No. 1 (1978) The Use of Blood Metabolites in Animal Production

## CONTENTS

PAYNE, J. M. The Compton metabolic profile test . . . . .	3
HEAP, R. B. and JENKIN, G. Hormones of reproduction in farm animals . . . . .	13
RUSSEL, A. J. F. The use of measurements of energy status in pregnant ewes . . . . .	31
COGGINS, C. R. E. and FIELD, A. C. Changes in plasma concentrations of glucose, free fatty acids, ketone bodies, thyroxine and insulin of lactating beef cows in relation to time of feeding and energy status . . . . .	41
PICKARD, D. W. Calcium, magnesium and phosphorus in lactation and the dry period . . . . .	49
BLOWEY, R. W. and PARKER, B. N. J. Fertility and the lactating cow	53
ROWLANDS, G. J. Changes in concentrations of serum albumin in dairy cows at calving and their possible significance in relation to milk yield and fertility during lactation . . . . .	59
MILLER, T. B., CHIGARU, P., DOWNIE, J. G., GALBRAITH, H., MACDONALD, D. C. and TOPPS, J. H. Observations under field conditions—the suckler cow . . . . .	71
BINES, J. A. and HART, I. C. Milk or meat . . . . .	87
LINDSAY, D. B. The effect of feeding pattern and sampling procedure on blood parameters . . . . .	99
PARKER, B. N. J. and LEWIS, GWYNETH. The effect of dietary energy level on body condition and some blood compounds in the dairy cow . . . . .	121
TREACHER, R. J. Dietary protein levels and blood composition of dairy cattle . . . . .	133
SYKES, A. R. An assessment of the value of plasma urea nitrogen and albumin concentrations as monitors of the protein status of sheep	143
WILSON, P. N. and MEDD, R. K. Blood profiles as a guide to nutritional status in the field . . . . .	155
ELSLEY, F. W. H. Concluding remarks—measures of metabolic activity . . . . .	163
