

THE JOURNAL
 OF
 LARYNGOLOGY
 AND
 RHINOLOGY;

*AN ANALYTICAL RECORD OF CURRENT LITERATURE RELATING TO
 THE THROAT AND NOSE.*

EDITED BY

R. NORRIS WOLFENDEN, M.B. Cantab.,

AND

JOHN MACINTYRE, M.D. Glasgow,

WITH THE ASSISTANCE OF

Dr. BARCLAY J. BARON (Bristol).

Dr. DUNDAS GRANT (London).

Dr. HUNTER MACKENZIE (Edinburgh).

Sir MORELL MACKENZIE (London).

And with the co-operation of

DR. RICARDO BOTEY (BARCELONA)
 DR. BRYSON DELAVAN (NEW YORK)
 DR. DRAISPUL (ST. PETERSBURG)
 PROF. GUYE (AMSTERDAM)
 DR. MIDDLEMASS HUNT (LIVERPOOL)
 DR. VALERIUS IDELSON (BERNE)
 DR. JOAL (PARIS)
 DR. KARWOWSKI (WARSAW)
 DR. JOHN N. MACKENZIE (BALTIMORE)

DR. GEORGE W. MAJOR (MONTREAL)
 PROF. MASSEI (NAPLES)
 DR. MELLO (RIO JANEIRO)
 DR. J. MICHAEL (HAMBURG)
 DR. HOLGER MYGIND (COPENHAGEN)
 DR. PORTER (ST. LOUIS)
 DR. SAJOUS (PHILADELPHIA)
 DR. SEDZIAK (WARSAW)
 PROF. E. RAMON DE LA SOTA (SEVILLE).

Published Monthly.

F. A. DAVIS,

LONDON:
 49, BERNERS STREET, W.

PHILADELPHIA:
 1231, FILBERT STREET.

PRICE ONE SHILLING AND THREE PENCE.

Prepaid Annual Subscription, Twelve Shillings, or Three Dollars.

The Best Antiseptic for both Internal and External Use.

LISTERINE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT,
NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC,
ABSOLUTELY SAFE, AGREEABLE, & CONVENIENT.

FORMULA.—LISTERINE is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gautheria, and Mentha Arvensis, in combination. Each Fluid Drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE.—Internally: One Teaspoonful Three or more times a day (as indicated), either full strength or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an anti-zymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all the parts of the human body, whether by spray, irrigation, atomisation, or simple local application, and therefore characterised by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

We bring **Listerine** to the attention of the Physicians, Surgeons, and Dentists of Great Britain, not as a new and untried preparation, but as a definite and uniform pharmaceutical product, that has acquired an enviable reputation in the United States and Canada.

Medical Men interested in **Listerine** will please send their address to our Agents, and receive by return mail Specimen and a Pamphlet of 36 quarto pages, embodying:—

A Tabulated Exhibit of the action of **Listerine** upon inert laboratory compounds.

Full and Exhaustive Reports and Clinical Observations from all sources, confirming the utility of **Listerine** as a general antiseptic for both internal and external use; and particularly—

Microscopic Observations, showing the comparative value and availability of various antiseptics in the treatment of diseases of the oral cavity, by W. D. MILLER, A.B., Ph.D., D.D.S., Professor of Operative and Clinical Dentistry, University of Berlin, from whose deductions **Listerine** appears to be the most acceptable prophylactic for the care and preservation of the Teeth.

Further information regarding the products of the LAMBERT PHARMACAL CO. may be had by application to the Company at St. Louis, U.S.; or to our

Wholesale Agents for Great Britain:—

S. MAW, SON, & THOMPSON, 7 to 12, Aldersgate Street, LONDON, E.C.

Hicks's New Patent "Duplex Instantner" Clinical Thermometer.

Designed for the Rapid Registration of Temperature.

