DISCONNECTED: A FILM ABOUT THE SOCIAL INTEGRATION OF PEOPLE SUFFERING SCHIZOPHRENIA

J.J.M. Jambrina

Psychiatry, Mental Health Service, San Agustín Hospital, Avilés, Spain

I was attending the 17th European Congress in Lisbon where I introduced our work in Avilés, Asturias, Spain. We have been developing the first Spanish experience in Assertive Community Treatments during ten years. Nowadays, ACT has been disseminated all over our country.

We have made a beautiful film about our work titled DISCONNECTED. It was directed by a famous Spanish director (M. Gómez Pereira) and is getting a great success in Spain. It lasts 58 minutes.

Do you think it would be possible to show it in Vienna's Congress? The film has been subtitled into English.

I'm attaching you the official trailer.
