## The Soviet Union and the Developing Nations

*Edited by ROGER E. KANET* Combining a general overview with detailed case studies, this volume provides a comprehensive analysis of the historical, economic, political, military, and cultural aspects of Soviet policy towards developing nations in Asia, Africa, and Latin America. ## Antun Barac A History of Yugoslav Literature

Reprinted from original English language edition, Belgrade 1955.

"Barac's *History of Yugoslav Literature* . . . has served very well more than a generation of students in this country and remains the best short history of the Yugoslav literatures available in English."

Albert B. Lord, Harvard University

"We need books of this quality for all the East European countries. Barac was a distinguished scholar, he clearly enunciated the basic issues and themes in South Slavic literature. . . ."

Charles Jelavich, Indiana University

"The main purpose of this work is to be an informative handbook, and it serves its purpose well. It is objective and convenient."

Thomas Eekman, U.C.L.A.

"The availability of this outstanding survey in English, at such a modest price, is a boon to students who wish to appreciate the growth and development of Yugoslav literature but who are unable to do so in the original language."

Eugene Hammel, University of California

## A unique new approach to Russian studies

# The Russian's World

## Life and Language

GENEVRA  
GERHART

A fascinating new text-reference, *The Russian's World* gives the American reader an insight into the daily life and habits of the Russian people. The author begins with a consideration of the individual Russian, including physical characteristics and identity documents; she then proceeds to such areas as proper names, clothing, housing, education, holidays, transportation, recreation, and pets. The book is written almost entirely in English; examples and anecdotes are in Russian, but most of these are translated in the appendix. In addition, the book contains an extensive illustration program, with most of the photographs and drawings drawn from Soviet sources.
