Accidental Wounds

Section through healing wound.

1. Dead cells and detritus.
2. Regenerating epithelium.
3. Regenerating connective tissue.
4. Budding new capillaries.

The combination of glycerine with iodine or boric acid is considered by many physicians as ideal for the dressing of wounds.

There are probably few products in which this combination of ingredients is so well compounded and proportioned and which so well fulfils the desiderata for a satisfactory surgical dressing as does

Antiphlogistine
BRAND TRADE MARK DRESSING

It is bacteriostatic, decongestive and pain-relieving.

PRESCRIBE THE EASY EFFECTIVE METHOD

When spraying, the patient can hold his head in a natural position, yet the solution spreads throughout the nasal cavity, assuring thorough treatment. Effective dropper-application, on the other hand, requires a complicated posture technique which patients are apt to neglect in home treatment.

**DeVilbiss
ATOMIZERS**

DROPPER ?

ATOMIZER ?

These illustrations, which are based on X-ray research, clearly demonstrate the advantages of the atomizer as compared with the dropper

The Hospital has **100** beds for In-patients and an annual Out-patient attendance of over **50,000**.

CLINICAL INSTRUCTION

Clinical instruction in the Diagnosis and Treatment of Diseases of the Ear, Nose and Throat is given in the Out-patient Department from 2 to 5 p.m. daily, and on Tuesdays and Thursdays from 6 to 9 p.m. also. Major operations are performed every morning and afternoon, except Saturdays, in the In-patient Operating Theatres. Minor Operations are performed in the Out-patient Operating Theatre on three mornings a week.

Practitioners and Medical Students are admitted to the practice of the Hospital as Post-Graduates. Clinical Assistants, whose duty it is to assist the staff, are appointed as vacancies occur.

For further information apply to the Dean: **GILBERT H. HOWELLS**.

In addition to the General Wards, there are Semi-private Wards and 11 Private Rooms. The charge for a Private Room is 7 guineas a week, plus a fee for the surgeon.

Further particulars may be obtained from F. P. CARROLL, *Secretary-Superintendent*.

The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

WALTER HOWARTH

ASSISTED BY

W. M. MOLLISON

1. Original Articles are accepted on the condition that they have not been published elsewhere.

2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.

3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter added.

4. Orders for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.

5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.

6. Editorial Communications may be addressed to THE EDITOR, *Journal of Laryngology*, c/o HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.

7. The Annual Subscription commencing with the January issue is Two Pounds sterling, post free, and is payable in advance.

8. Single copies, both of the present and the previous series, are on sale at Four Shillings each.

9. All Subscriptions, advertising and business communications should be sent to the Publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.

United States of America

Orders for this Journal may be sent either through a local bookseller, or to Messrs. G. E. STECHERT & CO., 31-33 East 10th Street, New York, or may be sent direct to the Publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2, England.
