the so-called "Hypoiodite of Magnesium." By James Walker,	
D.Sc., Ph.D., and Sydney A. Kay, B.Sc., University College,	
Dundee,	235
Abstract of Paper "On Intermediary Links between Man and	
the Lower Animals." By Robert Munro, M.A., M.D.,	249
Note on the Sensitiveness of the Skin to Weak Electric Currents, as compared with the Sensitiveness of a Telephone to the same	
Currents. By John G. M'Kendrick, Professor of Physiology,	
University of Glasgow,	251
A Research into the Nature of the Nucleins and Paranucleins of	<b>201</b>
the Animal Cell. By T. H. Milroy, M.D., B.Sc.,	254
Theoretical Researches on the Daily Change of the Temperature	
of the Air. By Dr J. Halm. (With a Plate),	259
The Intermediate Observing Station on Ben Nevis. By T. S.	
Muir, M.A.,	280
On the Electrolysis of Potassium Ethyl-Sulphone-Acetate. By	
Professor Crum Brown and Dr Herbert W. Bolam,	297
Note on an Analysis of Human Gastric Juice. By W. R. Lang,	
B.Sc., F.C.S., Chemical Laboratory, University of Glasgow.	
Communicated by Professor M'Kendrick,	298
On a New Form of Constant Volume Air Thermometer, which	
shows the Total Pressure directly, and may be graduated in	
Degrees by Temperature. By J. R. Erskine Murray, Assistant Professor of Electrical Engineering and Physics in the Heriot-	
Watt College, Edinburgh,	299
On Photo-Chemical Action. By Professor John Gibson,	299 303
On the Linear and Vector Function. By Professor Tait,	310
On Electrical Properties of Fumes proceeding from Flames and	010
Burning Charcoal. By the Right Hon. Lord Kelvin, G.C.V.O.,	
F.R.S., and Dr Magnus Maclean,	313
On Osmotic Pressure against an Ideal Semi-permeable Membrane.	
By the Right Hon. Lord Kelvin, LL.D., D.C.L., F.R.S.,	323
Some Type-Specimens of Lepidoptera and Coleoptera in the	
Edinburgh Museum of Science and Art. By Percy Hall	
Grimshaw, F.E.S.,	326
The Eliminant of a Set of Quaternary Quadrics. By Thomas	
Muir, LL.D.,	328
On the Expression of any Bordered Skew Determinant as a Sum	
of Products of Pfaffians. By Thomas Muir, LL.D.,	342
On the Eliminant of $f(x)=0$ , $f(\frac{1}{x})=0$ . By Thomas Muir,	
	<b>36</b> 0
On the Resolution of Circulants into Rational Factors. By	
Thomas Muir, LL.D.,	<b>3</b> 69

<ul> <li>PAGE</li> <li>Note on the Reducing Power of the Living Animal Tissues. By David Fraser Harris, B.Sc. (Lond.), M.B., C.M.,</li> <li>Hæmatoporphyrinuria and its Relations to the Origin of Urobilin. By David Fraser Harris, B.Sc. (Lond.), M.B., C.M.,</li> <li>A Contribution to the Comparative Anatomy of the Mammalian Organ of Jacobson. By R. Broom, M.D., B.Sc. Communicated by Sir William Turner,</li> <li>391</li> <li>Experiments on the Electrical Phenomena produced in Gases by Röntgen Rays, by Ultra Violet Light, and by Uranium. By Lord Kelvin, G.C.V.O., F.R.S., etc., etc.; J. Carruthers Beattie, D.Sc., F.R.S.E., 1851 Exhibition Scholar, Research Fellow of the University of Glasgow; and M. S. de Smolan, Ph.D., Research Fellow of the University of Glasgow,</li> <li>On a Differential Method for Measuring Differences of Vapour Pressures of Liquids at one Temperature and at Different Temperatures. By Lord Kelvin, G.C.V.O.,</li> <li>429</li> <li>On Ethane prepared from Ethyl Iodide, and on the Properties of some Mixtures of Ethane and Butane. By Professor