HACIENDAS AND RANCHOS IN THE MEXICAN BAJIO

Leon 1700–1860

D. A. BRADING

A study of a frontier agricultural district that experienced a rapid growth and an equally rapid development of agriculture in the eighteenth century. Brading's work clearly demonstrates the commercial nature of the agricultural system and its reliance on free labor and monetary incentives.

Family and Commerce

SUSAN MIGDEN SOCOLOW

Drawing from previously neglected sources in the form of wills, parish records, estate papers, bills of sale, and a variety of legal proceedings, Socolow presents a social history of the merchants of later eighteenth-century Buenos Aires, a group of men who came to control the commerce of the entire Viceroyalty of Rio de la Plata.

DROUGHT AND IRRIGATION IN NORTHEAST BRAZIL

ANTHONY HALL

Using three case studies as evidence, Hall shows that Brazil's irrigation strategy has failed to solve her many drought-related problems of poverty. The drought problem is presented as a socio-economic rather than a climatic problem, and the author suggests that new directions should now be taken.

Catalogue of the West India Reference Library

Being the National Library of Jamaica

The West India Reference Library represents the world's pre-eminent research collection of West Indian materials—both published and in manuscript. Founded in the late 19th century by the pioneer in the field of Caribbean bibliography, Frank Cundall, the West India Reference Library is a vital source for researchers and scholars interested in studying the social, political, economic, and cultural history of the societies comprising the West Indies. This published catalogue of the Library's collection is therefore an essential source for Caribbean studies.

The Catalogue consists of ten volumes, encompassing the Library's more than 120,000 catalogue cards which have been photo-offset, and allows the user to locate materials by subject, by author, or by title. This unique collection of Caribbeana contains works published from as early as the sixteenth century. In addition to the books and manuscripts listed, the Catalogue also includes current periodicals and serials, pamphlets, published maps and microfilm holdings.

As a source of Caribbean and Caribbean-related materials, the West India Reference Library is regarded as perhaps the finest in the world. This Catalogue of the Library's holdings thus represents one of the most important bibliographic guides ever published to Caribbeana, past and present.

THE COMPLETE CARIBBEANA 1900-1975: A BIBLIOGRAPHIC GUIDE TO THE SCHOLARLY LITERATURE

"The most comprehensive and complete bibliography of the non-hispanic Caribbean ever published. . . .Comitas offers a 'Guide to the published knowledge of the Caribbean in the twentieth century.' Essential for research libraries and any library with Afro-American or Latin American interests."

—Choice, December 1978

"...highly recommended."

—Library Journal, October 1978

"This remarkable research instrument will prove to be of very great value to research scholars of and in the Caribbean area. . . .Altogether, this is a fundamental contribution to the integration of an important world area."

—Revista/Review Interamericana, Summer 1978

THE COMPLETE CARIBBEANA is a four-volume bibliography containing citations of over 17,000 books, monographs, journal articles, conference proceedings, masters' and doctoral theses, reports, and pamphlets published in the twentieth century. The geographical areas covered include Surinam, French Guiana, Guyana, Belize, Bermuda, The Bahamas and the islands of the Antillean archipelago, with the exception of Haiti and the Spanish-speaking territories.

The organization of the bibliography is topical; titles appear in more than one subject category when appropriate. In addition to complete bibliographic information, each entry contains a geographic designation and a code indicating the library in which the cited material can be found. Citations of material in foreign languages include an English translation of the title. Two indices are provided—an author index and a geographical index. This bibliography supersedes Professor Comitas' one volume *Caribbeana 1900-1965: A Topical Bibliography*.

Political Attitudes in Venezuela Societal Cleavages and Political Opinion

By Enrique A. Baloyra and John D. Martz

In providing a definitive portrait of the political Venezuelan, this book breaks new ground in quantitative research methods. The authors interviewed over 1,500 voters to determine relationships between class, status, community, context, religion, ideology, and partisanship on the one hand and political attitudes and preferences on the other.

Brazil and the Quiet Intervention, 1964

By Phyllis R. Parker

It has become apparent, largely through government documents declassified during the course of research for this book, that the United States had an invisible but pervasive part in the overthrow of Brazilian President João Goulart in 1964. Relying principally on documents from the Johnson and Kennedy presidential libraries, Phyllis Parker unravels the events of the coup in fascinating detail.

Contemporary Portugal The Revolution and Its Antecedents

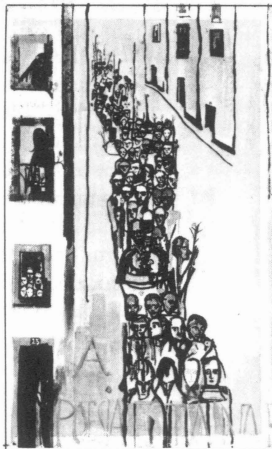

Edited by Lawrence S. Graham

and Harry M. Makler

Foreword by Juan J. Linz

This volume brings together for the first time the majority of the leading social science experts on Portugal. The result is a comprehensive collection of essays discussing in detail the events leading up to the Portuguese Revolution of 1974, the causes of the military coup, and the movement of a society on the brink of upheaval toward open, democratic parliamentary elections.

