

SOUTH WEST CHARTERING

continuing to specialize in Polar Chartering
Over 40 years providing ice-strengthened ships for expeditions to the Arctic and
Antarctic — for charter — for purchase
Our service includes all other types of survey vessels

ANNOUNCEMENTS

POLAR RECORD BACK NUMBERS 1931-87 (1-147)
are available from Bluntisham Books, Oak House, East
Street, Bluntisham PE17 3LS; UK, Tel (1487) 840 449.
Prices: Pre-1982 (1-129) £2.50 each; 1982-85
(130-141) £5.00 each; 1986-87 (142-47) £10.00
each. Postage extra.

ADVERTISING IN *Polar Record*

Quarter page (118 x 81 mm) : £60.00 (US\$120.00)
Half page (240 x 81 mm or 118 x 165) : £90.00
(US\$180.00)
Whole page (240 mm x 165 mm) : £140.00
(US\$280.00)
Flier (A4 or A5) : £140.00 (US\$280.00)
Announcements: £3.00 per column line.

VAT of 15% is payable on all UK orders. Please send
payment or an official order form with your order. There
are negotiable discounts for running the same advertis-
ment in three successive issues. We make up adver-
tisements (from £20.00) and print fliers (from £50.00) by
arrangement.

Polar and Glaciological Abstracts

A new abstracting journal produced by the Scott
Polar Research Institute, replacing *Recent Polar
and Glaciological Literature*, the widest-circulation
bibliography devoted to polar subjects

- * provides wide, *annotated* coverage of books,
papers, reports and reviews on all aspects of
polar life and science, both Arctic and Antarctic
- * subject, author and geographic indexes will
cumulate annually

* for further details contact:
Journals Publicity Department

SPRI POLAR BOOKSHOP

The following polar books can be bought by mail order direct from the Scott Polar Research Institute

Polar ecology. Bernard Stonehouse. 1988. Glasgow, Blackie (Tertiary Level Biology Series). Soft cover £12.95 Hard cover £27.00

Chronological list of Antarctic expeditions and related historical events. Robert K. Headland. 1990. Cambridge, Cambridge University Press. £65.00

The frozen earth: fundamentals of geocryology. P. J. Williams and M. W. Smith. 1989. Cambridge, Cambridge University Press. £37.50

South Pole odyssey. Edited by H. G. R. King. 1982. Selections from the Antarctic diaries of Edward Wilson. London, Blandford Press. £3.95

Diary of the Terra Nova expedition to the Antarctic 1910-12. Edward Wilson, edited by H. G. R. King. Scott's last expedition, from original manuscripts in the Scott Polar Research Institute and British Museum. London, Blandford Press. £12.95

Antarctic obsession. The British National Antarctic Expedition 1901-04, by Sir Clements Markham, edited by Clive Holland 1986. Bluntisham, Bluntisham Books and Erskine Press. £14.95

Southern lights. The story of the British Graham Land Expedition 1934-37. John Rymill. 1986. Colwall, Knell Press. £11.00

The island of South Georgia. Robert K. Headland. 1984. Cambridge, Cambridge University Press. £19.50

The circumpolar north. T. E. Armstrong, G. Rogers and G. Rowley. 1978. London, Methuen. Soft cover £3.00 Hard cover. £6.00

The wicked mate. Antarctic diary of Victor Campbell. Edited by H. G. R. King. 1988. Bluntisham, Bluntisham Books and Erskine Press. £19.95

Birds of the Antarctic. By Edward Wilson, edited by Brian Roberts. 1987. London, Blandford Press. £12.5

Ross in the Antarctic. M. J. Ross. 1982. Whitby, Caedmon. £12.50

Breaking the ice. Rowan Butler. 1988. London, Albatross Books. £12.95

A concise account of Signy Island. David Rootes. 1989. Cambridge, British Antarctic Survey. £3.50

