Hibistat, a waterless alternative to liquid soap, provides rapid bactericidal action when routine hand washing is not possible or convenient. The alcohol + chlorhexidine gluconate (CHG) formula provides immediate and persistent activity. Hibistat has a moisturizing formula which allows for multiple daily uses.

Portable and convenient, Hibistat may contribute to increased hand washing compliance rates,

as well as confidence in personal and patient protection.

To find out more, call **1-800-843-8497** today.

INFECTIOUS DISEASES INFECTION CONTROL

Indiana University Department of Medicine, Division of Infectious Diseases is recruiting for an Assistant/ Associate Professor; tenure, non-tenure or clinical track will be established in accordance with the applicant's credentials. This position will focus on building an Infection Control program in conjunction with the local VA and county hospitals, which are located on our campus. Successful candidates should be BC in internal medicine and BC/BE in infectious diseases and should demonstrate prior experience or training in hospital epidemiology. Three-year fellowship in Infectious Diseases required. At least 75% of the applicant's time will be spent in Infection Control.

For consideration, send a CV, letter of interest, statement of research interest, and three letters of reference to:

Dr. Stanley M. Spinola
Director
Division of Infectious Diseases
Department of Medicine
545 Barnhill Drive, EH 435
Indianapolis, IN 46202-5124

Indiana University is an Affirmative Action/Equal Opportunity Employer M/F/D.
Minority women are encouraged to apply.

SHEA

The Society for Healthcare Epidemiology of America

2003 SHEA/CDC Fall Training Course in Healthcare Epidemiology

Program

The program will be held October 25-28, 2003 at the Sheraton San Diego Hotel and Marina, San Diego, CA. Denise Cardo, MD, Loreen A. Herwaldt, MD, Timothy W. Lane, MD, and Gina Pugliese, RN, MS, will co-chair this program. The program, developed by the Society for Healthcare Epidemiology of America (SHEA) and the Centers for Disease Control and Prevention (CDC), is intended for infectious disease fellows and new hospital epidemiologists. It emphasizes handson exercises in which participants work in small groups to detect, investigate, and control epidemiological problems encountered in the healthcare setting. These work sessions are supplemented with lectures and seminars covering fundamental aspects of healthcarel epidemiology and surveillance, epidemic investigation, transmission, and control of nosocomial infections, disinfection and sterilization, employee health, isolation systems, regulatory compliance, and quality improvement.

Who Should Attend

You should attend if you are a healthcare epidemiologist or an infection control practitioner or if you are looking for a course that will provide you with the most current information concerning infection control practices and epidemiological methods in health care. This fundamental program will provide you with opportunities to find solutions in real situations that will occur in the healthcare setting. Intensive problem solving sessions are supplemented with lectures and seminars presented by leading authorities.

Jonathan Freeman Scholarships

Five (5) Jonathan Freeman Scholarships in the amount of \$500 each will be awarded to infectious disease fellows to defray expenses incurred in attending the training program. In addition to the \$500 amount, each scholarship winner will receive complimentary registration in the training course.

Interested fellows must submit a letter of no more than one (1) page describing why they would like to have additional training in healthcare epidemiology. A letter

from the fellow's program director outlining the applicant's qualifications and suitability for the course also is required. The deadline for receipt of scholarship applications for the course is September 5, 2003. The SHEA Educational Activities Committee will select the scholarship recipients based on review of these letters. Winners will be notified before the end of September.

Nominations

Please send scholarship applications to:

SHEA/CDC

c/o The Society for Healthcare Epidemiology of America 19 Mantua Road

Mt. Royal, NJ 08061

Fees

Individual Registrants Fellows in Infectious Disease

\$625 \$450

Credits

The Society for Healthcare Epidemiology of America (SHEA) is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

The Society for Healthcare Epidemiology of America designated this continuing education activity for up to 26 hours in Category 1 of the Physician's Recognition Award of the American Medical Association.

General Course Information

Information regarding the schedule, hotel and travel accommodations, discount airfare, and course fees are available from SHEA (856)-423-7222. NOTE THAT APPLICATION FOR A SCHOLARSHIP DOES NOT CONSTITUTE ENROLLMENT IN THE PROGRAM. This must be done separately.
