

ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

AUGUST 1972

VOL. 15 PART 1

LONGMAN

INFORMATION FOR CONTRIBUTORS TO *ANIMAL PRODUCTION*

Detailed notes for guidance in the preparation of manuscripts are printed in volume 13, pages ix to xx. A few general points are given below.

Animal Production publishes papers on original research provided that they have not been and, with the exception of authors' summaries, will not be published elsewhere without the Editors' written permission. Authors' summaries can be reproduced if full acknowledgement of the source is made.

Contributions may be in the field of animal production, or in any related scientific field. Reports on techniques will be published only as appendices to scientific papers. Results of research which do not warrant a comprehensive presentation may be submitted for consideration as *Notes*. Notes are not intended for the publication of interim results. They should not exceed 2000 words or the equivalent inclusive of tables and illustrations.

Manuscripts should be typewritten in double spacing with wide margins. Each page and the lines on each page should be numbered. Two copies of the typescript (and of illustrations) should be sent to

Dr. Gerald Wiener,
Animal Production,
A.R.C. Animal Breeding Research Organisation,
West Mains Road, Edinburgh EH9 3JQ, Scotland

Manuscripts are not returned with proofs; authors should therefore retain copies.

Units of measurement. Metric units should be used. SI units will be accepted but are not obligatory.

Symbols and abbreviations. Authors should consult the notes prepared for guidance. Levels of statistical significance which can be indicated without explanation are: * = $P < 0.05$, ** = $P < 0.01$, *** = $P < 0.001$.

Illustrations. The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board, stout tracing paper or plastic film. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil.
 - (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors.
 - (c) Colour plates are unlikely to be accepted unless authors bear the cost.
- Tables* should be as simple and as few as possible. When constructing tables, it would be helpful if authors would take into account the size and shape of the pages of *Animal Production*.

AMERICAN SOCIETY OF ANIMAL SCIENCE

PUBLISHERS OF THE MONTHLY

Journal of Animal Science

113 North Neil Street, Champaign, Illinois 61820

The Journal of Animal Science is published monthly by the American Society of Animal Science. It contains papers dealing with livestock production problems and review papers on subjects of general interest to those dealing with livestock production problems. Papers are classified in the table of contents under the following headings: Applied Animal Science, Breeding and Genetics, Meat Science and Muscle Biology, Nonruminant Nutrition, Physiology and Endocrinology, Ruminant Nutrition, and Teaching.

All persons engaged or previously engaged in investigation, instruction or extension in animal production or in the production of livestock products are eligible for membership in the Society. Membership may be obtained after formal application sponsored by one member of the Society in good standing, the payment of dues, and election by the membership committee. The annual membership dues are: U.S. and Canada, \$20.00; South and Central America, \$20.50; other countries, \$21.00; and this includes a subscription to the *Journal of Animal Science*.

Correspondence concerning subscriptions, purchase of single copies and back issues and related business should be addressed to the Business Manager, Claude Cruse, 425 Illinois Building, 113 North Neil Street, Champaign, Illinois 61820, U.S.A. The subscription price for nonmembers is \$24.00 in the United States and Canada, \$24.50 in the rest of North and South America, and \$25.00 in other places. Checks should be made payable to the American Society of Animal Science. Foreign subscribers are requested to remit by international money order or by a draft on a New York bank.

The Indian Journal of Animal Sciences

The name of The Indian Journal of Veterinary Science and Animal Husbandry has been changed to The Indian Journal of Animal Sciences. With a view to accommodating the increasing flow of articles, the periodicity of this journal has also been changed into a bi-monthly from a quarterly. This journal, now in its 40th year of publication, presents articles reporting the original research work on different aspects of Animal Sciences—Animal Husbandry, Animal Health, Dairy Science, Dairy Technology, Animal Production, etc.—conducted in India and other countries.

