**AN IMPORTANT NEW WORK ON HEREDITY.**  
**THE PRINCIPLES OF HEREDITY**

By **G. ARCHDALL REID,**  
 Author of "The Present Evolution of Man," "Alcoholism; its Cause and Cure," etc.  
 Demy 8vo. 12s. 6d. net.

"The bearing of the facts of disease upon the problems of heredity is a subject which Mr. Reid has made peculiarly his own . . . How it comes about that the study of a subject so colossal, of such vast practical importance, and so replete with implications for the pure biologist, should still be confined to one man we cannot stop to inquire . . . Our expression of the pleasure and enlightenment and exhilaration which the reading and re-reading of this book has produced . . . Brilliant, original, and invaluable thinker."—**FORTNIGHTLY REVIEW.**

"A work distinguished alike for incisiveness of diction, originality of thought, and cogency of argument. It is difficult to controvert any of the main conclusions, and every medical man should study it carefully."—**THE LANCET.**

"This is a book which no intelligent student of human affairs, whether he be a biologist or no, can possibly afford to ignore. In knowledge, in style, in method, in purpose, in logical power, in every necessary or desirable character, it is a model of what such a treatise should be."—**THE OUTLOOK.**

"There is not a chapter of this masterly and fascinating treatise concerning which our pen could not run for a week . . . It is certain that no student of organic evolution, or of that science of society which entirely depends upon the evolutionary biology and psychology, can possibly afford to neglect Mr. Reid's new book . . . The scientific chapters are exceedingly important and most complete . . . The most complete and philosophic treatise on heredity with which we are acquainted."—**PALL MALL GAZETTE.**

"The chapters in which he deals with heredity in connection with disease are not only exceedingly useful, but singularly beautiful, by reason of the conclusiveness of their argumentation."—**SHEFFIELD TELEGRAPH.**

"A most remarkable volume . . . Among the entire army of people now writing on scientific subjects there is none who surpasses Dr. Reid in the great quality of clearness."—**SUNDAY TIMES.**

CHAPMAN & HALL, Limited, 11, Henrietta Street, W.C.

*A Peptonised Food that can be made in a minute, the  
addition of boiling water only being necessary.*

**A PANCREATISED MILK AND CEREAL FOOD.**

By the use of the "Allenburys" Diet all trouble of peptonising milk and farinaceous foods is overcome. In the sick room it will be found extremely useful as the food is easily digested and assimilated, is quickly made, and only the exact quantity required need be prepared at a time.

The "Allenburys" Diet is made from pure rich milk and whole wheat, both ingredients being largely pre-digested during manufacture. It can be taken by those who cannot digest cow's milk, and provides a light and very nourishing diet for Invalids, Dyspeptics and the Aged.

For travellers by sea or land this complete food will be found exceedingly valuable.

~~~~~  
**A Sample with full particulars sent free on request.**
