Politics & Gender is an agenda-setting journal that publishes the highest quality scholarship on gender and politics and on women and politics. It aims to represent the full range of questions, issues, and approaches on gender and women across the major subfields of political science, including comparative politics, international relations, political theory, and U.S. politics. The Editors welcome studies that address fundamental questions in politics and political science from the perspective of gender, as well as those that interrogate and challenge standard theoretical approaches, methodologies, and analytical categories.
