# BELHAVEN/SPRI POLAR RESEARCH SERIES

Announcing the first three books on polar topics to be published by  
Belhaven Press in association with Scott Polar Research Institute

## **Satellite remote sensing of polar regions**

**Robert A. Massom**

Describes the capture, processing and use of images taken from satellites of the polar regions and their applications to study of ice and snow, and of high latitude meteorological, biological and oceanic variables. It provides also a reference manual for all satellites from 1960. 288 pages, illustrated, hardback. ISBN 1 85293 179 5. £39.50. June 1991.

## **The Soviet Maritime Arctic**

**Lawson A. Brigham (editor)**

Examines the history, environment, transport systems and strategic importance of the Soviet Union's Arctic territory and sphere of influence. This book also contains material on Soviet Antarctic policy and reprinted documents on environmental and strategic policy. 224 pages, illustrated, hardback. ISBN 1 85293 169 8. £37.50. April 1991.

## **Antarctica and global climate change**

**Colin Harris and Bernard Stonehouse (editors)**

A state-of-knowledge overview of Antarctica's role in a world of changing climates. The contributors are prominent British and New Zealand scientists, whose research spans both East and West Antarctica and the Southern Ocean. 192 pages, illustrated, hardback. ISBN 1 85293 187 6. £33.00. July 1991.

Obtainable by mail order from:  
Scott Polar Research Institute, University of Cambridge  
Lensfield Road, Cambridge CB2 1ER UK.

## THE ANTARCTIC TREATY HANDBOOK

(Seventh edition, October 1990)

IS NOW AVAILABLE FOR SALE FROM THE  
SCOTT POLAR  
RESEARCH INSTITUTE

Edited by Dr J. Heap and published by the British Foreign and Commonwealth Office, the Antarctic Treaty Handbook reproduces material arising from Antarctic Treaty deliberations, including recommendations from consultative meetings and separate instruments dealing with seals, living resources and mineral resources.

Now in four parts (not sold separately):  
Part 1, General measures: Part 2, The Antarctic environment: Part 3, The Antarctic Protected Area System: Part 4, Other components.

Price £20.00 (US\$40.00) including postage and packing. For second class air mail in-

## ORDER YOURS TODAY POLAR BIBLIOGRAPHY & PRICE GUIDE: ALASKA, THE ARCTIC & ANTARCTIC

Over 1150 Polar books are included. Author, Title, Place, Date, Edition, publisher, condition, description, pagination, no. of illustrations, a content summary, & references to other biblios in which each book appears. £ 26.00 sea mail, add £4.00 for Air Mail.

## *The Journals of the British Ecological Society*

### **JOURNAL OF ECOLOGY**

Edited by J. White  
and P. Moore

*The Journal of Ecology* is one of the world's oldest and most respected publications in the science. The objects of the journal are: (1) to foster and promote the study of vegetation and ecology, especially in the British Isles; (2) to afford an outlet for original work on these subjects; (3) as far as possible to present a record of the commentary on the progress of these studies throughout the world. The journal includes the series Biological Flora of the British Isles, which appear in most issues of the journal but are also available as separate offprints on standing orders.

### **JOURNAL OF ANIMAL ECOLOGY**

Edited by B. Shorrocks and J.M. Elliott

This leading international journal publishes papers on original research in all branches of animal ecology. A balance is sought between aquatic and terrestrial environments, between invertebrates and vertebrates, and between theoretical, experimental and analytical approaches to soundly-based field data. Occasional purely descriptive, theoretical or review papers may be published at the discretion of the editors on animals or concepts of special interest or as part of an extensive development of a subject or as an adjunct to a long-term project.

#### **Subscription Information**

The *Journal of Ecology* is published quarterly, the *Journal of Animal Ecology* and *Journal of Applied Ecology* are published three times a year and *Functional Ecology* is published bi-monthly. The subscription rates for 1991 are, for each one: £130.00 (UK), £148.00 (overseas) and US\$257.50 (USA & Canada) post free.

