

# General Notes

## TEMPORAL BONE SURGICAL DISSECTION COURSE

OFFERED BY

### THE DEPARTMENT OF OTOLARYNGOLOGY

THE UNIVERSITY OF MICHIGAN MEDICAL SCHOOL, ANN ARBOR, MICHIGAN

COURSE DIRECTOR: JOHN L. KEMINK, M.D.

**1991:**                    22–26 April                    27–31 May                    7–11 October                    11–15 November

Intensive one-week courses emphasize the surgical and anatomical approaches to the temporal bone, and are presented in a manner relevant for the otologic surgeon, utilizing lectures, videotapes, and dissection.

Mornings and afternoons are spent in the dissection laboratory, giving extensive drilling experience in temporal bone anatomy and surgical techniques. All instruments and high-speed handpieces will be provided.

Course fee: Physicians \$1,000                    Residents \$750

For further information write:

## SHILEY FELLOWSHIP 1991

### ENTRIES ARE INVITED FOR THE 1991 AWARD

The Fellowship value £1,500 is awarded to enable a Registrar/Senior Registrar from Great Britain and Ireland with an interest in Laryngology to visit a centre or to attend a conference abroad.

The award will be presented for the best new design of an instrument or device for use in the field of Laryngology or Rhinology.

Entries must be submitted by 1 July 1991 to the Honorary Secretary, Section of Laryngology, Royal Society of Medicine.

The award will be presented at the November meeting of the Royal Society of Medicine.

Further information can be obtained from the:

Honorary Secretary,  
Section of Laryngology,  
Royal Society of Medicine,  
1 Wimpole Street,  
London W1.

**SECOND NATIONAL HEAD AND NECK ONCOLOGY CONFERENCE**

Florence Nightingale Hall  
University of Nottingham

9-12 April, 1991

A multi-disciplinary conference for all professionals involved in the management and rehabilitation of patients with head and neck cancer. Sessions devoted to surgical management, radiotherapy, functional problems (speech and swallowing) and therapy, cosmesis, psychosocial aspects and nursing care, feeding and nutrition workshop.

Multi-disciplinary faculty includes:

Professor Sir Don Harrison	Professor Michael Walsh
Mr Pat Bradley	Mr Andrew Batchelor
Mr Martin Deadman	Dr Ron Hamaker (USA)
Dr Alison Perry	Mr Peter Rhys-Evans
Mr Victor Schramm (USA)	Mr Waryam Singh
	Mr Henry Shaw

REGISTRATION	Doctors	Other delegates
Full board package	£195.00	£165.00
Non-resident	£125.00	£ 90.00

ABSTRACTS of 100 words for short papers sections by 15 December, 1990.

Apply to: Conference Co-ordinator  
Speech Therapy Department  
University Hospital  
Nottingham NG7 2UH  
Telephone 0602 709221

THE TWJ FOUNDATION

The Trustees of the TWJ Foundation

invite applications for

**TWO MICHAEL COOK TINNITUS FELLOWSHIPS**

tenable during 1991

These Fellowships will be funded by the Michael Cook Fund which was formed within the TWJ Foundation and endowed by the family and friends of the late Michael Cook who himself suffered very severely from tinnitus. The object of the Fund is to increase the special facilities available to tinnitus sufferers and to encourage research into the cause of the symptom.

The Fellowships will be offered to a Consultant Otolaryngologist or Audiological Physician and a Tinnitus Therapist from the same centre to enable them to spend two weeks visiting the Department of Professor Jack Vernon at Portland, Oregon, and studying the methods used for the treatment of those suffering from Tinnitus. A condition is that both holders visit Professor Vernon at the same time. It will be expected that the holders already have an interest in the problem and that on their return home they intend to develop or initiate special facilities for tinnitus sufferers.

