

ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

APRIL 1973

VOL. 16 PART 2

LONGMAN

INFORMATION FOR CONTRIBUTORS TO *ANIMAL PRODUCTION*

Detailed notes for guidance in the preparation of manuscripts are printed in Volume 13, pages ix to xx. A few general points are given below.

Animal Production publishes papers on original research provided that they have not been and, with the exception of authors' summaries, will not be published elsewhere without the Editors' written permission. Authors' summaries can be reproduced if full acknowledgement of the source is made.

Contributions may be in the field of animal production, or in any related scientific field. Reports on techniques will be published only as appendices to scientific papers. Results of research which do not warrant a comprehensive presentation may be submitted for consideration as *Notes*. Notes are not intended for the publication of interim results. They should not exceed 2000 words or the equivalent inclusive of tables and illustrations.

Manuscripts should be typewritten in double spacing with wide margins. Each page and the lines on each page should be numbered. Two copies of the typescript (and of illustrations) should be sent to

Dr. Gerald Wiener,
Animal Production,
ARC Animal Breeding Research Organisation,
West Mains Road, Edinburgh EH9 3JQ, Scotland

Manuscripts are not returned with proofs; authors should therefore retain copies.

Units of measurement. Metric units should be used. SI units will be accepted but are not obligatory.

Symbols and abbreviations. Authors should consult the notes prepared for guidance. Levels of statistical significance which can be indicated without explanation are: * = $P < 0.05$, ** = $P < 0.01$, *** = $P < 0.001$.

Illustrations. The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board, stout tracing paper or plastic film. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors.
- (c) Colour plates are unlikely to be accepted unless authors bear the cost.

Tables should be as simple and as few as possible. When constructing tables, it would be helpful if authors would take into account the size and shape of the pages of *Animal Production*.

the most widely used
scientific information system in the world

Try any edition free for 4 weeks.

Nearly 200,000 professionals of all types use the *Current Contents*[®] system every week to locate and obtain new journal articles relevant to their work. And they've got good reasons.

Current Contents is the most comprehensive, least complicated way to make sure you learn of new developments in your field while they're still new. Just an hour a week spent scanning any edition of *Current Contents* lets you sort through everything that's published in a thousand or more journals. With *CC*[®] it's easy to pick out just those articles you want to read. Without handling the journals. Without increasing your journal subscription expenses.

Find out why so many people like you use *Current Contents*. Get more information and a free 4-week subscription by completing the coupon.

Tropical Animal Health and Production

Edited by W. G. Beaton

The aim of this Journal is to publish the results of original research, investigation or technology in the field of veterinary medicine and animal production which may lead to the better utilization of animal resources with particular reference to tropical and sub-tropical countries. It also contains articles on the epidemiology of the diseases of animals in the tropics, the control of zoonoses and reviews of specific subjects.

Proceedings of the British Society of Animal Production

The British Society of Animal Production is recommencing publication of an Annual Proceedings in 1972. The Proceedings will contain material given at the Society's meetings and reports and reviews commissioned by the Society. Other original research papers will continue to appear in *Animal Production*.

In addition to Abstracts of the short papers given at the Society's 54th Meeting, the 1972 Proceedings will include papers from four recent Symposia organised by the Society:—

Artificial Rearing of Pigs
Processing of Roughages
Aspects of Carcass Evaluation
Animal Production from Grassland

The Annual Subscription for the Proceedings is £1.75 (\$6.00 U.S. and Canada), a joint subscription with *Animal Production* will be available at £10.00 (\$28.00 U.S. and Canada) from 1973 onwards. Orders for the Proceedings and all subscription enquiries to Longman Group Limited, Journals Division, 43/45 Annandale Street, Edinburgh EH7 4AT.
