

## Quartz Imaging

**THE MEASURING, ANNOTATING, PROCESSING, REPORTING, ARCHIVING, DO EVERYTHING SOLUTION FOR MICROSCOPY**

More than 2,000 customers in 36 countries since 1993

### The Quartz PCI Family of Products:

#### Quartz PCI Digital Imaging

- **PCI Lab** – Image Acquisition – Suitable for most image producing instruments including: SEMs, TEMs, STEMs, Tabletop SEMs, Cameras, PC based instruments, Scanners, EDX systems
- **PCI Office** – Off-line Image Processing to free up your instruments
- **PCI Lab/CFR and PCI Office/CFR** – For compliance with 21 CFR Part 11

#### Quartz PCI Enterprise Solutions

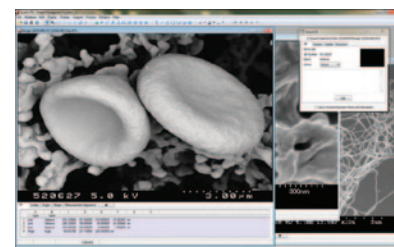

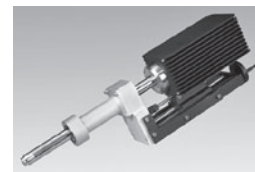

- **PCI Enterprise IIS** – Intranet Image Server – Web-based Data Searching, Workflow, Viewing, and more
- **PCI Enterprise Database SQL** – Improved Security and Performance
- **PCI Enterprise Collaboration** – Allow others to participate in the lab process
- **PCI Enterprise Talon** – Instrument Remote Control for geographically separated users
- **PCI Gatekeeper** – Instrument Access Control with web-based instrument booking software
- **Specialized solutions** – For the Semiconductor industry

#### X-ray Microanalysis

- **Quartz XOne System** – SDD (129 eV resolution), Pulse Processor, and PCI XOne Software

#### Services

- **Custom Development** – Many clients require specific modifications to our software
- **IT Consultation** – Help you plan and implement your system
- **Automated Inspection Systems** – For Nanotechnology
- **Hardware Design & Development** – Data acquisition, pulse processing, instrument remote control
- **Special Metrology Functions** – Custom software to automate these tasks

### How to find us

Quartz Imaging Corp.  
#406 – 6190 Agronomy Rd.  
Vancouver, BC Canada V6T 1Z3
