

# Public Health Nutrition

Volume 24, 2021 ISSN: 1368-9800  
journals.cambridge.org/phn

## **Publishing, Production, Marketing, and Subscription Sales Office:**

Cambridge University Press  
Journals Fulfillment Department  
University Printing House  
Shaftesbury Road  
Cambridge CB2 8BS  
UK

## **For Customers in North America:**

Cambridge University Press  
1 Liberty Plaza  
Floor 20, New York  
NY 10006  
USA

## **Special sales and supplements**

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Sarah Maddox at Cambridge University Press for further details (email: smaddox@cambridge.org).

## **Subscription information**

*Public Health Nutrition* is an international journal published 18 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at journals.cambridge.org/PHN, with free table of contents alert (upon registration).

## **Annual subscription rates**

Volume 24, 2021 (18 issues):  
Internet/print package: £1390/\$2666 Americas only/€2227 EU only  
Internet only: £1006/\$1909 Americas only/€1599 EU only

**Any supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

**Advertising:** The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and which are not, and will not be obliged to give reasons to prospective

advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

**Back volumes** will be available in due course. Please contact Cambridge University Press for further information.

**US POSTMASTERS:** Please send address corrections to Cambridge University Press  
1 Liberty Plaza  
Floor 20, New York  
NY 10006  
USA

**Notes for Authors** are available from the publisher at the given address and can be found inside the back cover.

**Offprints:** The author (or main author) of an accepted paper will receive a free PDF of their paper. Additional offprints are available for a fee and must be ordered at proof stage. **No page charges are levied by this journal.**

**Copyright:** As of 1 January 2001 the copyright of all articles submitted to *Public Health Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Editorial Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London, W6 7NJ, UK.

**Disclaimer:** The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk. Neither the Society, nor Cambridge University Press accepts responsibility for any trade advertisement included in this publication.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

*Public Health Nutrition* is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS<sup>®</sup>, Global Health, Index Medicus<sup>®</sup> (MEDLINE<sup>®</sup>), EMBASE, Excerpta Medica, BIOSIS<sup>®</sup> Database and CINAHL<sup>®</sup> Database  
*Public Health Nutrition* participates in the following initiatives: HINARI by WHO and AGORA by FAO.

*Public Health Nutrition (PHN)* provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

## Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, not including the abstract, references, tables, figures and acknowledgements.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

**Submission:** PHN operates an online submission and reviewing system. All manuscripts should be submitted to <http://mc.manuscriptcentral.com/phnutr>. Please contact the Editorial Office on [phn.edoffice@cambridge.org](mailto:phn.edoffice@cambridge.org) regarding any other types of submission.

**Refereeing:** Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

**Copyright:** At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

**Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

## Disclosure of financial support and any competing interests.

The submission must include a statement within an Acknowledgements section reporting any competing interests (financial and non-financial), all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

## Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so. All submissions must include a statement that the research was conducted in accordance with guidelines laid down by the Declaration of Helsinki and approved by an ethics review committee.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

**Proofs:** Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

**Offprints:** The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

**Themed Section: Maternal and child nutrition in sub-Saharan Africa**

Evidence-based strategies needed to combat malnutrition in Sub-Saharan countries facing different stages of nutrition transition

Hélène Delisle, Mieke Faber and Pascal Revault 3577

Iodine nutrition status in Africa: potentially high prevalence of iodine deficiency in pregnancy even in countries classified as iodine sufficient  
Charles Bitamazire Businge, Benjamin Longo-Mbenza and Andre Pascal Kengne 3581

Application of stable isotope dilution techniques to assess body fat and comparison with WHO BMI-for-age classification as a measure of obesity among schoolchildren in Nairobi, Kenya  
Dorcus Mbithe D Kigaru, Zipporah W Ndung'u and Catherine W Macharia-Mutie 3587

A qualitative analysis of infant and young child feeding practices in rural Rwanda  
Theogene Dusingizimana, Janet L Weber, Thiagarajah Ramilan, Per O Iversen and Louise Brough 3592

Maternal perspectives on infant feeding practices in Soweto, South Africa  
Stephanie V Wrottesley, Alessandra Piroreschi, Wiedaad Slemming, Emmanuel Cohen, Cindy-Lee Dennis and Shane A Norris 3602

Assessing factors influencing adolescents' dietary behaviours in urban Ethiopia using participatory photography  
Ursula Trübswasser, Kaleab Baye, Michelle Holdsworth, Megan Loeffen, Edith JM Feskens and Elise F Talsma 3615

Determinants of dietary and physical activity behaviours among women of reproductive age in urban Uganda, a qualitative study  
Peter Yiga, Patrick Ogwo, Julian Achieng, Mary Devota Auma, Jan Seghers and Christophe Matthys 3624

