animal

Published for The Animal Consortium
www.animal-journal.eu

Editor-in-Chief

Jean Noblet, *INRA, Rennes-St Gilles, France*

animal publishes original cutting-edge research, 'hot' topics and horizon-scanning reviews on animal-related aspects of the life sciences at the molecular, cellular, organ, whole animal and production system levels.

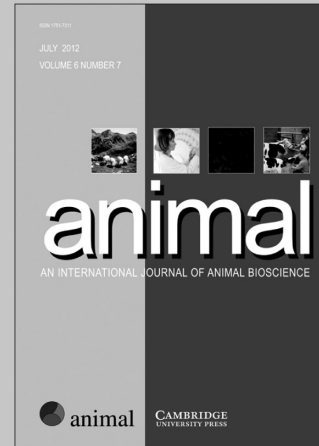

The main subject areas include: breeding and genetics; nutrition; physiology and functional biology of systems; behaviour, health and welfare; farming systems, environmental impact and climate change; product quality, human health and well-being.

Journal of Helminthology

Editor

John Lewis, Royal Holloway, University of London, UK

Journal of Helminthology publishes original papers and review articles on all aspects of pure and applied helminthology, particularly those helminth parasites of environmental health, medical or veterinary importance. Research papers on helminths in wildlife hosts, including plant and insect parasites, are also published along with taxonomic papers contributing to the systematics of a group. The journal will be of interest to academics and researchers involved in the fields of human and veterinary parasitology, public health, microbiology, ecology, epidemiology and biochemistry.

Go Mobile

CJO Mobile (CJOm) is a streamlined
Cambridge Journals Online (CJO)
for smartphones and other
small mobile devices

- Use CJOm to access all journal content including *FirstView* articles which are published online ahead of print
- Access quickly and easily thanks to simplified design and low resolution images
- Register for content alerts or save searches and articles – they will be available on both CJO and CJOm
- Your device will be detected and automatically directed to CJOm via: journals.cambridge.org

EPIDEMIOLOGY & INFECTION

CONTENTS

REVIEW ARTICLE: *Pseudomonas aeruginosa* dose response and bathing water infection

D. J. Roser, B. van den Akker, S. Boase, C. N. Haas, N. J. Ashbolt & S. A. Rice 449

Staphylococcus

Short Report: Reduction in community-onset methicillin-resistant *Staphylococcus aureus* rates in an urban Canadian hospital setting

A. Wilmer, E. Lloyd-Smith, M. G. Romney, S. Champagne, T. Wong, W. Zhang, R. Stenstrom & M. W. Hull 463

A basic dynamic transmission model of *Staphylococcus aureus* in the US population

C. Hoge, T. van Effelterre & C. J. Acosta 468

Short Report: Molecular characterization of methicillin-resistant *Staphylococcus aureus* resistant to tigecycline and daptomycin isolated in a hospital in Brazil

A. N. G. Dabul & I. L. B. C. Camargo 479

Prevalence and risk factors for *Staphylococcus aureus* colonization in individuals entering maximum-security prisons

D. V. Mukherjee, C. T. A. Herzig, C. Y. Jeon, C. J. Lee, Z. L. Apa, M. Genovese, D. Gage, C. J. Koenigsmann, F. D. Lowy & E. L. Larson 484

Impact of an enhanced antibiotic stewardship on reducing methicillin-resistant *Staphylococcus aureus* in primary and secondary healthcare settings

M. A. Aldeyab, M. G. Scott, M. P. Kearney, Y. M. Alahmadi, F. A. Magee, G. Conlon & J. C. Mcelnay 494

Community-onset *Staphylococcus aureus* infections presenting to general practices in South-eastern Australia

C. M. Bennett, G. W. Coombs, G. M. Wood, B. P. Howden, L. E. A. Johnson, D. White & P. D. R. Johnson 501

Streptococcus

Differences in the epidemiology between paediatric and adult invasive *Streptococcus pyogenes* infections

L. Zachariadou, A. Stathi, P. T. Tassios, A. Pangalis, N. J. Legakis & J. Papaparaskevas 512

Spectral analysis based on fast Fourier transformation (FFT) of surveillance data: the case of scarlet fever in China

T. Zhang, M. Yang, X. Xiao, Z. Feng, C. Li, Z. Zhou, Q. Ren & X. Li 520

Modelling

The use of null models and partial least squares approach path modelling (PLS-PM) for investigating risk factors influencing post-weaning mortality in indoor pig farms

E. Serrano, S. López-Soria, L. Trinchera & J. Segalés 530

Short Report: External validation and updating of a prediction model for nosocomial pneumonia after coronary artery bypass graft surgery

M. Sanagou, R. Wolfe, K. Leder & C. M. Reid 540

Modelling interventions during a dengue outbreak

D. H. Barnak, C. O. Dorso, M. Otero & H. G. Solari 545

Incidence of *Chlamydia trachomatis* infection in women in England: two methods of estimation

M. J. Price, A. E. Ades, D. de Angelis, N. J. Welton, J. Macleod, K. Turner & P. J. Horner 562

Abrupt transition to heightened poliomyelitis epidemicity in England and Wales, 1947–1957, associated with a pronounced increase in the geographical rate of disease propagation

M. R. Smallman-Raynor & A. D. Cliff 577

Gastroenteritis

Epidemiology and estimated costs of a large waterborne outbreak of norovirus infection in Sweden

C. Larsson, Y. Andersson, G. Allestam, A. Lindqvist, N. Nenonen & O. Bergstedt 592

National outbreaks of *Salmonella* infection in the UK, 2000–2011

K. S. Harker, C. Lane, F. J. Gormley & G. K. Adak 601

The effect of ambient air temperature and precipitation on monthly counts of salmonellosis in four regions of Kazakhstan, Central Asia, in 2000–2010

A. M. Grijbovski, A. Kosbayeva & B. Menne 608

Outbreak of enterotoxigenic *Escherichia coli* O169 enteritis in schoolchildren associated with consumption of kimchi, Republic of Korea, 2012

S. H. Cho, J. Kim, K. -H. Oh, J. K. Hu, J. Seo, S. S. Oh, M. J. Hur, Y. -H. Choi, S. K. Youn, G. T. Chung & Y. J. Choe 616

CORRIGENDUM: Outbreak of enterotoxigenic *Escherichia coli* O169 enteritis in schoolchildren associated with consumption of kimchi, Republic of Korea, 2012

J. K. Hu, J. Seo & Y. J. Choe 624

Dengue

Will people change their vector-control practices in the presence of an imperfect dengue vaccine?

T. M. Q. R. Boccia, M. N. Burattini, F. A. B. Coutinho & E. Massad 625

Identifying the high-risk areas and associated meteorological factors of dengue transmission in Guangdong Province, China from 2005 to 2011

J. Fan, H. Lin, C. Wang, L. Bai, S. Yang, C. Chu, W. Yang & Q. Liu 634

Toxoplasma

Congenital toxoplasmosis in the state of Minas Gerais, Brazil: a neglected infectious disease?

E. V. M. Carellos, W. T. Caiassa, G. M. Q. Andrade, M. N. S. Abreu & J. N. Januário 644

Age-associated prevalence of *Toxoplasma gondii* in 8281 pregnant women in Poland between 2004 and 2012

D. Nowakowska, W. Wujcicka, W. Sobala, E. Śpiewak, Z. Gaj & J. Wilczyński 656

Are healthcare workers at higher risk of HIV infection than the general population in Burkina Faso?

F. Kirakoya-Samadoulougou, P. Fao, S. Yaro, M.-C. Defer, N. Meda, A. Robert & N. Nagot 662
