JOURNAL OF HELMINTHOLOGY

(Founded by R. T. Leiper in 1923 and edited from 1946-72 by J. J. C. Buckley)

EDITOR: Dr. R. L. Muller,
Department of Medical Helminthology,
London School of Hygiene & Tropical Medicine,
Keppel Street, London WC1E 7HT, England.

Subscriptions and enquiries may be sent to:
Bureau of Hygiene & Tropical Diseases,
Keppel Street,
London WC1E 7HT, England.

Published in 4 parts per year

Subscription £9.00 per annum

THE ZOOLOGICAL RECORD

— the largest and most comprehensive bibliography of the world's zoological literature, published annually since 1864. Each volume covers a year's literature and is divided into a number of separate sections dealing with different groups of the animal kingdom. One of the sections is entitled:

VERMES

VERMES is further subdivided into three subsections covering:

- a) Platyhelminthes, Nemathelminthes, Nemertinea and Mesozoa.
- b) Annelida, Chaetognatha, Echinoderida, Echiura, Gastrotricha, Priapulida, Rotifera, Sipuncula, Gnathostomulida.
- c) Conodonta, Trace Fossils.

Providing quick and easy access to the scientific literature VERMES is an invaluable tool for information retrieval.

C.I.H. KEYS TO THE NEMATODE PARASITES OF VERTEBRATES

edited by

ROY C. ANDERSON, ALAIN G. CHABAUD, SHEILA WILLMOTT

Published as a Serial Publication of the
Commonwealth Institute of Helminthology
ISSN 0305-2729

This continuing series in English is being prepared to fill the increasing need for up-to-date keys to the genera of parasitic nematodes of vertebrates. Each superfamily is being dealt with separately by an authority on the group and the keys, which are well illustrated by line drawings, are designed for use by non-specialists as well as specialists. The following have appeared or will be published shortly:

No. 1. General Introduction

Glossary of Terms by Sheila Willmott and
Keys to Subclasses, Orders and Superfamilies by Alain G. Chabaud.

No. 2. Keys to Genera of the Ascaridoidea by Gerhard Hartwich.

No. 3. Keys to Genera of the Order Spirurida

Part 1. Camallanoidea, Dracunculoidea, Gnathostomatoidea, Physalopteroidea, Rictularioidea and Thelazioidea by Alain G. Chabaud.

Part 2. Spiruroidea, Habronematoidea and Acuarioidea by
Alain G. Chabaud.

Part 3. Diplostriaenoidea, Aproctoidea and Filarioidea by
R. C. Anderson and O. Bain (to be published in Sept. 1976).

No. 4. Keys to Genera of Oxyuroidea by A. Petter and J. C. Quentin.

Other superfamilies to be covered include the Metastrongyloidea, Trichostrongyloidea, Ancylostomatoidea, Trichuroidea, etc.

The Institute is also pleased to be able to tell Protozoologists that production of a new journal, *Protozoological Abstracts*, will start this year and the first monthly issue will appear in January 1977.

Further information on these and other publications may be obtained from:
