The new Trade-mark for

'Cellona' is 'Gypsona'

'GYPSONA' is now the Trade Mark under which all our Plaster of Paris bandages, slabs and wide material are marketed.

The name 'GYPSONA' has been used for these products in non-British territories; a universal product requires a universal trade mark and is in the best interests of British surgery and of British trade.

The change is one of name only—the quality and properties of the product will not be altered. It is made in England.
