

**P-1159 - SELF-INJURIOUS OR SUICIDAL BEHAVIOR? UTILIZING DIALECTICAL BEHAVIOR THERAPY IN COMMUNITY BASED CRISIS RESPONSE WITH BORDERLINE PERSONALITY DISORDER CLIENTS WITHIN THE ACT TEAM MODEL**

J.Morong

Austin Travis County Integral Care, Austin, TX, USA

Self-injurious behavior is often understood by clinicians to be synonymous with suicidal behavior. This presentation will focus on addressing contemporary conceptual and treatment issues that play role in understanding self-injurious and suicidal behavior of BPD clients within the context of clinical treatment and a community response.
