THE KEPLER MALT EXTRACT.

THE many and varied conditions of disease in which the Kepler Extract of Malt is indicated as a food, and the benefits which are to be obtained from its use, sufficiently explain the wide popularity it has attained. Our perfected machinery and long experience have enabled us to obtain a product of the highest excellence.

We claim for the Kepler Extract of Malt that it is manufactured from barley, and barley only; that it readily assimilated, tant factor diastase, all the nutritive grain intact. coarse and makes it the safest demulcent in the throat, and in tions of the system food and digestive

These statements by the following monies:—

The *Lancet* contention by Kepler is the best country, the largest Malt. It is as in therapeutics as duction of

The *British* chimes in with, mend the Kepler

Being prepared at a very low temperature its qualities are not deteriorated, nor is its flavour spoiled. It is very favourably spoken of by physicians, both in respect to its nutritive and digestive properties, and as being of ver flavour."

The *Medical Record* adds eloquent testimony: " of Malt is undoubtedly the best, the richest in diastase, and the most largely used. We have witnessed the process of manufacture, have tested it, and are satisfied that it is not only unsurpassed, but unequalled. It is the Extract of Malt which every physician prescribes."

The *Medical Press and Circular* swells the chorus with: "Very delicious to the taste, and has been found by analysis to be exceedingly rich in diastase."

The *Medical Times and Gazette* says: By far the best, the most widely known, and the most largely used in the country."
