Beardon, A. F. Integral means of subharmonic functions	151
Beardon, A. F. Montel's theorem for subharmonic functions and solutions of partial differential equations	123
Bollobas, B. The power inequality on Banach spaces	411
Bowtell, A. J. and Cohn, P. M. Bounded and invariant elements in 2-firs	1
Brualdi, R. A. Matchings in arbitrary graphs	401
Caplan, T. A. and Davies, H. The space-time metric inside a rotating cylinder	325
Clarke, C. J. S. On the geodesic completeness of causal space-times	319
Coates, J. An application of the Thue–Siegel–Roth theorem to elliptic functions	157
Cohn, P. M. and Bowtell, A. J. Bounded and invariant elements in 2-firs	1
Davies, H. and Caplan, T. A. The space-time metric inside a rotating cylinder	325
Davies, R. O. Some remarks on the Kakeya problem	417
Davis, A. M. J. Notes on existence of eigenvalues	329
Dikshit, H. P. Absolute total-effective (N, p_n) means	107
Duncan, J. Compact operators and Banach algebras	79
Green, A. E., Naghdi, P. M. and Wenner, M. L. Linear theory of Cosserat surface and elastic plates of variable thickness	227
Hodgson, J. P. E. Automorphisms of metastably connected PL -manifolds	75
James, I. M. On the homotopy-symmetry of sphere bundles	291
Jones, R. H. Modular spin representations of the symmetric group	365
Joseph, A. A second anticommutant theorem for symmetric ternary algebras	25
Knight, J. T. A note on residually finite groups	255
Longuet-Higgins, M. S. A synthetic proof of de Longchamps' chain	393
Lord, E. A. General relativity from gauge invariance	423
Markham, T. L. Factorizations of completely positive matrices	53
Martins, P. de A. P. An iterative method to calculate the phases of Coulomb functions	167
Millar, R. F. On the Rayleigh assumption in scattering by a periodic surface. II	217
Millar, R. F. Singularities of two-dimensional exterior solutions of the Helmholtz equation	175
Miller, D. T. Comments on the classical theory of magnetic monopoles.	449
Naghdi, P. M., Wenner, M. L. and Green, A. E. Linear theory of Cosserat surface and elastic plates of variable thickness	227
Northcott, D. G. Homology, Hilbert functions, and the conservation of number	59
Ordman, E. T. On subgroups of amalgamated free products.	13

	PAGE
Packham, B. A. and Shail, R. Stratified laminar flow of two immiscible fluids	443
Pietro, J. S. Some computations in the modular representation ring of a finite group	163
Rajwade, A. R. The period equation for primes p congruent to 1 (mod 5)	153
Ranger, K. B. Slow viscous flow past a rotating sphere	333
Rider, D. Functions which operate on positive definite functions	87
Rohatgi, V. K. Convergence of weighted sums of independent random variables	305
Russell, D. C. Summability methods which include the Riesz typical means. I	99
Russell, D. C. Summability methods which include the Riesz typical means. II	297
Schnute, J. T. The scattering of surface waves by two submerged cylinders	201
Scott, G. P. A note on the homotopy type of PL_2	257
Shail, R. and Packham, B. A. Stratified laminar flow of two immiscible fluids	443
Shanbhag, D. N. An extension of Lukac's result	301
Smith, J. W. On the differential topology of space-time	295
Snaith, V. P. Massey products in K -theory. II	259
Spain, P. G. On scalar-type spectral operators	409
Stewartson, K. and Waechter, R. T. On hearing the shape of a drum: further results	353
Stoeckli, H. F. Quantum mechanics and the gravitational red shift	315
Tallis, G. M. A note on sufficient statistics and the exponential family	309
Temperley, D. J. and Todd, L. The effects of wall conductivity in magnetohydrodynamic duct flow at high Hartmann numbers	337
Todd, L. Two-dimensional flow past a flat plate in the presence of boundary walls	189
Todd, L. and Temperley, D. J. The effects of wall conductivity in magnetohydrodynamic duct flow at high Hartmann numbers	337
Waechter, R. T. and Stewartson, K. On hearing the shape of a drum: further results	353
Wenner, M. L., Green, A. E. and Naghdi, P. M. Linear theory of Cosserat surface and elastic plates of variable thickness	227
Westcott, B. S. Electromagnetic wave propagation in an inhomogeneous gyrational medium	457
Wilson, J. S. Groups with every proper quotient finite	373
Wright, P. Collapsing $K \times I$ to vertical segments	71