There is no formal closing date but applicants should obtain further details as soon as possible from:

The Trustees of the TWJ Foundation  
Courtlands, 61 Kingswood Firs  
Grayshott, Hindhead  
Surrey GU26 6ER

**EIGHTH BRITISH ACADEMIC CONFERENCE IN OTORHINOLARYNGOLOGY**

AT DUBLIN, IRELAND

28 July to 2 August, 1991

Distinguished international contributors will present and discuss recent developments in otorhinolaryngology. Topics will include:

- 1 Functional endoscopic nasal and sinus surgery.
- 2 Head and neck cancer/Skull base surgery.
- 3 Facial plastic and reconstructive surgery.
- 4 Sleep apnoea and snoring.
- 5 Middle ear surgery—state of the art.
- 6 Auditory implants and hearing aids.

Daily instructional sessions in small seminar groups.

Daily audiovisual programme.

Full social programme for members and guests.

Scientific and Trade Exhibitions.

Enrolment fee: £425 Full; £175 Associate; £60 Guests.

(Fellowship applications must be returned by 31st March, 1991).

Those interested should apply to:

Mrs T. Croom-Johnson  
Meadow Cottage  
Church Walk  
Wellesbourne  
Warwickshire CV35 9QT, UK

**OTOLOGY AND AUDIOLOGY COURSE**

The next Otolaryngology and Audiology Course will be held in Glasgow Royal Infirmary from 22 to 26 April, 1991.

It is aimed at trainees at all levels in otolaryngology.

The emphasis will be on practical aspects of patient management and will consist of lectures, tutorials and clinical teaching.

The course fee is £260.00 and numbers will be limited to 20.

Further information from:

Professor G. G. Browning  
University of Glasgow  
Department of Otolaryngology  
Royal Infirmary  
Glasgow G4 0SF.

THIRD COURSE ON ENDOSCOPIC SURGERY OF  
THE PARANASAL SINUSES

Universities of Brussels and Cologne

24-27 April, 1991

Organized by Professor P. Clement, Brussels  
Professor E. Stennert and  
Professor W. F. Thumfart, Cologne

International Faculty\*. Course language English.

Course features intense cadaver dissections (high resolution CT-documented), didactic lectures, video tapes and live patient demonstrations. Emphasizes various endonasal sinus surgery techniques. Held 2 days each in the historic cities of Brussels and Cologne. Ladies programme available. Laboratory enrolment limited. Instruments and endoscopic video-sets provided.

Course fees (lunches, welcome and farewell dinners included):  
lectures, live demonstrations and laboratory – \$650,-  
lectures and live demonstrations – \$450,-  
Accompanying person – \$150,-

SHILEY FELLOWSHIP 1990

This years Shiley Fellowship has been awarded to Mr D. Morgan, Senior Registrar, The National Throat, Nose and Ear Hospital London, for his entry of a Portable PE Segment Manometer.

## COGNITIVE ASPECTS OF HUMAN AUDITION

A Tutorial Workshop organized by the  
Hearing Group of the French Acoustical Society  
and the  
Institut de Recherche et Coordination Acoustique/Musique (IRCAM)  
21–22 February 1991  
Centre National d'Art et de Culture 'Georges Pompidou', Paris

The study of cognitive aspects of sensory information processing is particularly well developed in the domains of vision and speech. Today, research in non-verbal auditory cognition is also making great progress and is beginning to affirm itself as a new research orientation. We propose to present the state of the art in this field by organizing a Tutorial Workshop on *Cognitive Aspects of Human Audition* oriented toward students in cognitive sciences and scientists specializing in fields other than auditory psychology.

## CONTENTS OF THE WORKSHOP

1. **Introduction to auditory cognition**—Stephen McAdams (Laboratory of Experimental Psychology, René Descartes University, Paris, France).
2. **Auditory scene analysis: Listening in complex environments**—Albert S. Bregman (Department of Psychology, McGill University, Montréal, Canada).
3. **Perception of global properties of sound sequences**—Richard M. Warren (Department of Psychology, University of Wisconsin, Milwaukee, Wisconsin, U.S.A.).
4. **Attending to auditory events**—Mari Riess Jones (Department of Psychology, Ohio State University, Columbus, Ohio, U.S.A.).
5. **Auditory memory**—Robert G. Crowder (Department of Psychology, Yale University, New Haven, Connecticut, U.S.A.).
6. **Contributions of music psychology to research on human auditory perception and cognition**—Emmanuel Bigand (Department of Psychology, University of Paris X, Nanterre, France).
7. **Recognition of non-linguistic auditory objects: Contributions from neuropsychology**—Isabelle Peretz (Department of Psychology, University of Montreal, Quebec, Canada).
8. **Listening strategies in infancy: The roots of language and musical development**—Sandra E. Trehub (Center for Research in Human Development, University of Toronto, Mississauga, Ontario, Canada).

