# Environmental Conservation

The international Journal  
devoted to maintaining global  
viability through exposing and  
countering environmental  
deterioration resulting from  
human population pressure  
and unwise technology

# ENVIRONMENTAL CONSERVATION

advocates timely action for the protection and amelioration of the environment of Man and Nature throughout the world: Topics range from pertinent case-histories of the past and present to rational use of resources, foreseeing ecological consequences, enlightened environmental policy, anti-pollution measures, low-impact development, environmental education and law, and ecologically sound management of all land and fresh water, sea and air, for the lasting future of Earth's fragile biosphere.

The following are the main types of contributions which may be accepted for publication in this Journal:

- Survey articles on important aspects of its subject;
- Research papers whether basic or 'confirmatory';
- Case-history accounts of wide significance and interest;
- Short Communications*: reports, comments, news, notes;
- Ecosystems for Conservation*: examples from around the world;
- Conferences & Meetings*: summary reports; important prospects;
- Reviews & Notices*: of new books etc.

## SUBMISSION OF MANUSCRIPTS

All contributions must be in precise English and original, submission of a 'manuscript' implying that it is unpublished and is not being considered contemporaneously for publication elsewhere. Manuscripts (two copies, including one on airmail paper) and allied materials should be sent to:

Prof. Dr Nicholas Polunin, Editor  
ENVIRONMENTAL CONSERVATION  
15 Chemin F.-Lehmann  
1218 Grand-Saconnex  
Geneva, Switzerland,

or to one of the above Advisory Editors. There is a set of Instructions for Authors at the end of each issue; failure to follow these in reasonable degree may lead to return of a manuscript for restyling before it can be considered or even refereed.

## PUBLISHING AND SUBSCRIPTION INFORMATION

*Environmental Conservation* is published by Elsevier Sequoia S.A., Lausanne, for the Foundation for Environmental Conservation, with the collaboration of the International Union for Conservation of Nature and Natural Resources (IUCN), International Association for Ecology (INTECOL), International Conferences on Environmental Future (ICEF), World Environment and Resources Council (WERC), World Wildlife Fund (WWF), and others. It is covered in about twelve international contents and abstracting journals emanating from Great Britain, the United States, Italy, and West Germany.

*Environmental Conservation* is published quarterly, corresponding to the four seasons in the Northern Hemisphere. Size 28 × 20 cm, comprising 320 pages of text per annum (which it is hoped soon to extend). The annual subscription price for 1977 and 1978 continues at SFrs 120 (including postage) per volume.
