The Ancient Constitution and the Feudal Law

*A Study of English Historical Thought in the Seventeenth Century—
A Reissue with a Retrospect*

Second Edition

J.G.A. Pocock

Originally published in 1957, this book sought to explain seventeenth-century English ideas of constitutionalism as beliefs about English history premised upon the ancient and customary character of the common law. This new edition contains a substantial retrospect on the original book and considers the book in light of new scholarly work.

The Celebrated Mary Astell An Early English Feminist

Ruth Perry

Foreword by Catharine R. Stimpson

“Ruth Perry’s new biography of Mary Astell (1666-1731) is an event in the history of women’s studies. This is the first modern full-length study of a writer who has with justice been called ‘the first feminist’. Perry discusses fully all of Astell’s writings, not only her best-known work, *A Serious Proposal to the Ladies*. The discovery of new manuscript material is good news; the generous transcription of Astell’s letters and poems is in itself sufficient to make this book indispensable to scholars.”—Margaret Anne Doody, Princeton University

“This richly documented biography of Mary Astell, pioneer thinker and writer, will become a central text in the history of feminist thought. In probing Astell’s ideological contradictions as a political conservative and a feminist analyst, Ruth Perry supplies us with an authentic, rare portrait of late-seventeenth-century life and the female intellectual experience.”

THE FIRST ENGLISH FEMINIST

Reflections on Marriage and Other Writings
by Mary Astell

Bridget Hill, Editor. "Bridget Hill's fine new anthology of Astell's works ... means for the first time that Mary Astell lives outside the rare book library ... Hill allows us to read Astell's feminism in its historical and ideological contexts; she excerpts generously, and omits nothing essential. [The book] shows the range of Astell's work—her poetry and religious writings, as well as her political concerns."—*The Women's Review of Books*

BRITAIN, AMERICA AND ARMS CONTROL, 1921-1937

Christopher Hall. This book traces a previous arms limitation effort—the naval treaties of the inter-war years—which successfully controlled competition in the strategic weapons of the era. Hall shows the problems and their solutions—many still relevant today—which made the treaties possible. He also highlights the role of the treaties in the peaceful transfer of Western leadership from Britain to the US.

SIR JOHN DAVIES AND THE CONQUEST OF IRELAND

A Study in Legal Imperialism

Hans S. Pawlisch

"Hans S. Pawlisch has created a brilliant analysis of the legal measures the English government used to consolidate its control of Ireland in the early Seventeenth Century. At the same time, he has demonstrated how significantly Sir John Davies, James I's Solicitor-General and Attorney-General for Ireland, was the architect of this policy by tactics such as devising a jurisprudence and promoting judge-made law which effectively undermined key elements of Irish resistance. Pawlisch's expert probing of legal sources adds a new dimension to our understanding of Jacobean colonial policy..." — *From The Award Citation*

EUROPEAN HISTORY QUARTERLY

Editor R M Blinkhorn University of Lancaster

The areas of interest of **European History Quarterly** may be defined as European history since the later middle ages, and social and political thought placed squarely within a historical context. All historical approaches — social, political, cultural etc. — are embraced, and contributions on British history which possess a broader European significance are welcome. As well as original articles **European History Quarterly** also publishes lengthy historiographical essays, review articles and shorter reviews, laying some stress in doing so upon works published in European languages other than English.