## WORKSHOP ORGANIZATION

- Dates: 2 days of tutorial presentations—Thursday and Friday, 21 & 22 February 1991. The Workshop will take place in the Petite Salle of the Centre National d'Art et de Culture 'Georges Pompidou', in the heart of Paris.
- Each speaker will have one hour of presentation time followed by a half hour of questions and discussions.
- Three presentations will be in French (1,6,7) and five will be in English (2,3,4,5,8).
- Each day is composed of only four presentations separated by coffee breaks and lunch, allowing plenty of time for attendees to meet the speakers and to have informal discussions.

For further information and registration forms, please write to:

Groupe Audition de la S.F.A.  
Laboratoire de Psychologie Expérimentale  
28, rue Serpente  
F-75006 Paris  
FRANCE

## THE INSTITUTE OF LARYNGOLOGY AND OTOTOLOGY

University College and Middlesex School of Medicine

GRAY'S INN ROAD

E.N.T. FELLOWSHIP COURSE

4 – 15 MARCH 1991

(For students taking the Final F.R.C.S. in Otolaryngology)

This two-week, full-time course is *limited to twenty senior students who are about to take the final F.R.C.S.* In addition to a series of lectures/demonstrations at the appropriate level, both in the speciality and in related branches of general surgery, the course will include a number of clinical and viva voce sessions, and the setting and correction of test papers.

Course Tutors: Mr C. M. Bailey, Mr B. C. Croft and Mr R. C. G. Russell

COURSE FEE: £445

(meals and refreshments not included apart from the Course Reception)

All applications must be accompanied by the course fee. Cheques should be made payable to University College London and sent together with the completed application form to:

Cheryl Overington  
Administrative Assistant  
Institute of Laryngology and Otology  
330–332 Grays Inn Road, London WC1X 8EE  
Telephone: 071-837 8855 ext. 4218

## UNIVERSITY OF SOUTHAMPTON

INSTITUTE OF SOUND AND VIBRATION RESEARCH

CLINICAL AUDIOLOGY COURSE

8–12 April 1991

The next annual course has been arranged by the ISVR for 8–12 April 1991. It is intended primarily for specialists in otolaryngology and trainees in the speciality. The course contains information and demonstrations of the latest audiological and vestibulometric techniques, and a comprehensive set of reference notes is provided.

Subjects covered will include:

- the patient with hearing loss, and differential testing
- the medico-legal case
- the dizzy patient
- rehabilitation of the hearing impaired and tinnitus
- paediatric audiology
- auditory electrophysiology

For further information and application forms please contact:

Ann Barrett  
ISVR Conference Secretary,  
The University of Southampton,  
Hants, SO9 5NH.  
Telephone: 0703 592310  
Fax: 0703 593033

Pathological features of the facial nerve in patients with facial palsy of varying aetiology. Light and electronic microscopic study. *Orig. Art.*, 294
- Yoshizaki, T., Ohoka, H., Sakashita, H., Takimoto, T.**  
Fourth branchial pouch anomaly. *Clin. Rec.*, 905
- Zagonel, V., Tirelli, U., Comoretto, R., Monfardini, S., Barzan, L., Veronesi, A., Caruso, G., Serraino, D., Magri, D.**  
Head and neck cancer and ageing: a prospective study in 438 patients. *Orig. Art.*, 634
- Zini, C., Gamoletti, R., Pasanisi, E., Sanna, M.**  
Primary intratemporal tumours of the facial nerve: diagnosis and treat-ment. *Orig. Art.*, 765
- Zini, C., Taibah, A-K., Pasanisi, E., Vassalli, L., Gamoletti, R., Sanna, M.**  
Inner ear cholesteatoma and the preservation of cochlear function. *Orig. Art.*, 945
- Zohar, Y., Talmi, Y. P., Halpern, M., Finkelstein, Y., Gal, R.**  
True malignant mixed tumour of the parotid gland. *Path. Focus*, 360