This Thermometer has a double bulb, united in the centre by a piece of solid glass, which makes it fully six times stronger. It is *extremely sensitive*, taking the temperature considerably under one minute, and is easily cleaned and kept clean, as no dirt can pass between the bulbs. The section drawing A B represents the bulb of the Thermometer as it would appear if cut clean across the centre; the darker portions being mercury, and the lighter solid glass. *Accuracy guaranteed.*

The following Extract from a Letter written by the Superintendent of the KEW OBSERVATORY, Richmond, Surrey, on the "DUPLEX INSTANTNER" CLINICAL THERMOMETER, will be read with interest:—

"I should think that their increased strength over the link bulbs will cause them to be widely purchased, although they take a few seconds over the half-minute.—(Signed) G. M. WHIPPLE, July 7th, 1890."

Price, with Magnifying Tube, 10s. 6d. each; with Non-magnifying Tube, 7s. 6d. each.

(Kew Observatory Certificate extra.)

To be obtained of all the leading Surgical Instrument Makers and Opticians.

Sole Patentee and Manufacturer—

J. J. HICKS, 8, 9, and 10, Hatton Garden, London, E.C.

BULLOCK'S

5 Reasons why to Advertise in these Columns!

The JOURNAL of LARYNGOLOGY & RHINOLOGY:

1. Is the only Periodical published in English whose pages are exclusively devoted to the Specialities of Throat and Nose.
2. Has an extensive Circulation in Europe, The United States of North America, and Canada.
3. Is read by all the leading Specialists in Laryngology and Rhinology.
4. Reaches all the Hospitals where Diseases of the Throat and Nose are specialy treated.
5. Offers, therefore, peculiar advantages for advertising Drugs, Instruments, Appliances, Apparatus of all kinds made with a special view for treatment of Throat and Nose Troubles.

ADVERTISING DEPARTMENT:

F. A. DAVIS, 40, Berners Street, London, W.

MB!

In the Recent epidemic of "INFLUENZA" in France, the Medical Profession there recognised "VIN MARIANI" as being the best Tonic and Restorative, and one which could be absolutely relied upon to hasten convalescence. When prescribing the Medical Profession are strongly advised to specify "VIN MARIANI," in order to avoid the substitution of imitations, often worthless, and consequently disappointing in effect.

VIN MARIANI

From the "LANCET," October 4th, 1890.

"'VIN MARIANI' is in all respects an excellent product. Its composition and character may be fairly judged from its taste. It is that of a generous Burgundy combined with the peculiar flavour characteristic of the leaf of erythroxyton coca. Our analytical notes are as follows: Alcohol, 13·23 per cent. by weight, 16·33 by volume, equal to 28·62 per cent. proof spirit; extract dried at 100°C. 9·25 per cent.; mineral matter (containing phosphate), 0·52 per cent. Boiling for some time, with the addition of a little carbonate of soda, resulted in the production of a green sediment, probably the coca extractives. (One bottle contains the equivalent of two ounces of leaves.) At the same time a characteristic odour not unlike that of choice tea evinced itself. When the alkaline fluid was allowed to cool it was shaken up with ether, and after a time the ether decanted. On evaporation this yielded a residue, which imparted to the tongue a distinctly numbing sensation. Another portion of the residue with a little hydrochloric acid, gave the characteristic crystals of cocaine hydrochlorate. The virtues of erythroxyton coca are now generally recognised. M. Mariani gives an account of the plant in an illustrated pamphlet. Therein he states that 'VIN MARIANI' has never produced cocainism. This is an important point, and is probably one of those examples in which the alkaloid in its state of natural combination differs in some respects in its physiological action from the free alkaloid chemically prepared."

On application, we will post free of expense, to the Medical Profession, a complete Essay and Treatise (Illustrated) on Erythroxyton Coca, by ANGELO MARIANI.

Price 4s. per Bottle; or 45s. per Dozen. The Medical Profession, Clergymen, and Vocalists, either for their own use or for experimenting, can, upon enclosing their Card and P.O.O. to either of the London Wholesale Depôts, have **delivered them Free to Address**, any quantity at the Professional Price of 42s. per dozen.
