CNS SPECTRUMS

CONTENTS

BRAINSTORMS

- Mechanism of action of agomelatine: a novel antidepressant exploiting synergy between monoaminergic and melatonergic properties**
Stephen M. Stahl 207

EDITORIAL

- Paying attention to biased attention in drug addiction**
Karen D. Ersche 213

OPINION

- Attentional bias modification for addictive behaviors: clinical implications**
W. Miles Cox, Javad S. Fadardi, James M. Intriligator and Eric Klinger 215

REVIEW ARTICLES

- The clinical relevance of attentional bias in substance use disorders**
Matt Field, Reshmi Marhe and Ingmar H. A. Franken 225

- Neural correlates of attentional bias in addiction**
Robert Hester and Maartje Luijten 231

- Pharmacological interventions to modulate attentional bias in addiction**
Maartje Luijten, Matt Field and Ingmar H. A. Franken 239

- Using a drug-word Stroop task to differentiate recreational from dependent drug use**
Dana G. Smith and Karen D. Ersche 247

ORIGINAL RESEARCH

- Test-retest reliability and sensitivity to change of the dimensional anxiety scales for DSM-5**
Susanne Knappe, Jens Klotsche, Franziska Heyde, Sarah Hiob, Jens Siegert, Jürgen Hoyer, Anja Strobel, Richard T. LeBeau, Michelle G. Craske, Hans-Ulrich Wittchen and Katja Beesdo-Baum 256

- Long-term effects of cariprazine exposure on dopamine receptor subtypes**
Yong Kee Choi, Nika Adham, Béla Kiss, István Gyertyán and Frank I. Tarazi 268

Editor-in-Chief

Stephen M. Stahl, Adjunct Professor of Psychiatry at the University of California San Diego, USA;
Honorary Visiting Senior Fellow at the University of Cambridge, UK.

Field Editors

Joseph F. Goldberg, Icahn School of Medicine at Mount Sinai, USA
Terence Arthur Ketter, Stanford University, USA
Thomas E. Schlaepfer, University Hospital Bonn, Germany
Carlos A. Zarate, National Institute of Mental Health, USA

Deputy Editor

Thomas L. Schwartz, SUNY Upstate Medical University at Syracuse, USA

Editorial Board

Maria Conceição do Rosario, University of São Paulo Medical School, Brazil
Jeffrey L. Cummings, Cleveland Clinic, USA
Thilo Deckersbach, Harvard Medical School, USA
Koen Demyttenaere, University Psychiatric Center KuLeuven, Belgium
Karen D. Ersche, University of Cambridge, UK
Robert L. Findling, The Johns Hopkins Hospital, USA
Mark S. George, Medical University of South Carolina, USA
Ira D. Glick, Stanford University, USA
Joseph F. Goldberg, Icahn School of Medicine at Mount Sinai, USA
Eric Hollander, Albert Einstein College of Medicine and Montefiore Medical Center, USA
Daphne Holt, Harvard Medical School, USA
Peter B. Jones, University of Cambridge, UK
Andres M. Kanner, University of Miami, USA
Terence Arthur Ketter, Stanford University, USA
Antony D. Loebel, New York University School of Medicine, USA
Donatella Marazziti, University of Pisa, Italy
Herbert Y. Meltzer, Northwestern University, USA
Philip Mitchell, University of New South Wales, Australia
Jun Nakamura, University of Occupational and Environmental Health, Japan
Humberto Nicolini, National Institutes of Health, Minister of Health, México
Andrew A. Nierenberg, Harvard Medical School, USA
Stefano Pallanti, University of Florence, Italy
Katharine A. Phillips, Brown University, USA
Diego A. Pizzagalli, Harvard Medical School, USA
Mark H. Pollack, Rush University Medical Center, USA
Mark H. Rapaport, Emory University, USA
Irismar Reis de Oliveira, Universidade Federal da Bahia, Brazil
Trevor W. Robbins, University of Cambridge, UK
Peter P. Roy-Byrne, University of Washington School of Medicine, USA
Barbara J. Sahakian, University of Cambridge, UK
Gerard Sanacora, Yale University School of Medicine, USA
Alan F. Schatzberg, Stanford University School of Medicine, USA
Thomas L. Schwartz, SUNY Upstate Medical University in Syracuse, USA
Jordan W. Smoller, Harvard Medical School, USA
Dan J. Stein, University of Cape Town (UCT), South Africa
Stephen Strakowski, University of Cincinnati, USA
T. Scott Stroup, Columbia University, USA

Content Editor

Lisa Arrington, Cambridge University Press (larrington@cambridge.org)

Cover Image: The image on the cover shows a hypothetical model whereby glutamate is released from an intracortical pyramidal neuron and binds to an NMDA receptor on a GABA-ergic interneuron. GABA is then released and binds to receptors on the axon of another glutamate pyramidal neuron. This inhibits the neuron, thus reducing the release of cortical glutamate. The GABA interneuron and its NMDA synapse from the first neuron to the second is the hypothetical site of glutamate dysfunction in schizophrenia.