# SUBJECT INDEX

- Acinic cell carcinoma**  
104: 410
- Acoustic impedance tests**  
children, seven year old, and the home environment. 104: 4  
otitis media with effusion, point and period prevalence. 104: 937
- Acoustic schwannoma**  
auditory brain stem response, abnormalities after surgery. 104: 565  
hearing conservation and posterior fossa surgery. 104: 463  
oestrogen and progesterone receptors. 104: 865  
traumatic origin? 104: 270
- Acromegaly**  
respiratory problems in. 104: 52
- Adenocarcinoma**  
basal cell, of parotid gland. 104: 150  
colonic, laryngeal metastasis from. 104: 730  
papillary of middle ear. 104: 915  
pharyngeal, with intestinal features. 104: 900
- Adenoid cystic carcinoma**  
104: 662
- Adenoidectomy**  
endoscopic approach and histopathological study. 104: 965
- Adenoids**  
endoscopic approach and histopathological study. 104: 965  
HIV infection, presenting feature of. 104: 58
- Adenolymphoma**  
parotid gland, malignant. 104: 656
- Airway obstruction**  
acute, adult. 104: 341  
Teflon injection of vocal cord, following. 104: 654
- Ameloblastoma**  
palate. 104: 252
- Amyloidosis**  
larynx. 104: 147
- Anaesthesia, local**  
Ligmaject system. 104: 606
- Aneurysmal bone cyst**  
(maxillary antrum). 104: 501
- Angiofibroma, juvenile**  
radiation therapy. 104: 725
- Angioleiomyoma**  
vallecula. 104: 341
- Angiolymphoid hyperplasia**  
with eosinophilia. 104: 977
- Aniridia**  
and deafness. 104: 419
- Antibiotics**  
pharyngocutaneous fistulae. 104: 225
- Antidiuretic hormone**  
trans-sphenoidal pituitary adenomectomy. 104: 894
- Antrochoanal polyp**  
presenting as epistaxis. 104: 643
- Arteriovenous fistula**  
pulsatile tinnitus. 104: 421
- Audiology**  
head trauma, findings. 104: 927  
Ramsay Hunt syndrome, manifestations of. 104: 104
- Audiometry, evoked response**  
acoustic schwannoma. 104: 565  
electrocochleography. 104: 326  
head trauma, minor. 104: 191
- Auricle**  
—see Ear, external
- Bacteriology**  
ear swabs in CSOM. 104: 460  
otitis media. 104: 749  
*Pseudomonas aeruginosa*. 104: 678  
*Streptococcus sanguis*. 104: 430
- Balance**  
—see also Dysequilibrium
- Biopsy, needle**  
tuberculous cervical lymphadenopathy. 104: 24
- Blindness**  
bilateral neck dissection. 104: 154
- Blood transfusion**  
head and neck surgery. 104: 28
- Bell's palsy**  
recurrent in pregnancy. 104: 713
- Brain**  
tissue heterotopic, recurrent meningitis. 104: 328
- Brain abscess**  
otogenic. 104: 468
- Branchial cyst**  
per-oral excision of. 104: 143
- Branchial pouch**  
fourth, anomaly of. 104: 905
- Bronchial compression, extrinsic**  
detection of, during foreign body removal. 104: 50
- Bronchial neoplasms**  
carcinoma, second primary tumours of the larynx following. 104: 629
- Burkitt's lymphoma**  
tonsil. 104: 991
- Carcinoid tumour**  
larynx. 104: 264
- Cerebellopontine angle**  
radio-necrosis of temporal bone presenting as. 104: 423
- Cerebellar dyssynergia**  
Ramsay Hunt syndrome, audiological manifestations of. 104: 104
- Cerebral abscess**  
—see Brain abscess
- Cervical abscess**  
infectious mononucleosis. 104: 358
- Choanal atresia**  
bilateral. 104: 482
- Cholesteatoma**  
auro-nasopharyngeal polyp and. 104: 809  
congenital, duro-cutaneous fistula. 104: 241  
inner ear and preservation of cochlear function. 104: 945
- Cochlea**  
inner ear cholesteatoma and preservation of. 104: 945  
otic capsule pathology of. 104: 83  
otosclerosis. 104: 952  
spiral ligament hyalinization. 104: 952  
cochleo-vestibular failure, polyarteritis nodosa presenting as bilateral sudden onset. 104: 562
- Cochlear implant**  
fracture, transverse, bilateral, of petrous temporal bone. 104: 997
- Cranio-metaphyseal dysplasia**  
hearing loss. 104: 807
- Cystic hygroma**  
massive recurrence in adult life. 104: 908
- Cytology**  
fine needle aspiration. 104: 24
- Deafness**  
healing of and St. Cadoc. 104: 1
- Deafness, sensorineural**  
aniridia and. 104: 419  
cochlear otosclerosis. 104: 952  
cranio-metaphyseal dysplasia. 104: 807  
familial salivary gland insensitivity and. 104: 956  
ulcerative colitis and giant cell arteritis. 104: 889  
Waardenburg's syndrome. 104: 97
- Deafness, sudden**  
complication of non-otologic surgery. 104: 711  
polyarteritis nodosa. 104: 562
- Dermoid cyst**  
midline sublingual. 104: 578  
mouth. 104: 141