*Subscriptions and free specimen copies are available from:*

**BSP**

**Blackwell Scientific Publications**

Osney Mead, Oxford OX2 0EL Tel: 0865 240201

### **JOURNAL OF APPLIED ECOLOGY**

Edited by W.C. Block, J. Miles  
and N.R. Webb

The journal publishes the results of original research in which ecological ideas and methods are applied to the study, conservation, management, control, development and use of natural resources in the widest sense. The editors select for publication only material of the highest scientific standards and this policy has attracted contributions by the world's leading authorities.

### **FUNCTIONAL ECOLOGY**

Edited by P. Calow and J. Grace

*Functional Ecology* publishes short, original papers in a wide range of ecological topics, but particularly emphasizing the fields of physiological, biophysical and evolutionary ecology. Papers may describe experimental, observational or theoretical studies on terrestrial, freshwater or marine systems. The Editors are especially keen to publish papers that blend between these subject areas. Work that is purely descriptive and/or concerned exclusively and specifically with the population dynamics of organisms will not be accepted unless it sheds light on those specific areas mentioned above.

# ANTARCTIC science

Editor in Chief:

David W H Walton *Life Sciences & Oceanography*

Editors:

Michael J Rycroft *Atmospheric Sciences & Michael R A Thomson Earth Sciences & Glaciology*

Editorial Office: *British Antarctic Survey, Natural Environment Research Council,*

*High Cross, Madingley Road, Cambridge CB3 0ET, United Kingdom*

*Telephone: Cambridge (0223) 61188 Telex: 817725 BASCAM G Fax: (0223) 62616*

As the only continent entirely dedicated to scientific use, Antarctica occupies a special place in international relations. In recent years scientific activities in and around the continent have markedly increased, resulting in a rapidly growing but increasingly diffuse literature. *Antarctic Science*, launched in 1989, was conceived both as a response to this trend and as an attempt to provide a focus for many of the interdisciplinary interests that characterize Antarctic studies.

#### Submission of articles

All articles should be sent to the *Editorial Assistant* at the *Editorial Office, British Antarctic Survey*. All submissions must be in English. Authors whose first language is not English are advised to seek assistance with

their articles before submission. Articles submitted should not be under consideration for publication elsewhere. There is no fixed length for contributions but all should be as concise as possible. The acceptance of all articles will be subject to comments from two independent reviewers.

#### Subscription Information

*Antarctic Science* is published quarterly. Institutional subscription rates for 1991 are £63.00 (UK), £72.50 (overseas) and US\$132.50 (USA & Canada). Personal subscription rates for 1991 are £35.00 (UK), £42.00 (overseas) and US\$75.00 (USA & Canada). All rates include postage plus accelerated delivery to subscribers in all areas of the world outside Europe.

### **Back issues**

For vols 1-23 inclusive apply to Bluntisham Books, Oak House, East Street, Bluntisham, Huntingdon, PE17 3LS, UK. For vols 24 onward apply to Cambridge University Press, UK or USA.

### **Advertising**

Prices appear in the advertisements section; for details apply to the Editor or to the publishers.

### **Advice to contributors**

*Polar Record* publishes original articles (2000 to 8000 words) and notes (usually less than 2000 words) of current and historic polar interest. Manuscripts, maps and photographs are accepted on the understanding that they are original, do not infringe copyright, and are not currently being offered elsewhere. Receipt is acknowledged; manuscripts are submitted to referees and any rejected will normally be returned to the author within six to eight weeks. Where the subject matter is appropriate, the Editor is usually prepared to advise authors on ways of making their material acceptable.

### **Presentation**

Typescripts should be double-spaced with 3 cm margins, on one side only of A4 or similar paper. Send two copies and keep one for reference. Give name, affiliation and address of each author on the title page, noting which author the Editor corresponds with. Follow the style of articles and notes in the most recent issue of *Polar Record*.

*Articles* should start with an abstract of 150-250 words and a table of major headings; secondary and tertiary headings are not listed. Indicate in margins where tables and illustrations fit. Footnotes are discouraged; places where they are considered essential are marked in text with a superscript number, and the footnotes are listed at the end before the References.

*Notes* are short articles, generally of less than 2000 words. They do not require an abstract or table of headings, but either the first or the final paragraph should summarize the content.

