PUBLISHED BY CAMBRIDGE UNIVERSITY PRESS FOR
AND ON BEHALF OF THE ASSOCIATION OF SYMBOLIC LOGIC.

The BULLETIN, the JOURNAL and the REVIEW OF SYMBOLIC LOGIC are the official organs of the Association for Symbolic Logic, an international organization for furthering research in logic and the exchange of ideas among mathematicians, computer scientists, linguists, and others interested in this field. The BULLETIN encourages submissions of *Articles* and *Communications* in all areas of logic, including mathematical or philosophical logic, logic in computer science or linguistics, the history or philosophy of logic, and applications of logic to other fields. It also encourages the submissions of abstracts for doctoral level theses in logic. The BULLETIN also publishes reviews of publications in logic.

Thesis abstracts editor

Christian Rosendal rosendal@math.uic.edu

Articles present topics of broad interest in a way that is accessible to a large audience. They can be purely expository, survey, or historical articles or they may contain, in addition, new ideas or results or new approaches to old ones.

Communications should be announcements of important new results and ideas in any aspect of logic; they may be short papers in their final form or preliminary announcements (extended abstracts, position papers) of longer, full papers that will be published elsewhere. In any case, they should include, in addition to a description of the new results or ideas, enough history, background, and explanation to make the significance of the work apparent to a wide audience. *Communications* will be quickly refereed and published within six months of the submission of final version.

To submit *Articles* or *Communications* please follow the procedure described at <http://www.aslonline.org/journals-bulletin-guide.html>

To submit *Thesis Abstracts* please follow the procedure described at <http://aslonline.org/LogicThesisAbstracts.html>

Books for review in the BULLETIN should be sent to **ASL, Department of Mathematics, University of Connecticut, 341 Mansfield Road, U-1009, Storrs, CT 06269-1009, USA**.

TABLE OF CONTENTS

ARTICLES

Foundations of online structure theory, by NIKOLAY BAZHENOV, ROD DOWNEY, ISKANDER KALIMULLIN, AND ALEXANDER MELNIKOV	141
A conjectural classification of strongly dependent fields, by YATIR HALEVI, ASSAF HASSON, AND FRANZiska JAHNKE	182

COMMUNICATIONS

Indirect proof and inversions of syllogisms, by ROY DYCKHOFF.....	196
An extension of a theorem of Zermelo, by JOUKO VÄÄNÄNEN.....	208

THESIS ABSTRACTS

Arthur Freitas Ramos, <i>Explicit Computational Paths in Type Theory</i> , Universidade Federal de Pernambuco, Brazil, 2018. Supervised by Anjolina G. de Oliveira and Ruy J. G. B. de Queiroz.....	213
Marcus Vinícius Midena Ramos, <i>Formalization of Context-Free Language Theory</i> , Universidade Federal de Pernambuco, Brazil, 2016. Supervised by Ruy J. G. B. de Queiroz	214
Douglas Ulrich, <i>Some Applications of Set Theory to Model Theory</i> , University of Maryland, College Park, USA, 2018. Supervised by Michael C. Laskowski	214
Victoria Noquez, <i>Vaught's Two-Cardinal Theorem and Notions of Minimality in Continuous Logic</i> , University of Illinois at Chicago, USA, 2017. Supervised by David Marker.....	215
Paul K. Gorbow, <i>Self-similarity in the Foundations</i> , University of Gothenburg, Sweden, 2018. Supervised by Ali Enayat (primary), Peter LeFanu Lumsdaine, and Zachiri McKenzie (secondary)	216
Saeideh Bahrami, <i>Self-embeddings of Models of Peano Arithmetic</i> , Tarbiat Modares University, Iran, 2018. Supervised by Ali Enayat	217
Lukas Daniel Klausner, <i>Creatures and Cardinals</i> , Technische Universität Wien, Austria, 2018. Supervised by Martin Goldstern	218
Ari Meir Brodsky, <i>A Theory of Stationary Trees and the Balanced Baumgartner–Hajnal–Todorcevic Theorem for Trees</i> , University of Toronto, Canada, 2014. Supervised by Stevo Todorcevic	219
Aaron Thomas-Bolduc, <i>New Directions for Neo-logicism</i> , University of Calgary, Canada, 2018. Supervised by Richard Zach.....	219
William D. Simmons, <i>Completeness of Finite-Rank Differential Varieties</i> , University of Illinois at Chicago, USA, 2013. Supervised by David Marker	220

Filippo Cavallari, <i>Regular Tree Languages in the First Two Levels of the Borel Hierarchy</i> , University of Turin, Italy, and University of Lausanne, Switzerland, 2018. Supervised by Luca Motto Ros (Turin) and Jacques Duparc (Lausanne)	221