- Diabetes insipidus**  
nasopharyngeal carcinoma secondary to, and hypercalcaemia. **104:** 43
- D.N.A.**  
flow cytometry. **104:** 410  
flow cytometry, laryngeal cancer. **104:** 485
- Down's syndrome**  
Episodic macroglossia in. **104:** 494
- Dysequilibrium**  
otitis media with effusion and. **104:** 682
- Ear deformities, congenital**  
Quelprud's nodule. **104:** 860
- Ear drops**  
**104:** 862
- Ear, external**  
pseudocyst, treatment of. **104:** 31
- Ear, internal**  
—see Labyrinth
- Earache**  
treatment of, among the Lappish people. **104:** 109  
tympanic neurectomy in otalgia, role of. **104:** 114
- Ear protection**  
**104:** 763
- Electrocochleography**  
—see Audiometry, evoked response
- EMLA cream**  
otitis externa, management of painful. **104:** 998
- Encephalocele**  
cerebellar, post-auricular, secondary to mastoid surgery. **104:** 982
- Endolymphatic hydrops**  
haemodialysis, precipitated by. **104:** 641
- Endolymphatic sac**  
revision surgery, long term results of. **104:** 613
- Endoscopy**  
adenoidectomy and histopathological study. **104:** 965  
scleroma, role of in diagnosing. **104:** 619
- Enterocystoma (giant)**  
infants tongue. **104:** 814
- Epiglottis**  
cartilaginous metaplasia of. **104:** 903
- Epistaxis**  
**104:** 208, 868  
antrochoanal polyp. **104:** 643  
electro- and chemical cautery, comparison of. **104:** 617
- Eustachian tube**  
function, effect of nasogastric tubes on. **104:** 17  
middle ear inflation as indicator of patency. **104:** 134  
patulous, radiological perspective. **104:** 291
- Eye**  
aniridia and deafness. **104:** 419
- Facial nerve tumours**  
primary intratemporal. **104:** 765
- Facial paralysis**  
delayed following stapedectomy. **104:** 611  
pathology of nerve. **104:** 294  
recurrent in pregnancy. **104:** 713
- Fibroinflammatory tumefactive lesions**  
head and neck. **104:** 797
- Fistula**  
duro-cutaneous, congenital cholesteatoma. **104:** 241  
tracheo-oesophageal, acquired, following intubation. **104:** 267
- Flow cytometry**  
D.N.A. content in laryngeal cancer. **104:** 485
- Foreign bodies**  
aspirated in children. **104:** 778  
larynx. **104:** 131  
maxillary sinus. **104:** 718  
oesophagus. **104:** 435  
oesophagus, lingual thyroid cyst complicating. **104:** 508  
removal, extrinsic bronchial compression during. **104:** 50  
thyroid. **104:** 511
- Forestier's Disease**  
—see Spinal osteophytosis, cervical
- Fractures**  
petrous temporal bone. **104:** 438
- Frontal sinusitis**  
intracranial complication of. **104:** 645  
Pott's puffy tumour. **104:** 574
- Genetic counselling**  
Waardenburg's syndrome and hearing loss, implications for. **104:** 97
- Giant cell arteritis**  
—see Temporal arteritis
- Glomus jugulare tumour**  
—see Paranglioma, non-chromaffin
- Glossopharyngeal nerve**  
neuralgia, surgical treatment of, via pharyngeal approach. **104:** 12
- Glottis**  
inter-arytenoid glottic bar. **104:** 727
- Granuloma**  
larynx. **104:** 159  
thorotrast. **104:** 355
- Grommets**  
—see Middle ear ventilation
- Haemangioma**  
cavernous, hypopharynx. **104:** 262  
cervical lymph node. **104:** 513
- Haemangiopericytoma**  
temporal bone. **104:** 998
- Haemangiosarcoma**  
maxillary antrum. **104:** 831
- Haemodialysis**  
endolymphatic hydrops precipitated by. **104:** 641
- Haemorrhage**  
upper jugular, control of. **104:** 976
- Head and neck**  
carcinoma, and ageing. **104:** 634  
———, in the young. **104:** 544  
———, squamous cell, chemotherapy. **104:** 631  
———, scintigraphy in. **104:** 783  
neuroendocrine tumours of. **104:** 504  
teeth in. **104:** 913  
tumefactive fibroinflammatory lesions. **104:** 797
- Head and neck neoplasms**  
blindness, complication of surgery. **104:** 154  
non-Hodgkins lymphoma. **104:** 972
- Head and neck surgery**  
**104:** 529  
blood transfusion. **104:** 28
- Head injury**  
audiology findings following. **104:** 927  
temporal bone findings in. **104:** 986
- Hearing aid**  
implantable, subcutaneous bone conduction. **104:** 534
- Hearing loss**  
childhood, prevalence of. **104:** 675  
conductive, bilateral. **104:** 560
- Hearing loss sensorineural**  
—see also Deafness, sensorineural
- Hearing loss, sudden sensorineural**  
—see Deafness, sudden
- Heart and heart-lung transplantation**  
lymphoproliferative oropharyngeal lesions in. **104:** 720
- Historical**  
Kramer v Wilde. **104:** 381  
St. Cadoc and healing of deaf. **104:** 1
- HIV**  
adenoidal hypertrophy as presenting feature of. **104:** 58  
nasopharyngeal cyst simulating Kaposi's sarcoma. **104:** 498
- Hoarseness**  
foramen magnum meningioma. **104:** 715
- Hypercalcaemia, secondary**  
diabetes insipidus and, nasopharyngeal carcinoma. **104:** 43
- Hypopharynx**  
diverticula, staple gun in the surgery of. **104:** 553  
haemangioma, cavernous of. **104:** 262