Parent perspectives on preschoolers' movement and dietary behaviours: a qualitative study in Soweto, South Africa  
Sonja Klingberg, Esther MF van Sluijs and Catherine E Draper 3637

Spatio-temporal trends in anaemia among pregnant women, adolescents and preschool children in sub-Saharan Africa  
Kelech Weze, Ajibola Ibraheem Abioye, Chiagoziem Obiajunwa and Moshood Omotayo 3648

Exposure to aflatoxins and fumonisins and linear growth of children in rural Ethiopia: a longitudinal study  
Masresha Tessema, Hugo De Groot, Inge D Brouwer, Marthe De Boever, Arnau Vidal Corominas, Barbara J Stoecker, Edith JM Feskens, Tefera Belachew, Anastasia Karakitsou and Nilupa S Gunaratna 3662

Double-duty solutions for optimising maternal and child nutrition in urban South Africa: a qualitative study  
Agnes Erzse, Susan Goldstein, Shane A Norris, Daniella Watson, Sarah H Kehoe, Mary Barker, Emmanuel Cohen and Karen J Hofman 3674

Treatment outcomes among children treated for uncomplicated severe acute malnutrition: a retrospective study in Accra, Ghana  
Abena Takyi, Edem Tette, Bamenla Goka, Genevieve Insaïdoo, Yakubu Alhassan, Mame Yaa Nyarko and Kasia Stepniowska 3685

Livestock ownership and anaemia in Sub-Saharan African households  
Yubraj Acharya, Di Yang and Andrew D Jones 3698

Community perspectives on maternal and child health during nutrition and economic transition in sub-Saharan Africa  
Daniella Watson, Sarah H Kehoe, Agnes Erzse, Adélaïde Compaoré, Cornelius Debuur, Engelbert A Nonterah, Hermann Sorgho, Shane A Norris, Karen J Hofman, Wendy Lawrence, Marie-Louise Newell, Keith M Godfrey, Kate A Ward and Mary Barker for the INPreP group 3710

Supporting maternal and child nutrition: views from community members in rural Northern Ghana  
Cornelius Debuur, Engelbert A Nonterah, Samuel T Chatto, James K Adoctor, Edith Dambayi, Paula Beer, Esmond W Nonterah, Doreen Ayi-Bisah, Daniella Watson, Sarah H Kehoe, Maxwell A Dalaba, Winfred Ofose, Raymond Aborigo, Paul Welaga, Abraham R Oduru, Marie-Louise Newell and Mary Barker for the INPreP Study Group 3719

Two imperatives for progress in maternal and child nutrition in Sub-Saharan Africa: better use of implementation research and decentralised governance in nutrition programmes  
Noel M Zagre 3727

The association of urine markers of iodine intake with development and growth among children in rural Uganda: a secondary analysis of a randomised education trial  
Prudence Atukunda, Grace KM Muhozi, Lien M Diep, Jens P Berg, Ane C Westerberg and Per O Iversen 3730

Effect of maternal nutritional education and counselling on children's stunting prevalence in urban informal settlements in Nairobi, Kenya  
CK Nyamasege, EW Kimani-Murage, M Wanjohi, DWM Kaindi and Y Wagatsuma 3740

Maternal education is essential but may not be sufficient to prevent child stunting: a commentary  
Hélène Delisle 3753

Facilitating factors and challenges of the implementation of multisectoral nutrition programmes at the community level to improve optimal infant and young child feeding practices: a qualitative study in Burkina Faso  
Ousmane Ouedraogo, Maimouna Halidou Doudou, Koiné Maxime Drabo, Médatrice Kiburente, Djibril Cissé, Christian Mésenge, Dia Sanou, Noel Marie Zagre and Philippe Donnen 3756

User fees removal and community-based management of undernutrition in Burkina Faso: what effects on children's nutritional status?  
David Y Zombré, Manoua De Allegri, Valéry Ridde and Kate Zinszer 3768

'Men are not playing their roles', maternal and child nutrition in Nanoro, Burkina Faso  
Adélaïde Compaoré, Kadja Ouedraogo, Palwende R Boua, Daniella Watson, Sarah H Kehoe, Marie-Louise Newell, Halidou Tinto, Mary Barker and Hermann Sorgho for the INPreP group 3780

**Monitoring and surveillance**

Receiving advice from a health professional and action taken to reduce dietary sodium intake among adults  
Rebecca C Woodruff, Katherine J Overwyk, Mary E Cogswell, Jing Fang and Sandra L Jackson 3791

A state-wide audit of unhealthy sponsorship within junior sporting clubs in Victoria, Australia  
Florentina Martino, Alexandra Chung, Jane Potter, Tara Heneghan, Melanie Chisholm, Devorah Riesenberger, Adya Gupta and Kathryn Backholer 3797

