**Sanctions in Canadian & Australian  
Foreign Policy / Kim Richard Nossal**

A contrary perspective on international sanctions as a tool of statecraft, using Canada and Australia as case studies. Nossal finds that sanctions by these middle powers accomplish little and leave foreign governments unaffected while hurting ordinary people.

\$21.95 paper, \$60.00 cloth

Despite the ambiguity of the term, middle powers do provide a useful focus for an investigation of the utilities of international sanctions precisely because of their middling capabilities. On the one hand, middle powers do not have the capabilities of large powers that would give their sanctions effective and instrumental impact. Unlike the great powers, middle powers simply do not have the ability to inflict serious harm on other states with sanctions. On the other hand, middle powers have relatively greater capabilities than small states or microstates. While it is possible to explain the sanctions policies of a micro-state as pure symbolism – in other words, sanctions not designed to have any instrumental impact on the target – middle powers are not so small that one could simply explain their sanctions policies in symbolic terms. *from Rain Dancing*

OXFORD  
REVIEW OF  
ECONOMIC  
POLICY

Volume 11 1995

Oxford University Press

In 1995 the journal tackles four particularly topical themes:

**Unemployment [11/1]:**

Most countries have experienced a rise in unemployment in the last 25 years; America and Japan have suffered much smaller rises than Europe as a whole, while the experiences of different European countries have been diverse. The journal takes a wide ranging look at unemployment internationally.

**Regional Policy [11/2]:**

Growing trade integration in Europe, and more general economic integration as a result of the European Union, have focused attention on the economic disparities which exist within Europe, the factors causing them, and on policy designed to deal with the imbalances. This issue examines the influences on future regional policy in the UK and in Europe as a whole.

**Reform of the Welfare State [11/3]:**

Can the UK afford its present social security commitments? The journal investigates alternative welfare regimes. International comparisons are used to widen the scope of this reexamination.

**China [11/4]:**

In 1978 China was economically and politically exhausted. The country has now emerged as a major force in the world economy. This issue looks at the important elements in the continuing reform process and attempts to evaluate China's economic prospects.

Each quarterly issue of **Oxford Review of Economic Policy** scrutinizes a particular theme, giving a valuable appraisal of the current economic policies in the UK and abroad.

While analysis is both challenging and at the forefront of current thinking, the journal's nontechnical language makes it immediately accessible to readers, whether or not they have an academic economics background. The journal has become indispensable to those who need to know where research is leading.

# Third World Quarterly

## EDITOR

**Shahid Qadir,**

*Royal Holloway, University of London, UK*

Supported by an International Editorial Board

*Third World Quarterly* is the leading journal of scholarship and policy in the field of international studies. For almost two decades it has set the agenda on Third World affairs. As the most influential academic journal covering the emerging world, *Third World Quarterly* is at the forefront of analysis and commentary on fundamental issues of global concern.

*Third World Quarterly* provides expert and interdisciplinary insight into crucial issues before they impinge upon media attention, as well as coverage of the latest publications in its comprehensive book review section.

*Third World Quarterly's* original articles provide diverse perspectives on the developmental process and a candid discussion of democratic transitions, as well as identifying significant political, economic and social issues. Readable, free from esoteric jargon, informed without being abstruse, always authoritative and often provocative, *Third World Quarterly* covers the key North-South developments in the post-wall world.

## SPECIAL ISSUES

*Third World Quarterly* annually commissions special issues on key concepts and processes. The 1995 Special Issue will be entitled *Non-Governmental Organisations, the United Nations and Global Governance*.

## FORTHCOMING TOPICS IN 1995 INCLUDE:

MILLER  
CENTER

JOURNAL

Volume I Spring 1994

Editor: Kenneth W. Thompson

This annual offers scholarly articles of enduring value that will promote discussions and give fresh perspectives on the presidency, governance, and foreign views of American governance.

The *Journal* endeavors to strengthen understanding and political practices through the exchange of ideas on fundamental issues in these three areas of interest.

The inaugural issue features articles by Richard E. Neustadt, Fred I. Greenstein, James Sterling Young, and Robert A. Strong that address presidential transitions, leadership styles, legislative governance, and the sources of evidence for analyzing the modern presidency.

Timely issues are emphasized as well as problems of the presidency and governance that deserve deeper, more reflective analysis. The premier issue contains a thoughtful exchange on presidential debates; Hugh Sidey's essay on presidential character, and Kenneth Thompson's book review essay on Richard Reeves' study of the Kennedy presidency.

You will want to subscribe to *The Miller Center Journal* if you are interested in substantive and probing research. It promises to be a unique contribution to the literature on presidential studies, governance, and comparative politics that appeals to practitioners and scholars alike.

Published since 1951 by the International Political Science Association (all back volumes are available), the *Abstracts* is a major source of bibliographic information in political science. It publishes abstracts of articles in specialized and non specialized periodicals, including major yearbooks. Articles in English are abstracted in English; those in other languages (about one fourth of the total) are abstracted in French, with all titles translated into English. In 1994 it published 6,397 abstracts from over 1,000 journals, in six issues. Each issue carries a detailed subject index and a list of the periodicals examined. The final issue of each volume provides a cumulative subject index and an author index.