- Hypopharyngeal neoplasms**  
see Pharyngeal neoplasms
- Infectious mononucleosis**  
cervical abscess, life threatening complication of. **104:** 358  
lingual tonsillitis, complicated by. **104:** 651
- Implants**  
—see also Cochlear implant  
osseointegrated, dental maxillary sinusitis from. **104:** 33
- Internal carotid artery**  
intrapetrous, spontaneous dissection of. **104:** 491
- Intubation**  
inter-arytenoid glottic bar following. **104:** 727
- Ipratropium bromide**  
long-term safety and efficacy. **104:** 123
- Inverted papilloma**  
hypopharyngeal. **104:** 432
- Jaundice**  
obstructive, nasopharyngeal carcinoma with secondaries at the porta hepatis. **104:** 41
- Jugular haemorrhage**  
upper, control of. **104:** 976
- Kaposi's sarcoma**  
nasopharynx. **104:** 498
- Kawasaki disease.** **104:** 37, 581
- Labyrinth**  
—see also Endolymphatic hydrops  
cholesteatoma and preservation of cochlear function. **104:** 945  
cochleo-vestibular failure, polyarteritis nodosa presenting as bilateral sudden. **104:** 562  
endolymphatic sac revision surgery, long term results of. **104:** 613  
vestibular dysfunction, Unterberger stepping test. **104:** 599
- Laryngeal cyst**  
**104:** 145
- Laryngeal neoplasms**  
amyloidosis. **104:** 147  
carcinoma, direct extension to neck skin. **104:** 824

# Instructions to Authors

**Historical Articles.** Articles of this type are generally encouraged, but it is obvious that they have to provide some new information or interpretation, whether it be about a well-known person or for example an instrument associated with him, but those from within a Hospital's own department who have made a hitherto less well-known contribution would be welcome.