*References* (essential ones only, please) are cited in text; full references appear in the listing under References at the end; for forms of citations and references see the most recent issue of *Polar Record*. *Authors alone are responsible for the accuracy of their references*. References to privately printed or other unpublished reports and data are not accepted unless copies of the material are freely available from a named library or similar repository. *Tables* should be kept as simple as possible and typed on separate sheets. They will normally be fitted across the single- or double-column page, only exceptionally lengthwise.

*Illustrations*. Drawings, maps and diagrams must be of professional standard, with lettering and numbers pencilled in clearly. Authors may be charged for re-drawing if an illustration is inadequate. They should if possible allow for about one-third reduction in width to fit a column (7.8 cm) or page (16.4 cm). Photographs (black and white only) that add substantially to the material are welcome. Glossy prints with high contrast, about one-third oversize, generally reproduce well.

### **Contributions on disc**

The Editor welcomes contributions on floppy discs. The most suitable format is Apple Macintosh 3.5" disc. Output from a wide variety of word processing packages can be accepted, but in case of doubt, a MacWrite-compatible document should be produced. Diagrams also can be transferred on Macintosh discs. Discs from other microcomputers may be acceptable if the text is in the form of an ASCII file, with no word processing codes. TAB characters are acceptable. Currently, *Polar Record* can accept discs from Acorn BBC and Torch microcomputers, Amstrad PCW series microcomputers and IBM PC compatible machines (3.5" discs). If in doubt, please consult the Editor.

## CONTENTS

### ARTICLES

- Out in the cold: Canada's experimental Inuit relocation to Grise Fiord and Resolute Bay. A. R. Marcus p 285
- Soviet-Norwegian Historical Expedition to Zemlya Frantsa-Iosifa. S. Barr p 297
- Alaska's North Slope Borough revisited. G. Knapp and T. A. Morehouse p 303
- Environmental management on King George Island, South Shetland Islands, Antarctica. C. M. Harris p 313
- Marine scientific research and the Soviet Arctic. E. Franckx p 325
- Sealing and sealing methods in the Bay of Bothnia, 1551-70. R. Kvist p 339
- Geological evidence for changes in the East Antarctica ice sheet (60°-120°E) during the last glaciation. E. A. Colhoun p 345

### NOTES

- Marine mammals in Peary Land, North Greenland. O. Bennike p 357
- Rock pigeon *Columba livia* and blue petrel *Halobaena caerulea* on the South Shetland Islands, Antarctica. M. A. Sallaberry and A. G. Williamson p 359
- Politics, national economy and locality: a comment on development in Greenland. M. Nuttall p 360
- On the abundance of Arctic cod *Arctogadus glacialis* in Northeast Water. C. F. von Dorrien, D. Piepenburg and M. K. Schmid p 362
- Historic hut site at Waterboat Point, Antarctica. B. Stonehouse p 364
- Transits of the Northwest Passage, 1960-90. T. C. Pullen and C. Swithinbank p 365
- Beak deformation in emperor penguin *Aptenodytes forsteri* chicks. K. Pütz and J. Plötz p 367

### REVIEWS

- Fisheries of the Southern Ocean. O. Gon and P. C. Heemstra (editors). *I. Everson* p 368.
- Arctic odyssey. S. E. Jenness (editor). *G. Hattersley-Smith* p 368.
- Geological evolution of Antarctica. M. R. A. Thomson, J. A. Crame and J. W. Thomson (editors). *C. P. Hughes* p 368.
- Antarctica: private property or public heritage? K. Suter. *B. Stonehouse* p 369.
- A talent for adventure. A. Croft. *B. Stonehouse* p 369.
- Brief reviews p 370.

### CORRESPONDENCE

- Lead poisoning and the Franklin expedition. D. Fordham p 371
- Vitamin C in Eskimo diet. J. Ashlee p 371

### IN BRIEF

- Association of Soviet Polar Personnel; International Association of Antarctic Tour Operators; Driftnet fishing threatens South Atlantic Ocean fauna; US-Soviet joint Antarctic drifting station p 372
