## Managing Editor

Gennifer Levey

## Chief Copy Editor

Sumitra Mukerji

## Proofreaders

Sylvia Elvin  
Rashidah Ismaili AbuBakr

## Editorial Board

### *Affective Neuroscience*

Stephanie D. Preston/U. of Michigan

### *Atypical Neurodevelopment*

Simon Baron-Cohen/Cambridge U.

### *Behavioral Neurogenetics*

Wim E. Crusio/CNRS UMR

### *Cognition and Artificial Intelligence*

Zenon Pylyshyn/Rutgers U.

### *Cognitive and Decision Sciences*

Nick Chater/University College London

### *Cognitive Development*

Annette Karmiloff-Smith/Birbeck College

### *Cognitive Neuroscience*

Moshe Bar/Harvard Medical School

### *Computational Neuroscience*

Nestor A. Schmajuk/Duke U.

### *Evolution of Brain and Cognition*

Dean Falk/Florida State U.

### *Evolution of Cognition*

Celia Heyes/Oxford U.

### *Experimental Analysis of Behavior*

A. Charles Catania/U. Maryland, Baltimore County

### *Language and Language Disorders*

Max Coltheart/Macquarie U.

### *Linguistics*

Robert A. Freidin/Princeton U.

### *Perception*

Bruce Bridgeman/U. of California, Santa Cruz

### *Philosophy of Science*

Massimo Piattelli-Palmarini/U. of Arizona

### *Primate Cognition*

Laurie R. Santos/Yale U.

### *Social Cognition*

Mahzarin R. Banaji/Harvard U.

### *Social Cognitive Neuroscience*

Rebecca Saxe/MIT

### *Vision, Language and Computation*

Shimon Edelman/Cornell U.

## FOUNDING EDITOR (1978–2001)

Stevan Harnad

**Editorial Policy** *Behavioral and Brain Sciences* (BBS) is an international journal providing a special service called Open Peer Commentary\* to researchers in any area of psychology, neuroscience, behavioral biology, or cognitive science who wish to solicit, from fellow specialists within and across these BBS disciplines, multiple responses to a particularly significant and controversial piece of work. (See Instructions for Authors and Commentators, inside back cover and also at <http://journals.cambridge.org/BBSJournal/Inst>) The purpose of this service is to contribute to the communication, criticism, stimulation, and particularly the unification of research in the behavioral and brain sciences, from molecular neurobiology to artificial intelligence and the philosophy of mind.

Papers judged by the editors and referees to be appropriate for Commentary are circulated to a large number of commentators selected by the editors, referees, and author to provide substantive criticism, interpretation, elaboration, and pertinent complementary and supplementary material from a full cross-disciplinary perspective. The article, accepted commentaries, and the author's response then appear simultaneously in BBS.

Commentary on BBS articles may be provided by any qualified professional in the behavioral and brain sciences, but much of it is drawn from a large body of BBS Associates who have become formally affiliated with the project (see <http://journals.cambridge.org/BBSJournal/BBSAssoc>).

Qualified professionals are eligible to become BBS Associates if they have (1) been nominated by a current BBS Associate, (2) refereed for BBS, or (3) had a commentary or article accepted for publication. A special subscription rate is available to Associates. Individuals interested in serving as BBS Associates are asked to view the full instructions for joining at <http://journals.cambridge.org/BBSJournal/Inst/Assoc> and then email [bbsjournal@cambridge.org](mailto:bbsjournal@cambridge.org).

© Cambridge University Press 2012. All rights reserved. No part of this publication may be reproduced, in any form or by any means, electronic, photocopying, or otherwise, without permission in writing from Cambridge University Press. Policies, request forms, and contacts are available at: <http://www.cambridge.org/rights/permissions/permission.htm>.

Permission to copy (for users in the U.S.A.) is available from Copyright Clearance Center, <http://www.copyright.com>, email: [info@copyright.com](mailto:info@copyright.com).

**Subscriptions** *Behavioral and Brain Sciences* (ISSN 0140-525X) is published bimonthly in February, April, June, August, October, and December. The subscription price of Volume 35 (2012) for *institutions* is US \$1193.00 for print and online, US \$1005.00 for online only, and US \$1093.00 for print only in the U.S.A., Canada, and Mexico; and UK £703.00 for print and online, UK £594.00 for online only, and UK £643.00 for print only elsewhere. The subscription price for *individuals* is US \$346.00 for print and online and US \$321.00 for print only in the U.S.A., Canada, and Mexico; and UK £203.00 for print and online and UK £189.20 for print only elsewhere. For *BBS Associates*, with proof of eligibility with order, US \$132.00 in the U.S.A., Canada, and Mexico; and UK £83.00 elsewhere. For *students*, with proof of eligibility with order, \$111.00 in the U.S.A., Canada, and Mexico; and UK £65.00 elsewhere. Subscription price includes surface postage. Single parts cost US \$238.00 (UK £118.00) plus postage. *Institutional orders* may be sent to a bookseller, or, in the U.S.A., Canada, and Mexico direct to: Cambridge University Press, 32 Avenue of The Americas, New York, NY 10013-2473 email: [journals\\_subscriptions@cambridge.org](mailto:journals_subscriptions@cambridge.org); in the U.K. and rest of the world to: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, England, e-mail: [journals\\_subscriptions@cambridge.cam.ac.uk](mailto:journals_subscriptions@cambridge.cam.ac.uk). *Individuals* must order direct from the Press. You may also subscribe through the Cambridge Journals website, <http://journals.cambridge.org/bbs>.