**Assessment and methodology**

Improving the measurement of food insecurity among people with HIV in South Africa: a psychometric examination  
Jasper S Lee, Cengiz Zopluoglu, Lena S Andersen, Amelia M Stanton, Jessica F Magidson, Ashraf Kagee, John A Joska, Conall O'Cleirigh and Steven A Safren 3805

A useful and simple tool to evaluate and compare the intake of total dietary polyphenols in different populations  
Daniel Hinojosa-Nogueira, Sergio Pérez-Burillo, Inés García-Rincón, José A Rufián-Henares and Silvia Pastoriza 3818

**Nutritional status and body composition**

Relationship between childhood obesity and socio-economic status among primary school children in Costa Rica  
Tatiana Gamboa-Gamboa, Romain Fantin, Jeancarlo Cordoba, Ivannia Caravaca and Ingrid Gómez-Duarte 3825

Determinants of minimum acceptable diet feeding among children aged 6–23 months in Odisha, India  
Arabinda Acharya, Manas Ranjan Pradhan and Anup Kumar Das 3834

**Nutrition communication**

Mothers' perceptions on and learning from infant and young child-feeding videos displayed in Mother and Child Health Centers in Kenya: a qualitative and quantitative approach  
Lauriina Schmedler, Mikko Kosola, Kerttu Uusimäki, Sari Ollila, Crippina Lubeka, Judith Kimiywe and Marja Mutanen 3845

Sources of nutrition information for Indonesian women during pregnancy: how is information sought and provided?  
Widya Rahmawati, Paige van der Pligt, Jane C Willcox and Anthony F Worsley 3859

**Behavioural nutrition**

Status of nutritional literacy in adolescents in the semi-rural area in Turkey and related factors  
Çağla Ayer and Ahmet Ergin 3870

'[The pediatrician] said that maybe my milk, instead of doing good, no longer helped': the ecology of infant formula in rural communities in Central Mexico  
Paulina Luna, Tania Valdes, Alberto Zelocuatcatl-Aguilar, Gerónimo Medrano-Loera, Bárbara Guerrero, Angelica Garcia-Martinez, Rafael Pérez-Escamilla and Diana Bueno-Gutierrez 3879

**Nutritional epidemiology**

Dose-response association between sugar- and artificially sweetened beverage consumption and the risk of metabolic syndrome: a meta-analysis of population-based epidemiological studies  
Xiao Zhang, Xi Li, Leilei Liu, Feng Hong, Huan Zhao, Lulu Chen, Jun Zhang, Yuxu Jiang, Jiangping Zhang and Peng Luo 3892

Changes in ultra-processed food consumption during the first Italian lockdown following the COVID-19 pandemic and major correlates: results from two population-based cohorts  
Marialaura Bonaccio, Simona Costanzo, Emilia Ruggiero, Mariarosaria Persichillo, Simona Esposito, Marco Olivieri, Augusto Di Castelnuovo, Chiara Cerletti, Maria Benedetta Donati, Giovanni de Gaetano and Licia Iacoviello for the Moli-LOCK Study Investigators 3905

Secular trends in diet-related greenhouse gas emission estimates since 2000 – a shift towards sustainable diets in Sweden  
Kirsten Mehlig, Irene Blomqvist, Sofia Klingberg, Marta Bianchi, Josefijn Sjoms, Monica Hunsberger and Lauren Lissner 3916

**Economics and environment**

Economic evaluation of a farm-to-Special Supplemental Nutrition Programme for Women, Infants and Children intervention promoting vegetable consumption  
Jennifer Di Noia, Dorothy Monica, Helen H Jensen and Alla Sikorskii 3922

Predictors of households at risk for food insecurity in the United States during the COVID-19 pandemic  
Brianna N Lauren, Elisabeth R Silver, Adam S Faye, Alexandra M Rogers, Jennifer A Woo-Baidal, Elissa M Ozanne and Chin Hur 3929

**Community nutrition**

Assessing the scale and spread of an experiential teaching kitchen in after-school programming among school-age children  
William J Heerman, Yasmmeen Elsakry, Evan C Sommer, Juan Escarfuller and Shari L Barkin 3937

**Interventions**

The impact of a produce prescription programme on healthy food purchasing and diabetes-related health outcomes  
Julian Xie, Ashley Price, Neal Curran and Truls Østbye 3945

Consumer preferences for low-salt foods: a Danish case study based on a comprehensive supermarket intervention  
Sigrid Denver, Tove Christensen and Jonas Nordström 3956

**Public policies**

Global evaluation of the use of glycaemic impact measurements to food or nutrient intake  
Paula R Trumbo 3966