Polar deserts. Wally Herbert (signed). 1971. London, Collins £4.95

Eskimos. Wally Herbert (signed). 1976. London, Collins £4.95

FOR YOUNG READERS

Living at the poles. Bernard Stonehouse. 1986. London, Macdonald Educational. £5.99

ORDER from Irene Lawton, Scott Polar Research Institute, Lensfield Road, Cambridge CB2 1ER. MAILING CHARGES: UK addresses: add 15% to cover postage and packing; overseas addresses: add 20%. Books will be sent sea mail. Insurance: add £5.00. Non-sterling cheques: add £3.00. PLEASE MAKE OUT YOUR CHEQUE TO SCOTT POLAR RESEARCH INSTITUTE (BOOKS)

SCOTT POLAR RESEARCH INSTITUTE UNIVERSITY OF CAMBRIDGE Opportunities in Graduate Studies

M.Phil in Polar Studies

A one-year post-graduate course leading to the degree of Master of Philosophy, providing a broad background of polar knowledge and opportunity to study one topic in depth. Some 60 seminars cover the natural environment, peoples, history, resources, development and administration of the Arctic and Antarctic regions.

Ph.D and M.Sc studies

Courses leading to Ph.D and M.Sc are available. Programmes relate to current research areas within the Institute including glaciology, polar oceanography, ecology and management, geophysics, remote sensing, history, anthropology and northern affairs.

Visiting scholars

The Institute provides facilities for advanced scholars wishing to pursue their own courses of study and research for periods of between a few weeks and one year.

Facilities

The Institute's research facilities include the world's finest polar library, outstanding archival collections and specialized laboratories, including two cold rooms (-40°C).

Cambridge University

The University now accommodates some 12,000 undergraduate and graduate students and has a long tradition of excellence in teaching and research.

Polar and Glaciological Abstracts

Editor: William Mills, Scott Polar Research Institute,
University of Cambridge

This **NEW** journal is the first specialist publication to offer comprehensive coverage of the world's polar regions. Produced by the library of the Scott Polar Research Institute, it provides comprehensive and convenient access to the rapidly growing research and scholarship of all relevant disciplines.

Polar and Glaciological Abstracts covers a wide range of subject areas including:

- Geology and soil sciences ● Hydrography and oceanography
- Atmospheric sciences ● Biology ● Botany ● Medicine and health
- Social sciences ● Economics ● Communication and transportation
- Engineering and construction ● Arts ● Literature and language
- Archaeology and **much more!**

It scans over 900 series, plus relevant books, reports and theses. Each issue contains author, subject and geographic indexes. These indexes are cumulated annually.

1990 subscription, Volume 1, 4 parts: £40 for institutions; £30 for individuals; £12 for single parts; airmail £11 per year extra ISSN 0957-5073

To **subscribe**, or for **further information**, please contact:

Cambridge Polar Science

Subantarctic Macquarie Island

Environment and Biology

PATRICIA SELKIRK, ROD SEPPELT
and **DAVID SELKIRK**

Declared a nature reserve in 1933, Macquarie Island is of immense scientific interest, possessing unique geological and biological features. This fascinating and readable account of all the island's history, geology and biology will appeal to all those interested in the Antarctic region and island habitats.

£40.00 net HB 0 521 26633 5 285 pp. 1990
Studies in Polar Research

Chronological List of Antarctic Expeditions and Related Historical Events

ROBERT K. HEADLAND

With 3442 entries this book lists Antarctic expeditions and related historical events covering the period from 700 BC to 1988. The majority of entries cover expeditions or voyages and provide dates, nationalities, leaders, vessels, and a concise description. For related events dates, details of persons, countries or inventions and a brief description are given.

Studies in Polar Research

The Age of the Arctic

Hot Conflicts and Cold Realities

GAIL OSHERENKO and **ORAN R. YOUNG**

In the light of increased public awareness of issues involving the Arctic, this book provides a timely review of the situation from a social, political and human standpoint. It will be essential reading for all those interested in, and concerned with, this important region of the earth.