**Letters to the Editor.** This feature has been re-introduced to give those who wish to comment about a paper previously published within the Journal, an opportunity to express their views. Wherever possible, the original author is asked to add his further comment, thereby adding to the value of the contribution. Such letters should be sent as soon as possible after publication of each month's issue of the Journal in the hope of including them as soon as possible thereafter.

'Mini-papers, such as those which appear in the British Medical Journal, Lancet, or New England Journal of Medicine, will not be acceptable except on the rare occasion that they bring information of immediate interest to the reader.

**Pathology.** Articles which are of pathological interest with particular emphasis on the way the diagnosis was achieved now appear on a monthly or bi-monthly basis. It is hoped that clinicians will involve their pathologists in these reports, and all illustrations must be of first-class quality. Where a department, particularly those overseas, may not have such specialized facilities, it may be possible, if a block or several unstained sections are provided for our Adviser to produce or supplement the illustration submitted. Only contributions of particular pathological interest will be accepted.

**Radiology.** Short reports on cases in which the radiology has been crucial in the making of the diagnosis or the management of a particular case now appear on a monthly or bi-monthly basis. This spot is to encourage clinicians and radiologists to produce material of particular interest in the specialty and to encourage co-operation in this field. Only presentations with first-class illustrations can be accepted and these must emphasise a problem of unusual clinical interest.

**Short Communications.** This feature will be used on an occasional basis. Examples of material suitable for inclusion under this title would be, for example: a piece of work which was of clinical interest but had failed to produce findings which were of statistical significance; where an investigative technique has been applied to an allied field, not warranting a further in-depth description of its earlier application and methodology.

## Check List for Authors/Secretaries

1. Title page—Titles should be short with names of the authors, higher degrees only and the city/country. Details of the departments in which the authors work should be put lower down.  
An address for correspondence should be supplied together with the author who should receive this and this will ultimately appear beneath the list of references. If the paper was presented at a meeting, the details of this must be given and will be inserted at the bottom of the first page of the printed script.
2. Abstract—No paper will be accepted without this and it adds considerably to the Editor's time to have to write and request this if the paper is accepted.
3. To follow the instructions to Authors with the way in which the paper is set out. It is preferred that each section should start on a fresh page with double spacing and wide margins.
4. References must be in the Harvard system; to submit a paper using the Vancouver system is automatically to have it returned or rejected.
5. Two sets of illustrations must be included, one of half-plate size and the other with the width of 80 mm. Illustrations must be clearly labelled with the author's name on the reverse side and where appropriate with an arrow to give orientation.
6. Authors to check manuscript and references to see that these match up particularly for dates and spelling.
7. Title of Journals must be given in full with the date, volume number and first and *last* pages.
8. Consent to be obtained from a patient if a photograph of their face is to be reproduced.
9. If the author to whom correspondence is to be directed changes his address, he should let the Editorial Office know as soon as possible.
10. Page proofs will normally be sent out three months in advance and must be returned as soon as possible.
11. Authors should provide a Facsimile number (FAX) whenever possible to speed communication. The FAX number of the Editorial office is 071-224 1645.
12. Manuscripts with tables only may be transmitted by FAX; those with graphic or visual illustrations, e.g. graphs, X-rays, pathology, electrical records (ENG, BSER etc) must continue to be sent by post as the quality of reproduction does not give sufficient accuracy of detail.

**Instructions to Authors** . . . . . *Inside Front Cover*

**Main Articles**

Editorial . . . . .

Audiology findings following head trauma: *M. R. Abd-Al-Hady, O. Shehata, A. Saleh, F. S. Sallam* . . . . . 927

Point and period prevalence of otitis media with effusion evaluated by daily tympanometry: *H. Møller, M. Tos* . . . . . 937
