

U Nu of Burma

Richard Butwell. Based largely on personal interviews with U Nu and other Burmese leaders, and on previously unused Burmese-language sources, this book describes and evaluates the role of U Nu as the most important member of the political elite that governed Burma during the first fourteen years of Burmese independence, and depicts the broad outlines of the Burmese political process. \$7.50

Plekhanov

THE FATHER OF RUSSIAN MARXISM. *Samuel H. Baron.* This is the first biography in a Western language of G. V. Plekhanov, the man who laid the theoretical basis of Russian Marxism and who almost single-handedly launched the movement that was to culminate in the Bolshevik Revolution. "An extremely valuable contribution to our understanding of Plekhanov, the history of the international socialist movement, the Russian Revolution, and Russian social history. As a study of Plekhanov, I do not hesitate to call it definitive."—*Bertram D. Wolfe*

The Political Dynamics of European Economic Integration

Leon N. Lindberg. The political consequences of economic integration resulting from the establishment of the European Common Market are shown through this full analysis of the aims and practices of the European Economic Community. Detailed case studies of four important decision-making sequences demonstrate the way in which major conflicts of interest among the member nations were resolved, and also indicate the probable expansive potential of the Common Market. \$7.75

The Civic Culture

By Gabriel A. Almond and Sidney Verba

Going to the grass roots of democracy, the authors have conducted interviews with citizens in five countries—Germany, Italy, Mexico, Great Britain, the United States—to discover the political attitudes of individuals in these modern democratic states. *The Civic Culture* is a study of the political culture of democracy; it describes the individual's political beliefs, aspirations, emotions, and actual participation in politics. Over 5,000 interviews in these five nations were conducted as a basis for this book. The authors have applied the modern techniques of social research to some of the classic problems in political science. *Published for the Center of International Studies.*

Bureaucracy and Political Development

Edited by Joseph LaPalombara

Bureaucracy and Political Development is the second of a series of seven books entitled "Studies in Political Development" sponsored by the Committee on Comparative Politics of the Social Science Research Council. Twelve outstanding scholars here approach the question of bureaucracy both by historical analysis in the United States and in a score of countries in Europe, Asia, and Africa, and by empirical field research in such varied places as Nigeria, Pakistan, Vietnam. They seek to explore how useful the existing theories and models of public administration are for the new states. In several instances, new models are suggested, and in many cases new directions for research are outlined.
