

Index of Subjects

- Adenovirus, further characterization of 41 isolates of, types 19/37 by serum neutralization and DNA restriction enzyme analysis, 377
- Antibiotic sensitivities of urinary pathogens isolated from patients in Liverpool, 1984–5, 299
- Apramycin and gentamicin resistance in *Escherichia coli* and salmonellas isolated from farm animals, 445
- Apramycin, characterization of plasmids conferring resistance to gentamicin and, in strains of *Salmonella typhimurium* phage type 204c isolated in Britain, 419
- Badger, tuberculosis in East Sussex. II. Aspects of, ecology and surveillance for tuberculosis in badger populations (1976–84), 11
- Badgers, tuberculosis in East Sussex. III. Comparison of post-mortem and clinical methods for the diagnosis of tuberculosis in, 27
- BCG, enzyme immunoassay using, in serodiagnosis of pulmonary tuberculosis, 483
- Bovine enterovirus, the inactivation of a, and a bovine parvovirus in cattle manure by anaerobic digestion, heat treatment, gamma irradiation, ensilage and composting, 175
- Bovine parvovirus, the inactivation of a bovine enterovirus and a, in cattle manure by anaerobic digestion, heat treatment, gamma irradiation, ensilage and composting, 175
- Brucellosis, evaluation of ELISA in the diagnosis of acute and chronic, in human beings, 457
- Calf, speciation, serotyping, antimicrobial sensitivity and plasmid content of Proteaceae from the environment of, -rearing units South West England, 405
- Campylobacter, low incidence of, enteritis in Northern Ireland, 479
- Cattle, tuberculosis in East Sussex. I. Outbreaks of tuberculosis in, herds (1964–84), 1
- Chandipura, susceptibility of various animals to the vesiculo-viruses Isfahan and, 359
- Clostridium perfringens*, large outbreaks of, food-poisoning associated with the consumption of boiled salmon, 71
- Colorectal surgery, recolonization and colonization resistance of the large bowel after three methods of preoperative preparation of the gastrointestinal tract for elective, 49
- Contagious bovine pleuropneumonia, observations on experimental inactivated vaccines for, 305
- Coryneform, plasmids in group JK, bacteria isolated in a single hospital, 255
- Disinfection, chemical, of human rotavirus-contaminated inanimate surfaces, 163
- Disinfection, chemical, or human rotaviruses: efficacy of commercially-available products in suspension tests, 139
- Drinks, bacteriological quality of, from vending machines, 497
- Endotoxin removal from water using microporous polyethylene chopped fibres as a new adsorbent, 103
- Endotoxin, the adsorption of, molecule in a microporous polyethylene hollow fibre membrane, 91
- Escherichia coli*, apramycin and gentamicin resistance in, and salmonellas isolated from farm animals, 445
- Escherichia coli*, a rapid and simple method for the detection and enumeration of, in cleansed shellfish, 273
- Escherichia coli*, the survival of, in an aerosol at air temperatures of 15 and 30 °C and a range of humidities, 489
- Gastroenteritis, an outbreak of, on a passenger cruise ship, 229
- Gentamicin, apramycin and, resistance in *Escherichia coli* and salmonellas isolated from farm animals, 445
- Gentamicin, characterization of plasmids conferring resistance to, and apramycin in strains of *Salmonella typhimurium* phage type 204c isolated in Britain, 419