J. P. Kuenen. (With Three Plates),</li> <li>Corr Perception of the Direction of Sound. By Albert Alexander Gray, M.D. (Glasgow). Communicated by Professor M'Kendrick,</li> <li>On the Geometrical Investigation of the Circular Functions of 3<i>d</i> and 5<i>d</i>. By Professor A. H. Anglin,</li> <li>The Antivenomous Properties of the Bile of Serpents and other Animals ; and an Explanation of the Insusceptibility of Animals to the Poisonous Action of Venom introduced into the Stomach. By Professor Fraser, M.D., LL.D., F.R.S.,</li> <li>On the Electrification of Air by Uranium and its Compounds. By J. Carruthers Beattie, D.Sc. With a Note by Lord Kelvin, G.C.V.O., F.R.S., etc., etc.,</li> </ul>
<ul> <li>David Fraser Harris, B.Sc. (Lond.), M.B., C.M.,</li></ul>
<ul> <li>Hæmatoporphyrinuria and its Relations to the Origin of Urobilin. By David Fraser Harris, B.Sc. (Lond.), M.B., C.M.,</li> <li>A Contribution to the Comparative Anatomy of the Mammalian Organ of Jacobson. By R. Broom, M.D., B.Sc. Communicated by Sir William Turner,</li> <li>391</li> <li>Experiments on the Electrical Phenomena produced in Gases by Röntgen Rays, by Ultra Violet Light, and by Uranium. By Lord Kelvin, G.C.V.O., F.R.S., etc., etc.; J. Carruthers Beattie, D.Sc., F.R.S.E., 1851 Exhibition Scholar, Research Fellow of the University of Glasgow; and M. S. de Smolan, Ph.D., Research Fellow of the University of Glasgow,</li> <li>On a Differential Method for Measuring Differences of Vapour Pressures of Liquids at one Temperature and at Different Temperatures. By Lord Kelvin, G.C.V.O.,</li> <li>429</li> <li>On Ethane prepared from Ethyl Iodide, and on the Properties of some Mixtures of Ethane and Butane. By Professor J. P. Kuenen. (With Three Plates),</li> <li>Gur Perception of the Direction of Sound. By Albert Alexander Gray, M.D. (Glasgow). Communicated by Professor M'Kendrick,</li> <li>On the Geometrical Investigation of the Circular Functions of 34 and 56. By Professor A. H. Anglin,</li> <li>453</li> <li>The Antivenomous Properties of the Bile of Serpents and other Animals ; and an Explanation of Venom introduced into the Stomach. By Professor Fraser, M.D., ILL.D., F.R.S.,</li> <li>457</li> <li>On the Electrification of Air by Uranium and its Compounds. By J. Carruthers Beattie, D.Sc. With a Note by Lord Kelvin,</li> </ul>
<ul> <li>Urobilin. By David Fraser Harris, B.Sc. (Lond.), M.B., C.M.,</li> <li>A Contribution to the Comparative Anatomy of the Mammalian Organ of Jacobson. By R. Broom, M.D., B.Sc. Communicated by Sir William Turner,</li> <li>391</li> <li>Experiments on the Electrical Phenomena produced in Gases by Röntgen Rays, by Ultra Violet Light, and by Uranium. By Lord Kelvin, G.C.V.O., F.R.S., etc., etc.; J. Carruthers Beattie, D.Sc., F.R.S.E., 1851 Exhibition Scholar, Research Fellow of the University of Glasgow; and M. S. de Smolan, Ph.D., Research Fellow of the University of Glasgow; and M. S. de Smolan, Ph.D., Research Fellow of the University of Glasgow,</li> <li>On a Differential Method for Measuring Differences of Vapour Pressures of Liquids at one Temperature and at Different Temperatures. By Lord Kelvin, G.C.V.O.,</li> <li>On Ethane prepared from Ethyl Iodide, and on the Properties of some Mixtures of Ethane and Butane. By Professor