Single copy : Sh.7 d6. \$0.85

Annual Subscription : Sh.45.00 \$5.00

Copies available from :

**The Business Manager,
Indian Council of Agricultural Research,
Krishi Bhavan, New Delhi 1.**

The Journal of Agricultural Science

Vol. 78, Part 1, February 1972

Articles include

- MARCA BURNS. Effects of ova transfer on the birthcoats of lambs.
M. FREER, D. B. JONES and K. R. CHRISTIAN. Retention of energy and nitrogen by young sheep on different feeding patterns. (With 3 text-figures).
A. B. HEARN. Cotton spacing experiments in Uganda. (With 2 text-figures).
IEUAN DAVIES. The pattern of reproductive development and the leafiness of spring and early summer regrowths in two contrasting varieties of ryegrass. (With 7 text-figures).
M. KHOSH-KHUI and M. NIKNEJAD. Plant height and width inheritance and their correlation with some of the yield components in chickpeas (*Cicer arietinum* L.).
O. R. DYRMUNDSSON and J. L. LEES. Attainment of puberty and reproductive performance in Clun Forest ewe lambs. (With 2 text-figures).
R. J. PARK, J. L. CORBETT and E. P. FURNIVAL. Flavour differences in meat from lambs grazed on lucerne (*Medicago sativa*) or phalaris (*Phalaris tuberosa*) pastures.
R. J. PARK, R. A. SPURWAY and J. L. WHEELER. Flavour differences in meat from sheep grazed on pasture or winter forage crops.
E. J. ALLEN and M. G. BARKER. Long-term effects of primary cultivations on crop yields in a four-course rotation.
B. O. ADELANA and G. M. MILBOURN. The growth of maize. I. The effect of plant density on yield of digestible dry matter and grain. (With 7 text-figures).
B. O. ADELANA and G. M. MILBOURN. The growth of maize. II. Dry-matter partition in three maize hybrids. (With 2 text-figures).
J. A. MILNE and R. C. CAMPLING. Intake and digestibility by sheep of artificially dried forages in several physical forms.
P. B. O'DONOVAN, A. CONWAY and J. O'SHEA. A study of the herbage intake and efficiency of feed utilization of grazing cattle previously fed two winter planes of nutrition. (With 3 text-figures).
P. B. O'DONOVAN. Errors associated with expressing pasture intake as dry rather than organic matter at high stocking intensities. (With 2 text-figures).
J. G. MORRIS and G. W. MURPHY. The sodium requirements of beef calves for growth. (With 1 text-figure).
A. R. SYKES and A. C. FIELD. Effects of dietary deficiencies of energy, protein and calcium on the pregnant ewe. I. Body composition and mineral content of the ewes. (With 1 text-figure).

£2.60 net (\$8.00 in U.S.A.). Annual subscription £12.00 net (\$39 in U.S.A.) for six issues

CAMBRIDGE UNIVERSITY PRESS

PROCEEDINGS OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

The British Society of Animal Production is recommencing publication of an annual Proceedings in 1972. The Proceedings will contain material given at the Society's meetings and reports and reviews commissioned by the Society. Other original research papers will continue to appear in *Animal Production*.

In addition to Abstracts of the short papers given at the Society's 54th Meeting, the 1972 Proceedings will include papers from four recent Symposia organised by the Society:—

Artificial Rearing of Pigs
Processing of Roughages
Aspects of Carcass Evaluation
Animal Production from Grassland

The Annual Subscription for the Proceedings is £1·75 (\$6.00, U.S. and Canada), a joint subscription with *Animal Production* will be available at £10·00 (\$28.00, U.S. and Canada) from 1973 onwards. Orders for the Proceedings and all subscription enquiries to Longman Group Limited, Journals Division, 33 Montgomery Street, Edinburgh, EH7 5JX.

Animal Behaviour

A journal for ethologists and psychologists

The official organ of the Association for the Study of Animal Behaviour and the Animal Behaviour Society in co-operation with the Ecological Society of America and the American Society of Zoologists. *Animal Behaviour* is the foremost English language journal devoted to the scientific study of the behaviour of all members of the animal kingdom, including birds, fish and insects. The contents cover the aspects of ecology, evolution, genetics, breeding, nutrition, endocrinology, physiology and pharmacology. It has an international reputation, with contributors and readers in most countries of the world and reaches research specialists, lecturers, zoologists, animal breeders, physiologists, veterinary surgeons and many others.
