# Go Mobile

CJO Mobile (CJOm) is a streamlined  
Cambridge Journals Online (CJO)  
for smartphones and other  
small mobile devices

- Use CJOm to access all journal content including *FirstView* articles which are published online ahead of print
- Access quickly and easily thanks to simplified design and low resolution images
- Register for content alerts or save searches and articles – they will be available on both CJO and CJOm
- Your device will be detected and automatically directed to CJOm via: [journals.cambridge.org](http://journals.cambridge.org)

# Environmental Conservation

International Journal of Interdisciplinary Environmental Science

Published for the Foundation for Environmental Conservation

## Editor

Nicholas V. C. Polunin, University of Newcastle, UK

*Environmental Conservation* is one of the longest-standing, most highly-cited of the interdisciplinary environmental science journals. It includes research papers, reports, comments, subject reviews, and book reviews addressing environmental policy, practice, and natural and social science of environmental concern at the global level, informed by rigorous local level case studies. The journal's scope is very broad, including issues in human institutions, ecosystem change, resource utilisation, terrestrial biomes, aquatic systems, and coastal and land use management. *Environmental Conservation* is essential reading for all environmentalists, managers, consultants, agency workers and scientists wishing to keep abreast of current developments in environmental science. Selected papers are made freely available online as part of **EC Perspectives**.

# Instructions for Contributors

Further information at [www.journals.cambridge.org/aee/ifc](http://www.journals.cambridge.org/aee/ifc)

The *Australian Journal of Environmental Education* (AJEE) provides a forum for the publication and dissemination of articles intended to further the research and practice of environmental education in all areas of formal and non-formal education. It seeks balanced and integrative accounts of practice, theory and research presented in written or graphic forms appropriate to the matters considered, the wide range of the journal's readership and the journal's intentions.

There are two broad categories of papers that will be considered for publication in AJEE:

1. The first category focuses on academic/research articles which should be 5,000 words in length (including references, tables etc). Where additional word length is warranted and clearly justified, extended papers will also be considered (up to 10,000 words). Contributions in this category may take the form of research or project reports, program evaluations or case studies of practice, critical essays relating to philosophical or policy issues, critiques of previously published articles, and literature reviews that are of relevance to environmental education. Theoretical essays or research reports should include a description of the practical application(s) of the ideas raised or tested, while reports of practice should contain an explanation of the theoretical foundation underlying the practice in question.
2. The second category is for shorter scholarly opinion/discussion/story/review pieces and abstracts of completed PhD, Masters and Honours theses in environmental education. These articles may be up to 3,000 words in length (including references, tables etc) and abstracts of theses should be no longer than 750 words. Shorter book reviews will also be considered (up to 1,000 words). The editor is also actively encouraging special sections/issues working with guest editors. Please contact the editor with ideas and/or proposals.

Contributions presented in a variety of written or graphic forms are welcomed. Material in written form other than prose, or in graphic forms such as illustrations or photographic essays, should be accompanied by text clearly setting out its philosophical or practical origins and implications. All material should be clearly referenced to its sources.

Contributors to AJEE are asked to structure their material in a format which answers the following questions, in the order in which they appear below:

- What new ideas are being proposed, or what existing ideas supported or negated?
- What implications for environmental education practice, research or theory do these new, or changed, ideas have?
- What is the general context within which these ideas, or those most closely related to them, are set out in the literature?
- What methods/approaches were used in the development of these new or changed ideas, and the implications considered to flow from them?
- What sources have been consulted in establishing the context, methods and implications described?

All manuscripts will be reviewed by at least two members of the editorial board or invited referees with expertise in the relevant field. Selection of articles for inclusion in the journal will be based on these reviews.

Manuscripts are accepted for publication on the understanding that they have been submitted only to the *Australian Journal of Environmental Education* and that they have not previously been published. Authors are responsible for the factual accuracy of their papers and for obtaining permission to reproduce text or illustrations from other publications. Authors are also responsible for ensuring that the research reported on has been ethically conducted. Documentary evidence of this permission may be required.

## Specifications for contributions

To be reviewed for possible publication in this journal all authors must follow the style and digital submission instructions. For full instructions please refer to [journals.cambridge.org/aee/ifc](http://journals.cambridge.org/aee/ifc)

A short title of not more than thirty-four letters must be submitted with each manuscript. An abstract is also to be provided, no longer than 200 words. Authors should supply a minimum of five key words for referencing of papers.

Tables should be created in Word and included at the end of the manuscript Word document after the references. Figures, graphs, illustrations and photographs (but NOT Tables) should be prepared to the correct size and each one supplied as an individual file, separate to the manuscript Word file. Their approximate positions should be indicated in the text by the words, "Insert Table/Figure X here".

Footnotes should be avoided.

References should be listed alphabetically at the end of a contribution. Contributors should follow the specifications of APA (*Publication Manual of the American Psychological Association*, 2010, 6th edition). The following examples illustrate the recommended form for publications:

Australian Government Department of the Environment Water Heritage and the Arts. (2009). *Living sustainably: The Australian Government's National Action Plan for Education for Sustainability*. Canberra: Commonwealth of Australia.

Cutter-Mackenzie, A. (2009). Multicultural school gardens: Creating engaging garden spaces in learning about language, culture, and environment (special issue guest edited by D. Greenwood and M. McKenzie). *Canadian Journal of Environmental Education*, 14(1), 122–135.

Hart, P. (2003). *Teachers' thinking in environmental education: Consciousness and responsibility*. New York: Peter Lang.

Hillcoat, J. (1999). *Beyond the commodity: Meaning-making, sustainability and the self*. Unpublished PhD thesis, Queensland University of Technology, Brisbane, Australia.

Jickling, B., & Spork, H. (1998). Education for the environment: A critique. *Environmental Education Research*, 4(3), 309–327.

Selby, D. (2009) The firm and shaky ground of education for sustainable development. In B. Chalkley, M. Haigh & D. Higgitt (Eds.). (2009). *Education for sustainable development: Paper in honour of the United Nations Decade of Education for Sustainable Development (2005–2014)* (pp. 199–213). New York: Routledge.

When references are cited in the text, details of author(s) and year of publication should appear, for example (Cutter-Mackenzie, 2009; Jickling & Spork, 1998). Direct quotes should include author, year and page number, for example (Hart, 2003, p. 65).

Spelling should conform to *The Macquarie Dictionary*.

Non-sexist language should be used at all times, for example, humankind or people, chair or chairperson.

## Digital submission of papers

Manuscripts, book reviews and editorial communications should be submitted via the Journal Submission Manager at: [www.australianacademicpress.com.au/cup\\_jsm/](http://www.australianacademicpress.com.au/cup_jsm/)

For details please consult the full instructions for contributors document available at: [journals.cambridge.org/aee/ifc](http://journals.cambridge.org/aee/ifc)