- Gram-negative, aerobic, pharyngeal bacilli of adult Ethiopians: carrier rates and antibiograms, 247
- Haemorrhagic fever with renal syndrome viruses, the antigenic analysis of, in China by monoclonal antibodies, 369
- Hip replacement, apparent improvement in the outcome of, or knee-joint replacement operations over the period of a prospective study, 501
- Influenza in the United Kingdom 1982-5, 347
- Influenza, prevalence of human (H1N1), virus-antibody in Japanese swine, 503
- Isfahan, susceptibility of various animals to the vesiculoviruses, and Chandipura, 359
- Knee-joint replacement, apparent improvement in the outcome of hip or, operations over the period of a prospective study 501
- Legionella pneumophila*, the effect of oxygen-dependent antimicrobial systems on strains of, of different virulence, 61
- Legionnaires' disease, outbreak of, in Glasgow Royal Infirmary: microbiological aspects, 393
- Leptospiral, serological studies on British, isolates of the Sejroe serogroup. I. The identification of British isolates of the Sejroe serogroup by the cross agglutinin absorption test, 123
- Meningitis, non-neonatal, due to less common bacterial pathogens, the Netherlands, 1975-83, 219
- Methicillin-resistant *Staphylococcus aureus*: a 6-month survey in a Lisbon paediatric hospital, 265
- Nosocomial bacteraemia, a one-year survey of, at a Danish university hospital, 471
- Otological infections, bacterial and mycotic, in Singapore, 385
- Pharyngeal, aerobic Gram-negative, bacilli of adult Ethiopians: carrier rates and antibiograms, 247
- Pharyngitis, evaluation of a two-minute strep A direct swab test (SADST) on patients with, at a primary care clinic, 133
- Phleboviruses, comparative pathogenicity and antigenic cross-reactivity of Rift Valley fever and other African, in sheep, 331
- Plasmid profiling of epidemic staphylococci from around 1960: a comparison of epidemiological techniques, 211
- Plasmid, recognition of the cryptic, pSLT, by restriction fingerprinting and a study of its incidence in Scottish salmonella isolates, 193
- Plasmid, *Salmonella gold-coast* from outbreaks of food-poisoning in the British Isles can be differentiated by, profiles, 115
- Plasmids in group JK coryneform bacteria isolated in a single hospital, 255
- Plasmids, restriction enzyme fingerprinting of enterobacterial, a simple strategy with wide application, 205
- Plasmids, the distribution of, among a representative collection of Scottish strains of salmonellae, 199
- Preoperative preparation, recolonization and colonization resistance of the large bowel after three methods of, the gastrointestinal tract for elective colorectal surgery, 49
- Proteaceae, speciation, serotyping, antimicrobial sensitivity and plasmid content of, from the environment of calf-rearing units in South West England, 405
- Raw cooked meats, an evaluation of various working practices in shops selling, 81
- Respiratory syncytial virus, capture-ELISA for serum IgM antibody to, 511
- Rift Valley fever, comparative pathogenicity and antigenic cross-reactivity of, and other African phleboviruses in sheep, 331
- Rift Valley fever virus, comparison of techniques for demonstrating antibodies to, 317
- Rotavirus, chemical disinfection of human, -contaminated inanimate surfaces, 163
- Rotaviruses, chemical disinfection of human: efficacy of commercially-available products in suspension tests, 139

- Salmon, large outbreaks of *Clostridium perfringens* food poisoning associated with the consumption of boiled, 71
- Salmonellae, the distribution of plasmids among a representative collection of Scottish strains of, 199
- Salmonella gold-coast* from outbreaks of food-poisoning in the British Isles can be differentiated by plasmid profiles, 115
- Salmonella, recognition of the cryptic plasmid, pSLT, by restriction fingerprinting and a study of its incidence in Scottish, isolates, 193
- Salmonella typhimurium*, characterization of plasmids conferring resistance to gentamicin and apramycin in strains of, phage type 204c isolated in Britain, 419
- Salmonellas, apramycin and gentamicin resistance in *Escherichia coli* and, isolated from farm animals, 445
- Salmonellosis in two dairy herds associated with a sewage farm and water reclamation plant, 237
- Shellfish, a rapid and simple method for the detection and enumeration of *Escherichia coli* in cleansed, 273
- Showering, the dispersal of bacteria and skin scales from the body after, and after application of a skin lotion, 289
- Skin scales, the dispersal of bacteria and, from the body after showering and after application of a skin lotion, 289
- Staphylococci, plasmid profiling of epidemic, from around 1960: a comparison of epidemiological techniques, 211
- Staphylococcus aureus*, methicillin-resistant: a 6-month survey in a Lisbon paediatric hospital, 265
- Staphylococcus aureus* in Antarctica: carriage and attempted eradication, 427
- Strep A, evaluation of a two-minute, direct swab test (SADST) on patients with pharyngitis at a primary care clinic, 133
- Swine, prevalence of human (H1N1) influenza virus-antibody in Japanese, 503
- Tuberculosis, enzyme immunoassay using BCG is serodiagnosis of pulmonary, 483
- Tuberculosis in East Sussex. I. Outbreaks of tuberculosis in cattle herds (1964–84), 1
- Tuberculosis in East Sussex. II. Aspects of badger ecology and surveillance for tuberculosis in badger populations (1976–84), 11
- Tuberculosis in East Sussex. III. Comparison of post-mortem and clinical methods for the diagnosis of tuberculosis in badgers, 27
- Tuberculosis in East Sussex. IV. A systematic examination of wild mammals other than badgers for tuberculosis, 37
- Urinary pathogens, antibiotic sensitivities of, isolated from patients in Liverpool, 1984–5, 299
- Vesiculoviruses, susceptibility of various animals to the, Isfahan and Chandipura, 359
- Wild mammals, tuberculosis in East Sussex. IV. A systematic examination of, other than badgers for tuberculosis, 37
- Yellow fever in Swansea, 1865, 185
- Yersinia*, faecal carriage rate of, species, 281