**Postmaster:** Send address changes in the U.S.A., Canada, and Mexico to *Behavioral and Brain Sciences*, Cambridge University Press, Journals Dept., 100 Brook Hill Drive, West Nyack, NY 10994-2133, U.S.A. Send address change elsewhere to *Behavioral and Brain Sciences*, Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, England.

**Online availability** *Behavioral and Brain Sciences* is part of the Cambridge Journals Online (CJO) service at <http://journals.cambridge.org>.

**Institutional subscribers:** Access to full-text articles online is currently included with the cost of the print subscription. Subscription must be activated; see <http://cambridge.journals.org>.

**Advertising** Inquiries about advertising should be sent to the Journals Advertising Department of the Cambridge or New York Office of Cambridge University Press.

\*Modelled on the "CA Comment" service of the journal *Current Anthropology*.

# Contents Volume 35:3 June 2012

<b>Lindquist, K. A., Wager, T. D., Kober, H., Bliss-Moreau, E. &amp; Barrett, L. F.</b>	The brain basis of emotion: A meta-analytic review	121
<b>Open Peer Commentary</b>		
<b>Buck, R. W.</b>	Prime elements of subjectively experienced feelings and desires: Imaging the emotional cocktail	144
<b>Button, K. S., Lewis, G. &amp; Munafò, M. R.</b>	Understanding emotion: Lessons from anxiety	145
<b>Caruana, F. &amp; Gallese, V.</b>	Overcoming the emotion experience/expression dichotomy	145
<b>Cramer, A. O. J., Kessler, K. S. &amp; Borsboom, D.</b>	A constructionist account of emotional disorders	146
<b>de Gelder, B. &amp; Vandenbulcke, M.</b>	Emotions as mind organs	147
<b>Deshpande, G., Sathian, K., Hu, X. &amp; Buckhalt, J. A.</b>	A rigorous approach for testing the constructionist hypotheses of brain function	148
<b>Gardiner, M. F.</b>	Emotional participation in musical and non-musical behaviors	149
<b>Hamann, S.</b>	What can neuroimaging meta-analyses really tell us about the nature of emotion?	150
<b>Hechtman, L. A., Pornpattananangkul, N. &amp; Chiao, J. Y.</b>	Psychological constructionism and cultural neuroscience	152
<b>Humeny, C., Kelly, D. &amp; Brook, A.</b>	Further routes to psychological constructionism	153
<b>Jablonka, E. &amp; Ginsburg, S.</b>	Scaffolding emotions and evolving language	154
<b>Kirov, R., Brand, S., Kolev, V. &amp; Yordanova, J.</b>	The sleeping brain and the neural basis of emotions	155
<b>Murphy, F. C., Ewbank, M. P. &amp; Calder, A. J.</b>	Emotion and personality factors influence the neural response to emotional stimuli	156
<b>Perlovsky, L.</b>	Emotions of “higher” cognition	157
<b>Pessoa, L.</b>	Beyond brain regions: Network perspective of cognition–emotion interactions	158
<b>Quirin, M. &amp; Lane, R. D.</b>	The construction of emotional experience requires the integration of implicit and explicit emotional processes	159
<b>Rothenberger, A.</b>	A systems approach to the brain basis of emotion also needs developmental and locationist views – the case of Tourette’s Syndrome	160
<b>Sander, D.</b>	The role of the amygdala in the appraising brain	161
<b>Scarantino, A.</b>	Functional specialization does not require a one-to-one mapping between brain regions and emotions	161
<b>Scherer, K. R.</b>	Neuroscience findings are consistent with appraisal theories of emotion; but does the brain “respect” constructionism?	163
<b>Smaldino, P. E. &amp; Schank, J. C.</b>	Invariants of human emotion	164
<b>Staniłoiu, A. &amp; Markowitsch, H. J.</b>	A rapprochement between emotion and cognition: Amygdala, emotion, and self-relevance in episodic-autobiographical memory	164
<b>Stapleton, M.</b>	Feeling the strain: Predicting the third dimension of core affect	166
<b>Swain, J. E. &amp; Ho, S. S.</b>	What’s in a baby-cry? Locationist and constructionist frameworks in parental brain responses	167
<b>Unoka, Z., Berán, E. &amp; Pléh, C.</b>	Narrative constructions and the life history issue in brain–emotions relations	168
<b>Vigil, J. M., Dukes, A. &amp; Coulombe, P.</b>	Neuronal deactivation is equally important for understanding emotional processing	169
<b>Waugh, C. E. &amp; Schirillo, J. A.</b>	Timing: A missing key ingredient in typical fMRI studies of emotion	170
<b>Weisfeld, G. &amp; LaFreniere, P.</b>	Need for more evolutionary and developmental perspective on basic emotional mechanisms	171
<b>Authors’ Response</b>		
<b>Lindquist, K. A., Wager, T. D., Bliss-Moreau, E., Kober, H. &amp; Barrett, L. F.</b>	What are emotions and how are they created in the brain?	172