J. P. Kuenen. (With Three Plates),</li> <li>Our Perception of the Direction of Sound. By Albert Alexander Gray, M.D. (Glasgow). Communicated by Professor M'Kendrick,</li> <li>On the Geometrical Investigation of the Circular Functions of 34 and 56. By Professor A. H. Anglin,</li> <li>The Antivenomous Properties of the Bile of Serpents and other Animals; and an Explanation of Venom introduced into the Stomach. By Professor Fraser, M.D., ILL.D., F.R.S.,</li> <li>457</li> <li>On the Electrification of Air by Uranium and its Compounds. By J. Carruthers Beattie, D.Sc. With a Note by Lord Kelvin,</li> </ul>
<ul> <li>Organ of Jacobson. By R. Broom, M.D., B.Sc. Communicated by Sir William Turner,</li></ul>
<ul> <li>by Sir William Turner,</li></ul>
<ul> <li>Experiments on the Electrical Phenomena produced in Gases by Röntgen Rays, by Ultra Violet Light, and by Uranium. By Lord Kelvin, G.C.V.O., F.R.S., etc., etc.; J. <ul> <li>Kuenen. (With Three Plates),</li></ul>
<ul> <li>Our Perception of the Direction of Sound. By Albert Alexander Gray, M.D. (Glasgow). Communicated by Professor M'Kendrick, 443</li> <li>On the Geometrical Investigation of the Circular Functions of 30 and 50. By Professor A. H. Anglin,</li></ul>
<ul> <li>Gray, M.D. (Glasgow). Communicated by Professor M'Kendrick, 443</li> <li>On the Geometrical Investigation of the Circular Functions of 3<i>θ</i> and 5<i>θ</i>. By Professor A. H. Anglin,</li></ul>
<ul> <li>On the Geometrical Investigation of the Circular Functions of 3<i>θ</i> and 5<i>θ</i>. By Professor A. H. Anglin,</li></ul>
<ul> <li>and 50. By Professor A. H. Anglin,</li></ul>
<ul> <li>The Antivenomous Properties of the Bile of Serpents and other Animals; and an Explanation of the Insusceptibility of Animals to the Poisonous Action of Venom introduced into the Stomach. By Professor Fraser, M.D., IL.D., F.R.S., . 457</li> <li>On the Electrification of Air by Uranium and its Compounds. By J. Carruthers Beattie, D.Sc. With a Note by Lord Kelvin,</li> </ul>
<ul> <li>Animals ; and an Explanation of the Insusceptibility of Animals to the Poisonous Action of Venom introduced into the Stomach. By Professor Fraser, M.D., LL.D., F.R.S., . 457</li> <li>On the Electrification of Air by Uranium and its Compounds. By J. Carruthers Beattie, D.Sc. With a Note by Lord Kelvin,</li> </ul>
the Stomach. By Professor Fraser, M.D., LL.D., F.R.S., . 457 On the Electrification of Air by Uranium and its Compounds. By J. Carruthers Beattie, D.Sc. With a Note by Lord Kelvin,
On the Electrification of Air by Uranium and its Compounds. By J. Carruthers Beattie, D.Sc. With a Note by Lord Kelvin,
By J. Carruthers Beattie, D.Sc. With a Note by Lord Kelvin,
On Supersaturation and its Dependence on Crystalline Form.
By W. W. J. Nicol, M.A., D.Sc., F.R.S.E., F.I.C.,
Note on the Calcutta Earthquake (June 12, 1897), as recorded
by the Bifilar Pendulum at the Edinburgh Royal Observatory.
By Thomas Heath, B.A. (With Two Plates),
Notes on the Total Eclipse of the Sun, 8th August 1896. By
Professor Ralph Copland, Ph.D., Astronomer-Royal for Scot-
land, and Mr A. J. Ramsay,
By Professor Tait,
Notes on some Earthquakes in India. By J. W. Inglis, Mem.
Inst.C.E.,
Meetings of the Royal Society—Session 1896-97, . 510-522
Donations to the Library,
Obituary Notices,
