

Timely APSA Report Explores Inequalities in the Americas

The Double Bind: The Politics of Racial and Class Inequalities in the Americas

The 2016 task force report "The Double Bind" investigates

how race and class interact to produce political, social, and material inequalities in the nations of the Americas. Political science has begun to pay greater attention to the causes and consequences of inequality, but the recent literature on inequality in political science has focused on how rising income inequality affects political representation. The task force delves further.

The authors grapple with both the problem of rising socioeconomic inequality as well as the multifaceted racial gaps that exist throughout the Americas. They examine how race and class inequalities are epiphenomena of politics. They organized their inquiries around the role of institutions, social movements, party politics, and the mobilizing power of group memberships. They found that low socioeconomic status and the incentives of the party system hinder ethnoracl minorities from translating their demographic potential and civic participation into meaningful socioeconomic gains. This disparity persists even in countries where minorities represent a large percentage of the population and participate actively in elections.

HOW AMERICA LOST ITS SECRETS

Edward Snowden, the Man and the Theft

EDWARD JAY EPSTEIN

"Ed Epstein's startling, powerfully argued book on the Edward Snowden affair is a true game changer. One of the great investigative journalists of our time, Epstein has laid down a powerful challenge to the common view, embraced by much of the press and by Hollywood, of Snowden as a civil rights hero."

ECONOMISM

Bad Economics and the Rise of Inequality

JAMES KWAK

"Makes an important case that the fetish of 'efficient markets' has distorted American politics. Kwak shows that it is bad economics but potent ideology, and it has distorted debates about labor law, international trade, and financial regulation. This clearly written book is an excellent dissection of some bad ideas that have been allowed to masquerade as common sense for too long."

HITLER

Ascent, 1889–1939

VOLKER ULLRICH

Many previous biographies have focused on the larger social conditions that explain the rise of the Third Reich. Ullrich gives us a comprehensive portrait of a postwar Germany humiliated by defeat, wracked by political crisis, and starved by an economic depression, but his real gift is to show vividly how Hitler used his ruthlessness and political talent to shape the Nazi party and lead it to power.

Offering Online Scholarship

Scholarship is central to APSA membership. Current and recent back issues of all three APSA journals are available online to members through Cambridge Journals Online. Members can also gain access to the full historical collection through JSTOR subscriptions.

Creating Networks and Connecting Scholars

APSA strives to provide valuable opportunities for members to network with colleagues, share ideas, and form relationships to drive their careers. Organized Sections provide an outlet for specialized scholarship and networking through APSA Connect. APSA Connect is APSA's connected community that creates a secure private community platform that empowers members to create, manage, and engage online communities. It is designed to improve engagement, promote information sharing, increase collaboration, and provide a forum for innovation.

Providing Career and Employment Resources

APSA eJobs is the most comprehensive online resource of political science employment opportunities and job candidates. It is fully searchable and updated daily with new job listings and candidate resumes. The eJobs placement service at the Annual Meeting brings employers and candidates together in person to facilitate the hiring process.

Supporting Political Science Research

The Centennial Center for Political Science & Public Affairs, located at APSA's headquarters building, provides office space for scholars and students conducting field work in Washington, DC. Through the Center, APSA also offers a number of research grant opportunities for scholars working in various subfields.
