## Three Historians of Alexander the Great

N. G. L. HAMMOND

In this book the three earliest accounts of Alexander the Great are for the first time studied in depth and it becomes apparent that each author used more than one source.

'For anyone with a serious interest in Alexander, or in ancient historiography in general, it is necessary reading.'

## Rituals and Power

The Roman Imperial Cult in Asia Minor

S. R. F. PRICE

Simon Price attempts to discover why the Roman emperor was treated like a god and challenges the view of the cult as simply a form of political honours.

'The author of this remarkably detailed study succeeds in giving a new look to the practice of the imperial cult by the Greek-speaking subjects of Rome in the provinces of Asia Minor.'

## Language, Sexuality, Narrative: the *Oresteia*

SIMON GOLDHILL

A challenging book concerned with the complexity and difficulty of reading the *Oresteia*. It offers a close reading of the text concentrating on the developing meanings of words within the structuring of the play. In particular, the author focuses on the text's interests in language and its control, in sexuality and sexual difference, and in the progression and description of events.
