

An Illustrated Guide to Colonial Manhattan

New York City Neighborhoods

The 18th Century

Nan A. Rothschild

New York City Neighborhoods is an archaeological study of the growth of Manhattan during the colonial period, and of the emergence of Manhattan as the center of class structured capitalist commercialism in the new nation state. This book will be an essential text for students of cities, historical archaeologists, urban anthropologists, urban geographers, urban historians, urban sociologists, and urban planners.

Key Features:

- Includes more than 70 beautifully illustrated maps showing the location of key institutions, such as churches, markets, and taverns, and the history of settlement of New York City in the 18th century
- Examines the city by dividing it into smaller, more cohesive subunits and by using data from archaeological sites and ethnographic observations

- Derives from two types of experience in the investigation of urban communities: from conducting archaeological excavations in New York City and the surrounding area, and from the study of urban archaeology

CONTENTS: Early New York as a City. Maps, Markets, and Churches. The Spatial Distribution of Ethnicity. The Economic Organization of the City. Meat, Fish, and Poultry—Feeding New Yorkers. The Interaction between Wealth and Ethnicity. Bibliography. Appendices. Index.

July 1990, c. 211 pages, \$44.50 (tentative)

When Is a Kiva?

**And Other Questions About
Southwestern Archaeology**

Watson Smith

Raymond H. Thompson, ed.

Gathers ten of Smith's essays on archaeological topics--especially on Anasazi and Hopi prehistory--and discusses fine points of ceremonial architecture. \$35.00.

Archaeological Method and Theory 2

Michael B. Schiffer, ed.

Contents: Storytelling and Prehistory...

Variation, Selection, and the Archaeological

Record...Ethnohistory and Historical Method...

Archaeological Approaches to New World

Plantation Slavery...Zooarchaeology and

Complex Societies...The Analysis and Interpretation

of Archaeological Fish Remains...

Underground Archaeology. \$35.00.

The Dawn of Belief

**Religion in the Upper Paleolithic
of Southwestern Europe**

D. Bruce Dickson

Draws on theories derived from cultural anthropology and cognitive archaeology to propose a reconstruction of prehistoric religious life based on the patterning and provenience of artifacts. \$29.95.

New Anthropological Papers

The Chinese of Early Tucson

**Historic Archaeology from
the Tucson Urban Renewal Project**

Florence C. Lister and Robert H. Lister

Provides an ethnohistorical account of what was once one of the largest and most influential Asian communities in the intermontane West. \$29.95.

Mimbres Archaeology of the Upper Gila, New Mexico

Stephen H. Lekson

Reintroduces the concept of the Mangas phase and demonstrates a more gradual shift from pithouse to pueblo occupation than has been suggested previously. \$32.50.

56th ANNUAL MEETING
SOCIETY FOR AMERICAN ARCHAEOLOGY

The Clarion Hotel
New Orleans, Louisiana
Tuesday, April 23–Sunday, April 28, 1991

Program Committee Chair: Timothy A. Kohler
Department of Anthropology
Washington State University
Pullman, WA 99164-4910

GUIDELINES FOR CONTRIBUTIONS

The privilege of participating in the annual meeting as a presenter, organizer, chair or discussant is restricted to paid-up members. However, representatives of other disciplines or archaeologists who are not North American residents may request a waiver of the membership requirement.

Society policy states that a person may not deliver more than one paper, though that person may, at the same meeting, chair a session or serve as junior author of a paper presented by someone else or serve as a discussant. However, no paper may have more than three authors listed, and no individual may have more than three roles (author, organizer, chair or discussant) in the meeting.

Complete symposia proposals (with abstracts of papers), abstracts of contributed papers, abstracts of research reports, and abstracts for poster sessions must reach the *SAA Office* no later than *October 1, 1990*. All proposals and abstracts must be submitted on appropriate *SAA forms*, which are mailed to all *SAA* members with the ballot.

In case of co-authorship of papers, *only the senior author* should submit a *Participant Information Form* containing the information on all of the associated authors. The *Participant Information Form* is in two parts: Page One (Submission Information) and Page Two (Short Abstract Information). Copies of the *Participant Information Form* must be submitted by all participants including symposia organizers, chairs, and discussants, as well as all senior authors of symposia papers, contributed papers, research reports, and posters.

Because it is no longer possible to accommodate all individuals wishing to make oral presentations at the annual meeting, the Program Committee will evaluate each submission for professionalism, timeliness of receipt, substance of contribution, and redundancy with other submissions. Poster Sessions are especially encouraged and are particularly effective for presentations involving mapping, remote sensing, and various quantitative methods. The Program Committee may request that individual papers or entire symposia be converted to poster format. Symposia organizers and first authors of presentations not in symposia will be notified of the Program Committee's decision to accept or decline the submission by January 15, 1990. Abstracts of all papers, research reports, and posters accepted for presentation will be published in a separate abstracts volume.

SYMPOSIA—A symposium consists of a group of papers on a common theme. Symposia are limited to four hours or less. The symposium topic and the individual papers within it will be reviewed. Changes, such as consolidation of two symposia or changes in the individual papers, may be recommended. Symposia organizers should contact the *Program Chair* no later than *September 1, 1990*, in order that the *Guidelines for Symposium Organizers* and a special symposium form can be sent to them. Complete symposia proposals must be submitted *as a package to the SAA Office* by the symposium organizer(s) and must be received by *October 1, 1990*.

The package must include three (3) copies of the *Symposium Proposal Form* and one (1) copy of the *Participant Information Form* for each senior author, discussant, chair, and organizer (whether or not the organizer is chairing the symposium). The package also must include the registration form and fee.

CONTRIBUTED PAPERS (20 minutes)—Contributed papers are distinguished from Research Reports in that they generalize, synthesize, or compare and are addressed to problems of theory, method, culture history, or culture process. Contributed papers must follow the same format as symposia papers, and each proposed presentation must include one (1) copy of the Submission Information Form and three (3) copies of the Short Abstract Form. Registration form and fee must be included.

RESEARCH REPORTS (10 minutes)—A research report is a presentation that describes the results of a recent field or laboratory research project. Each proposed presentation must include one (1) copy of the Submission Information Form and three (3) copies of the Short Abstract Form. Registration form and fee must be included.

POSTER SESSIONS—The poster session is especially appropriate for research results that can be described graphically better than verbally. Poster sessions will be listed in the Program and will be displayed in prominent locations. Each proposed presentation must include one (1) copy of the Submission Information Form and three (3) copies of the Short Abstract Form. Registration form and fee must be included.