Aims and Scope

CNS Spectrums aims to be the premiere journal covering all aspects of clinical neurosciences, neurotherapeutics and neuropsychopharmacology. From 2012 the journal will primarily focus on the publication of authoritative, cross-disciplinary review and opinion material publishing advances and controversial issues with pertinence to the clinician. In particular we aim to publish reviews and articles in translational neuroscience, biological psychiatry and neuropsychopharmacology that explain clinically relevant neuroscience discoveries in a way that makes these findings accessible and understandable to clinicians and clinical investigators. We will emphasize new therapeutics of all types in clinical neurosciences, mental health, psychiatry, and neurology, especially first in man studies and proof of concept studies. Our focus will be not just drugs, but novel psychotherapies and neurostimulation therapeutics as well. *CNS Spectrums* will in addition, continue to publish original research and commentaries that focus on emergent areas of research. Subject coverage shall span the full spectrum of neuropsychiatry focusing on translational issues and those crossing traditional boundaries between neurology and psychiatry.

Submitting Manuscripts to *CNS Spectrums*

All submissions to *CNS Spectrums* should be prepared in accordance with the instructions for authors and in the style of the Journal. Manuscripts should be submitted through the dedicated *CNS Spectrums* ScholarOne Manuscripts website: <http://mc.manuscriptcentral.com/cnsspectr>

CNS Spectrums will consider and encourage the following types of articles for publication: **Review Article**—Comprehensive article summarizing and synthesizing the literature on various topics presented in a scholarly and clinically relevant fashion; **Original Research**—Reports the results of a clinical study and contains original research; **Opinion**—Address a current topic of high interest, which has substantial evidence but has not yet been established; **Commentary**—An article that is written in reaction to previously published articles; usually encouraging a level of debate; the journal will also include **Brainstorms** and **Editorials** that shall be commissioned or written by the Editor in Chief.

Instructions for Contributors

The Instructions for Contributors are available on the Cambridge Journals Online web site at: <http://journals.cambridge.org/CNSifc>

Indexing

CNS Spectrums is indexed by *Index Medicus*/MEDLINE and Web of Science (Thomson Reuters) as well as appearing in the annual Journal Citation Report. Introduced in 1996, the journal was acquired in whole by Cambridge University Press in November of 2011.

Subscriptions

Institutional print and electronic: £511/\$810; Institutional electronic only: £383/\$612.

Rights & permissions requests can be applied for online within each article by clicking "Request Permissions" within the table of contents or in the fulltext version of a specific article. Requests will be processed via the CCC Rightslink system and processed immediately.

CNS Spectrums (ISSN: Print 1092-8529; eISSN: 2165-6509) is published bimonthly by Cambridge University Press.

Postmaster

Send address changes in the U.S.A., Canada, and Mexico to *CNS Spectrums*, Cambridge University Press, Journals Dept., 100 Brook Hill Drive, West Nyack, NY 10994-2133, U.S.A. Send address changes elsewhere to *CNS Spectrums*, Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, England.

Online availability

CNS Spectrums is hosted on the Cambridge Journals Online (CJO) service at <http://journals.cambridge.org/cns>

Institutional subscribers: Access to full-text articles online is only granted to subscription options offering an online component. Subscriptions must be activated by the purchasing institution using the instructions provided at the time of purchase; see information for subscribers at: <http://journals.cambridge.org/>

Reprint and Advertising Sales

Inquiries for bulk reprint sales and placement of advertising should be sent to the Journals Sales Department of Cambridge University Press: USAdSales@cambridge.org

Go Mobile

CJO Mobile (CJOm) is a streamlined
Cambridge Journals Online (CJO)
for smartphones and other
small mobile devices

- Use CJOm to access all journal content including *FirstView* articles which are published online ahead of print
- Access quickly and easily thanks to simplified design and low resolution images
- Register for content alerts or save searches and articles – they will be available on both CJO and CJOm
- Your device will be detected and automatically directed to CJOm via: journals.cambridge.org