£37.50 net HB 0 521 36451 5 320 pp. 1989
Studies in Polar Research

Living Ice: Understanding Glaciers and Glaciation

ROBERT P. SHARP

Glaciers, so simple in composition, are actually complex, vital entities. This book, written in non-technical and engaging style, aims to increase our knowledge and understanding of glacial activity and products. It is suitable for anyone with a passing knowledge and interest in earth science.

£15.00 net HB 0 521 33009 2 235 pp. 1989

The Frozen Earth

Fundamentals of Geocryology

PETER J. WILLIAMS and **MICHAEL W. SMITH**

This is the first book in English to concentrate on the analysis of the causes and effects of frozen ground phenomena, rather than on the description of the natural features characteristic of freezing or thawing ground. Its scientific approach also provides a sound basis for geotechnical analyses.

postage. POSTMASTER: send address changes in the USA and Canada to *Polar Record*, Cambridge University Press, 110 Midland Avenue, Port Chester, New York, NY 10573.

Claims for missing issues can be considered only if made immediately after receipt of the subsequent issue.

Back Issues

For vols 1-23 inclusive apply to Bluntisham Books, Oak House, East Street, Bluntisham, Huntingdon, PE17 3LS, UK. For vols 24 onward apply to Cambridge University Press, UK or USA.

Advertising

Prices appear in the advertisements section; for details apply to the Editor or to the publishers.

Advice to contributors

Polar Record publishes original articles (2000 to 8000 words) and notes (usually less than 2000 words) of current and historic polar interest. Manuscripts, maps and photographs are accepted on the understanding that they are original, do not infringe copyright, and are not currently being offered elsewhere. Receipt is acknowledged; manuscripts are submitted to referees and any rejected will normally be returned to the author within six to eight weeks. Where the subject matter is appropriate, the Editor is usually prepared to advise authors on ways of making their material acceptable.

Presentation

Typescripts should be double-spaced with 3 cm margins, on one side only of A4 or similar paper. Send two copies and keep one for reference. Give name, affiliation and address of each author on the title page, noting which author the Editor corresponds with. Follow the style of articles and notes in the most recent issue of *Polar Record*.

Articles should start with an abstract of 150-250 words and a table of major headings; secondary and tertiary headings are not listed. Indicate in margins where tables and illustrations fit. Footnotes are discouraged; places where they are considered essential are marked in text with a superscript number, and the footnotes are listed at the end before the References.

Notes are short articles, generally of less than 2000 words. They do not require an abstract or table of headings, but either the first or the final paragraph should summarize the content.

References (essential ones only, please) are cited in text; full references appear in the listing under References at the end; for forms of citations and references see the most recent issue of *Polar Record*. *Authors alone are responsible for the accuracy of their references*. References to privately printed or other unpublished reports and data are not accepted unless copies of the material are freely available from a named library or similar repository. *Tables* should be kept as simple as possible and typed on separate sheets. They will normally be fitted across the single- or double-column page, only exceptionally lengthwise.

Illustrations. Drawings, maps and diagrams must be of professional standard, with lettering and numbers pencilled in clearly. Authors may be charged for re-drawing if an illustration is inadequate. They should if possible allow for about one-third reduction in width to fit a column (7.8 cm) or page (16.4 cm). Photographs (black and white only) that add substantially to the material are welcome. Glossy prints with high contrast, about one-third oversize, generally reproduce well.

Contributions on disc

The Editor welcomes contributions on floppy discs. The most suitable format is Apple Macintosh 3.5" disc. Output from a wide variety of word processing packages can be accepted, but in case of doubt, a MacWrite-compatible document should be produced. Diagrams also can be transferred on Macintosh discs. Discs from other microcomputers may be acceptable if the text is in the form of an ASCII file, with no word processing codes. TAB characters are acceptable. Currently, *Polar Record* can accept discs from Acorn BBC and Torch microcomputers, Amstrad PCW series microcomputers and, less readily, IBM PC compatible machines (5.25" discs only). If in doubt, please consult the Editor.
