

Contents

Editorial	
World Food Summits: what for, and what value? <i>A Yngve, A Oshaug, B Margetts, M Tseng, R Hughes and G Cannon</i>	151
In this issue	
Assessing beverage consumption – enough to make you drink? <i>R Hughes</i>	153
Monitoring and surveillance	
Contribution of specific dietary factors to CHD in US females <i>N Tran and L Barraç</i>	154
Are snacking patterns associated with risk of overweight among Kahnawake schoolchildren? <i>G Mercille, O Receveur and AC Macaulay</i>	163
Assessment and methodology	
Evaluating energy intake measurement in free-living subjects: when to record and for how long? <i>CL Fyfe, J Stewart, SD Murison, DM Jackson, K Rance, JR Speakman, GW Horgan and AM Johnstone</i>	172
Usefulness of the metabolic syndrome criteria as predictors of insulin resistance among obese Korean women <i>K Lee</i>	181
Relative validity of a self-completion 24 h recall questionnaire to assess beverage consumption among schoolchildren aged 7 to 9 years <i>R Muckelbauer, L Libuda and M Kersting</i>	187
Biological and behavioural determinants	
Factors associated with overweight in children in Rasht, Iran: gender, maternal education, skipping breakfast and parental obesity <i>M Maddah and B Nikooyeh</i>	196
Infant weight gain, duration of exclusive breast-feeding and childhood BMI – two similar follow-up cohorts <i>I Gunnarsdottir, L Schack-Nielsen, KF Michaelsen, TIA Sørensen and I Thorsdottir on behalf of the NordNet Study Group</i>	201
Healthy Eating Index and abdominal obesity <i>DL Tande, R Magel and BN Strand</i>	208
Social, economic, political and environmental determinants	
An ecological analysis of factors associated with food insecurity in South Australia, 2002–7 <i>W Foley, P Ward, P Carter, J Coveney, G Tsoortos and A Taylor</i>	215
Dietary patterns and home food availability during emerging adulthood: do they differ by living situation? <i>MN Laska, NI Larson, D Neumark-Sztainer and M Story</i>	222
Interventions	
Evaluation of the Missouri WIC (Special Supplemental Nutrition Program for Women, Infants, and Children) breast-feeding peer counselling programme <i>S Yun, Q Liu, K Mertzluft, C Kruse, M White, P Fuller and B-P Zhu</i>	229
Serving of free school lunch to secondary-school pupils – a pilot study with health implications <i>AS Ask, S Hernes, I Aarek, F Vik, C Brodahl and M Haugen</i>	238
Individual preferences for diet and exercise programmes: changes over a lifestyle intervention and their link with outcomes <i>K Owen, T Pettman, M Haas, R Viney and G Misan</i>	245

Contents continued on backmatter

Public Health Nutrition (PHN) provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, including references.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

Submission: PHN operates an online submission and reviewing system (eJournalPress). All manuscripts must be submitted online at <http://phn.msubmit.net/>. If any difficulties are encountered, please contact the Publications Office at phn@nutsoc.org.uk

Refereeing: Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

Copyright: At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

Preparation of manuscripts: Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

Disclosure of financial support and any competing

interests. The submission must include a statement within an Acknowledgements section reporting any competing interests, all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

Proofs: Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

Offprints: The corresponding author will receive a copy of the issue and a PDF of the published paper free of charge. Offprints are available to purchase and can be ordered before publication.

Editor-in-Chief

C. J. Newbold, Institute of Rural Science, University of Wales, Aberystwyth, UK

Proceedings of the Nutrition Society publishes papers and abstracts presented by members and invited speakers at the scientific meetings of The Nutrition Society. The journal provides an invaluable record of the scientific research currently being undertaken, contributing to 'the scientific study of nutrition and its application to the maintenance of human and animal health.'

Special sales and supplements

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Katy Christomanou at Cambridge University Press for further details (email: kchristomanou@cambridge.org).

Subscription information

Public Health Nutrition is an international journal published 12 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at journals.cambridge.org/PHN, with free table of contents alert (upon registration).

Annual subscription rates

Volume 13, 2010 (12 issues):
Internet/print package: £697/\$1337 Americas only/€1117 EU only
Internet only: £589/\$1116 Americas only/€936 EU only

Any supplements to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

Advertising: The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and

which are not, and will not be obliged to give reasons to prospective advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

Back volumes will be available in due course. Please contact Cambridge University Press for further information.