Drinking, Homicide, and Rebellion in Colonial Mexican Villages

William B. Taylor. Based on criminal trial records and related documents from central Mexico and Oaxaca, this investigation of three areas of social behavior analyzes how peasants conceived of their role under Spanish rule, how they behaved under stress, and how they felt about their Spanish overlords. In examining the character of village uprisings, typical relationships between killers and their victims, and the drinking patterns of the late colonial period, the author finds no warrant for the familiar picture of sullen depredation and despair. The author bolsters his conclusions with illuminating comparisons with other peasant societies. \$16.50

SOCIALISM AND POPULISM IN CHILE, 1932-52

Paul W. Drake

In the first English-language book about Chilean socialism and its populist past by a historian, Paul W. Drake presents an analysis of the emergence and politicization of the socialist movement in that country in the first half of this century. Long considered unique, Chile's version of Latin American populism arose behind Marxist electoral parties. Drake analyzes the social and economic dimensions of Chilean socialism and popular front politics from the Great Depression through the onset of the Cold War, thus providing historical perspective on the Allende government of the 1970s. \$15.00

Labyrinths of Power

Political Recruitment in Twentieth-Century Mexico

PETER H. SMITH

Peter Smith has written a comprehensive and in-depth study of the structure and, more important, of the transformation of the national political elite in 20th-century Mexico. In doing so, he analyzes the long-run impact of the Mexican Revolution of 1910 on the composition of the country's ruling elite. Included in his focus are such issues as the social basis of politics, the recruitment process, political career patterns, the amount of periodic turnover, and the relationships between the political and economic elites.

LAND AND POWER IN LATIN AMERICA

Edited by Benjamin S. Orlove and Glynn Custred

Challenging the standard analyses of rural societies, the contributors show that a rigid application of North American and European models oversimplifies and distorts Latin American realities. To rectify traditional viewpoints, they develop an alternative model of economic and social organization based on the peasant household, the fundamental production unit. Seven case studies illustrate their approach.

INFLATION AND STABILIZATION IN LATIN AMERICA

Edited by Rosemary Thorp and Laurence Whitehead

The issue of inflation and stabilization policy in Latin America generated considerable debate and research in the 1960s. In the early 1970s the debate subsided, but it is now reviving as a focal point of controversy. The authors shed new light on these difficult policy issues by examining the reactions of six countries to the adjustment problems thrust upon them in the last decade.

Forced Native Labor in Sixteenth-Century Central America

By William L. Sherman

Little has been written on society in the Spanish Indies during the sixteenth century, although it was during these formative decades that the Latin American class structure evolved. The Spanish conquest of the Indians produced profound social dislocations as many Spaniards of low station found themselves members of a new aristocracy and native lords were reduced to servitude. Focusing on the fate of the natives under Spanish rule, the author traces in graphic detail the rupturing of Indian traditions and the fate that befell the Indian people.

This *Guide*, a project of the Latin American Program of the Woodrow Wilson International Center for Scholars, describes the extensive intellectual resources available in the nation's capital for research on Latin America and the Caribbean. Part I surveys the holdings of Washington-area research *collections* (libraries; archives; art, film, music, and map collections; and data banks). Part II discusses the pertinent activities of Washington-based *organizations* (U.S. government agencies; Latin American and Caribbean embassies; international organizations; private professional and cultural associations; cultural-exchange and technical-assistance organizations; research centers and information offices; and academic departments at local universities). The volume concludes with a series of appendixes (e.g., Latin American-oriented publications and bookstores in Washington) and indexes (name, subject, personal-papers collections, and library subject-strengths). The *Guide* is an invaluable reference aid for research scholars, government officials, librarians, and others interested in Latin America. c. 432 pages \$7.95 paper \$19.95 cloth

Slaves in Red Coats

The British West India Regiments, 1795–1815

Roger Norman Buckley

The British West India Regiments, which fought in the Napoleonic Wars, were recruited from among Creole slaves and “raw” Africans in the Caribbean. This book examines the early history of these regiments within the context of the accelerating Africanization of British West Indian society, rebellions in the Caribbean, and British imperial expansion in Africa. \$17.50

Citizenship and Empire

A Legislative History of American Citizenship for Puerto Ricans

José A. Cabranes

In 1917 the Congress of the United States granted citizenship for Puerto Ricans. This careful and concise study reveals the complexity of the argumentation through which Congress arrived at its decision and dispels two widely credited and competing myths: that the vast majority of Puerto Ricans yearned for citizenship, or that citizenship was imposed on them so that their young men could be drafted into the army. For anyone seriously interested in the political status of Puerto Rico, this book will be essential reading. \$7.95
