Portraits in Chinese History

John E. Wills, Jr.

Through biographies of China's most colorful and famous personalities, John Wills surveys 5000 years of Chinese history. This unique introduction to Chinese history and culture uses more than twenty exemplary lives, including those of statesmen, philosophers, poets, and rulers, to examine historical trends and periods. Each of the twenty chapters provides a many-sided exploration of a "slice" of Chinese history, engaging the general reader in a deep and personal encounter with China over the centuries and today.

"The conception is new—this is the first 'Chinese history through biography' that I have read. It is a great achievement to make the historical figures so accessible, with vivid details that seem to have escaped the attention of earlier historians. In scope, method, and quality, I think this book is unique."—Kwang-Ching Liu

THE PROBLEM OF BUREAUCRATIC RATIONALITY

Tax Politics in Japan

Junko Kato

Through a detailed account of the political battles over Japanese tax reform during the last two decades, Junko Kato draws an unconventional portrait of bureaucratic motivation, showing how fiscal bureaucrats exploit their unique technical knowledge to influence policymaking.

In 1989, the Japanese Diet enacted a broad-based consumption tax after two failed attempts and in the face of widespread public disapproval. Kato argues that skillful maneuvering by the Ministry of Finance, determined to ensure stable long-term revenues, was decisive in persuading a majority of legislators to oppose their constituents in endorsing an unpopular program of tax reform.

Her careful analysis of the Japanese case holds important implications for the study of bureaucratic power and public policy in advanced industrial democracies elsewhere in East Asia and the West.

"Filled with valuable insights, this book also provides detailed information on a complicated issue of political economy that has traversed the Japanese political landscape for decades."

CHINESE PRIMER

Ta-tuan Ch'en, Perry Link, Yih-jian Tai, and Hai-tao Tang

Four experienced teachers of beginning Chinese have developed this introductory textbook. A pilot edition has been tested widely in classrooms and refined over a period of years.

The Chinese Primer is available in two versions, one using the GR system of romanization, which employs different spellings instead of diacritical marks for different tones, the other using Pinyin romanization. The contents of the four volumes are as follows: (1) Blue Book: Introduction; foundation work on pronunciation; lesson dialogues in romanized Chinese and English; appendices; glossary-index. (2) Red Book: Vocabularies; grammar notes and culture notes keyed to the lessons; exercises. (3) Yellow Book: Character workbook. (4) Green Book: Texts of the lessons in both traditional and simplified Chinese characters, and a Chinese introduction for teachers.

The first three volumes are sold as a set (GR or Pinyin). The Character Text is sold separately.
