USA

## **Special sales and supplements**

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Sarah Maddox at Cambridge University Press for further details (email: smaddox@cambridge.org).

## **Subscription information**

*Public Health Nutrition* is an international journal published 18 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at journals.cambridge.org/PHN, with free table of contents alert (upon registration).

## **Annual subscription rates**

Volume 22, 2019 (18 issues):  
Internet/print package: £1325/\$2542 Americas only/€2124 EU only  
Internet only: £959/\$1820 Americas only/€1525 EU only

**Any supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

**Advertising:** The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and which are not, and will not be obliged to give reasons to prospective

advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

**Back volumes** will be available in due course. Please contact Cambridge University Press for further information.

**US POSTMASTERS:** Please send address corrections to Cambridge University Press  
1 Liberty Plaza  
Floor 20, New York  
NY 10006  
USA

**Notes for Authors** are available from the publisher at the given address and can be found inside the back cover.

**Offprints:** The author (or main author) of an accepted paper will receive a free PDF of their paper. Additional offprints are available for a fee and must be ordered at proof stage. **No page charges are levied by this journal.**

**Copyright:** As of 1 January 2001 the copyright of all articles submitted to *Public Health Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Editorial Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London, W6 7NJ, UK.

**Disclaimer:** The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk. This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

*Public Health Nutrition* is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS<sup>®</sup>, Global Health, Index Medicus<sup>®</sup> (MEDLINE<sup>®</sup>), EMBASE, Excerpta Medica, BIOSIS<sup>®</sup> Database and CINAHL<sup>®</sup> Database  
*Public Health Nutrition* participates in the following initiatives: HINARI by WHO and AGORA by FAO.

*Public Health Nutrition (PHN)* provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

## Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, not including the abstract, references, tables, figures and acknowledgements.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

**Submission:** PHN operates an online submission and reviewing system. All manuscripts should be submitted to <http://mc.manuscriptcentral.com/phnutr>. Please contact the Editorial Office on [phn.edoffice@cambridge.org](mailto:phn.edoffice@cambridge.org) regarding any other types of submission.

**Refereeing:** Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

**Copyright:** At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

**Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

## Disclosure of financial support and any competing

**interests.** The submission must include a statement within an Acknowledgements section reporting any competing interests (financial and non-financial), all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

## Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so. All submissions must include a statement that the research was conducted in accordance with guidelines laid down by the Declaration of Helsinki and approved by an ethics review committee.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

**Proofs:** Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

**Offprints:** The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

**Assessment and methodology**

Development of the Healthy Purchase Index (HPI): a scoring system to assess the nutritional quality of household food purchases

*M Tharrey, C Dubois, M Maillot, F Vieux, C Méjean, M Perignon and N Darmon* 765

Suitability of the eight-item version of the Brazilian Household Food Insecurity Measurement Scale to identify risk groups: evidence from a nationwide representative sample

*GS Interlenghi, ME Reichenheim, AM Segall-Corrêa, R Pérez-Escamilla, CL Moraes and R Salles-Costa* 776

Development and testing of a scale to evaluate diet according to the recommendations of the Dietary Guidelines for the Brazilian Population

*KT Gabe and PC Jaime* 785

**Nutritional status and body composition**

Longitudinal changes in maternal anthropometry in relation to neonatal anthropometry

*SJ Pugh, AM Ortega-Villa, W Grobman, SN Hinkle, RB Newman, M Hediger, J Grewal, DA Wing, PS Albert and KL Grantz* 797

**Nutrition communication**

A qualitative exploration of parents', youths' and food establishment managers' perceptions of beverage industry self-regulation for obesity prevention

*LM Bogart, G Castro and DA Cohen* 805

**Behavioural nutrition**

An examination of food parenting practices: structure, control and autonomy promotion

*DR Musher-Eizenman, L Goodman, L Roberts, J Marx, M Taylor and D Hoffmann* 814

**Nutritional epidemiology**

Trends of mortality attributable to child and maternal undernutrition, overweight/obesity and dietary risk factors of non-communicable diseases in sub-Saharan Africa, 1990–2015: findings from the Global Burden of Disease Study 2015

*YA Melaku, TK Gill, AW Taylor, SL Appleton, D Gonzalez-Chica, R Adams, T Achoki, Z Shi and A Renzaho* 827

Comparison between household food purchase and individual food consumption in Brazil

*DCRS de Oliveira, A de Moura Souza, RB Levy, R Sichieri and E Verly-Jr* 841

Comparison of national cross-sectional breast-feeding surveys by maternal education in Europe (2006–2016)

*M Sarki, A Parlesak and A Robertson* 848

Improving screening for malnourished children at high risk of death: a study of children aged 6–59 months in rural Senegal

*M Myatt, T Khara, C Dolan, M Garenne and A Briand* 862

Improving screening for malnourished children at high risk of death: A study of children aged 6–59 months in rural Senegal – ERRATUM

*M Myatt, T Khara, C Dolan, M Garenne and A Briand* 872

**Community nutrition**

Does social support modify the relationship between food insecurity and poor mental health? Evidence from thirty-nine sub-Saharan African countries

*M Na, M Miller, T Ballard, DC Mitchell, YW Hung and H Melgar-Quinonez* 874

Description of the home food environment in Black, White, Hmong, Latino, Native American and Somali homes with 5–7-year-old children

*A Trofholz, A Tate, JA Fulkerson, MO Hearst, D Neumark-Sztainer and JM Berge* 882

Nutrition risk among an ethnically diverse sample of community-dwelling older adults

*P Sheean, IC Farrar, S Sulo, J Partridge, L Schiffer and M Fitzgibbon* 894

**Interventions**

Effects of a comprehensive nutrition education programme to change grade 4 primary-school students' eating behaviours in China

*L Qian, IM Newman, L-W Yuen, W Du and DF Shell* 903

**Public policies**

Positioning food standards programmes to protect public health: current performance, future opportunities and necessary reforms

*MA Lawrence, CM Pollard and TS Weeramanthri* 912

Comparing and contrasting responses to tobacco control and obesity policies: a qualitative study

*D Juszczak and F Gillison* 927

**Nutritional epidemiology**

Ultra-processed foods: what they are and how to identify them

*CA Monteiro, G Cannon, RB Levy, J-C Moubarac, MLC Louzada, F Rauber, N Khandpur, G Cediel, D Neri, E Martinez-Steele, LG Baraldi and PC Jaime* 936

**Interventions**

The effectiveness of dietary workplace interventions: a systematic review of systematic reviews

*D Schliemann and JV Woodside* 942
