Schools of thought that can contribute to our understanding of the nature, role and evolution of institutions in the economy, economic growth is now widely appreciated. The Nobel Prize has been awarded to Ronald Coase, Douglass North, Gunnar Myrdal and Simon Kuznets for their pioneering work in institutional economics. Ideas from many disciplines, including in economics, business studies, social sciences, anthropology, politics, geography, anthropology and philosophy. The Journal of Institutional Economics aims to provide all authors with an expert verdict on their articles within 30 days of submission.

The Editor will acknowledge receipt of the manuscript, provide it with a manuscript reference number and answer it in ten working days. The reference number of the manuscript should be used in all correspondence with JIOE Office and Publisher.

There must be no indication of the personal identity or institution of any author of the article within the article itself, or in the ‘provenance’ of the electronic file. Normally, articles (including footnotes and references) must be no less than 9,000 words. In special cases, such as an extended review or survey article, this limit may be extended to 12,000 words. A declaration of the total word count (including footnotes and references) must accompany the article when submitted. Papers with some formal content will be considered if it is fully explained for a general readership, the mathematics is consigned as much as possible to appendices, the assumptions have sufficient generality, and the paper enhances our understanding of past, present, or feasible socio-economic institutions. JIOE is not interested in the advancement of formal or economic technique for their own sake.

The front page of the electronic file of the article developed for the following information: the title; an abstract of the article up to 200 words; the Journal of Economic Literature classification codes for the article (according to the JEL codes system followed by two numeric digits, see www.aeaweb.org/journal/jel/chooseystem.html); the article should not exceed 12,000 words or short phrases. Submissions should be kept to a minimum and the Harvard referencing system should be used.

Submission of a paper will be held to imply that it contains original unpublished work and is not being submitted for publication elsewhere. The JIOE Editor will preliminarily assess all papers. A paper will be rejected at this first stage if it does not comply with the above guidelines, is evidently of insufficient academic quality or interest, or if it does not fit the scope of the journal. If a paper passes this preliminary assessment, then it will be sent out for refereeing. The Editor takes the final decision, taking account of the referee’s report.

If the article is accepted, the author will be asked to comply with the format and house style of JIOE, as exhibited in issues of the journal. All manuscripts must be submitted online via the website: http://mc.manuscriptcentral.com/joie

All original works included in the manuscript online can be found at the submission website by clicking on the ‘Instructions and Forms’ link in the top right of the screen and then clicking on the ‘Author Submissions’ icon on the following page.
