In the original publication of this article (Seiler *et al.*, 2020), the word “hypertonia” was mistakenly used in six instances where “hypertension” was meant. The locations of these instances are as follows:

- In the Results section of the abstract.
- In the first paragraph under the subheading “Determination of predisposing and precipitating factors” in the Results section.
- In the first paragraph under the subheading “Multiple regressions analysis for predisposing and precipitating factors for delirium” in the Results section.
- In Table 3.
- At the end of the first paragraph of the Discussion section.
- In the second sentence of the fourth paragraph of the Discussion section.

The abstract of the original article has been updated. The authors apologize for this error.
