Contents volume 88, No. 1

Editorial	1
Geoperspective Climate-proofing the flood protection of the Netherlands P. Vellinga, N. Marinova & J.M. van Loon-Steensma	3
From river valley to estuary: the evolution of the Rhine mouth in the early to middle Holocene (western Netherlands, Rhine-Meuse delta) M.P. Hijma, K.M. Cohen, G. Hoffmann, A.J.F. Van der Spek & E. Stouthamer	13
Provenance of basalt blocks from Roman sites in Vleuten-De Meern (the Netherlands) traced to the Tertiary Siebengebirge (Germany): a geoarchaeological quest using petrological and geochemical methods K. Linthout, H. Paulick & J.R. Wijbrans	55
A comparative analyses of microstructures from Late Jurassic diamictic units, near Helmsdale, northeast Scotland and a Pleistocene diamicton from near Milton, southern Ontario, Canada – a differential diagnostic method of sediment ‘typing’ using micromorphology J. Menzies & C. Whiteman	75

Contents volume 88, No. 2

Assessing CH ₄ and CO ₂ emissions from wetlands in the Drenthe Province, the Netherlands: a modelling approach A.M.R. Petrescu, J. van Huissteden, F. de Vries, E.P.H. Bregman & A. Scheper	101
Holocene, Weichselian Late-glacial and earlier Pleistocene deposits of the upper Cam valley at the Hinxton Genome Campus, Cambridgeshire, UK S. Boreham & C.J. Rolfe	117
Geo(Im)pulse A late Miocene astropectinid (Echinodermata, Asteroidea) and associated ichnofossils from Liessel, province of Noord-Brabant, the Netherlands J.W.M. Jagt, R.H.B. Fraaije & B.W.M. van Bakel	127

Contents volume 88, No. 3

Unravelling the enigmas of the 'silver sands' in the Dutch/German/Belgian border area A.J. van Loon	133
Silica sand resources in the Netherlands M.J. van der Meulen, W.E. Westerhoff, A. Menkovic, S.H.L.L. Gruijters, C.W. Dubelaar & D. Maljers	147
A new species of the durophagous mosasaur <i>Carinodens</i> (Squamata, Mosasauridae) and additional material of <i>Carinodens belgicus</i> from the Maastrichtian phosphates of Morocco A.S. Schulp, N. Bardet & B. Bouya	161
Geo(Im)pulse Bite marks on early Holocene <i>Tursiops truncatus</i> fossils from the North Sea indicate scavenging by rays (Chondrichthyes, Rajidae) H.H. van Netten & J.W.F. Reumer	169
Correspondence A comment on the paper 'Solar activity and its influence on climate' C. Amory-Mazaudier & J-P. Legrand	177
Correspondence Reply by C. de Jager on the comment by C. Amory-Mazaudier and J-P. Legrand	179

Contents volume 88, No. 4

Late Moscovian terrestrial biotas and palaeoenvironments of Variscan Euramerica Editors: C.J. Cleal, S. Opluštil, B.A. Thomas & Y. Tenchov	181
