The Review is published three times a year and each number, consisting of about 400 pages, will contain an **english translation** of every article as well as the text in the original language used by the author and an Italian version.
For this reason SCIENTIA, from this year on, has been radically changed, with a Scientific Editorial Board which guarantees it rigour and coherence, and a new and clearer typographical lay-out.

SCIENTIA, which has always sought to maintain a policy of rigorously defending rationality - and in particular scientific rationality - has realized the urgent necessity of renewing and strengthening its cultural position in the face of new and more subtle attacks on science.
