

QUEBEC COOPERATIVE STUDY OF FRIEDREICH'S ATAXIA

Phase Three: Clinical Pathophysiology
Part Two: Enzymology and Experimental Trials

Organized by
ANDRE BARBEAU

Institutions taking part in this study were:

L'Institut de Recherches Cliniques de Montréal
L'Hôpital de l'Enfant-Jésus, Quebec City
Le Centre Hospitalier Universitaire de l'Université de Sherbrooke
The Royal Victoria Hospital
The Montreal Neurological Hospital and Institute
Le Centre de Recherche Pédiatrique, Hôpital Sainte-Justine, Montréal
L'Hôpital Hôtel-Dieu de Montréal
The Second School of Medicine, University of Napoli, Italia
L'Institut de Cardiologie de Montréal
The Department of Chemistry, Université de Montréal
The Ciudad Sanitaria de la Seguridad Social, Barcelona, Spain
The Hospital de la Santa Cruz y de San Pablo, Barcelona, Spain

The Regional Neurological Centre, Oldchurch Hospital, Romford, England
The Hospital de la Barceloneta, Barcelona, Spain
The University of Pamplona, Navarra, Spain
The Department of Mechanical Engineering, Ecole Polytechnique de Montréal
Glenrose Hospital, Alberta
The Montreal Children's Hospital
The University of Toronto
The Hospital for Sick Children, Toronto
L'Hôpital de la Salpêtrière, Paris, France
Le Centre de Recherche Merrell International, Strasbourg, France
The Birth Defects Institute, Albany, New York
Le Département des Sciences Neurologiques, Université de Montréal
Le Laboratoire de Biologie Cellulaire, Université de Paris 7, France

QUEBEC COOPERATIVE STUDY OF FRIEDREICH'S ATAXIA

Phase III: Clinical pathophysiology Part Two: Enzymology and Experimental Trials TABLE OF CONTENTS

A. CLINICAL STUDIES

A tentative classification of recessively inherited ataxias — Barbeau, A.	95
A case of Charcot-Marie-Tooth disease mimicking Friedreich's ataxia: is there any association between Friedreich's ataxia and Charcot-Marie-Tooth disease? Salisachs, P., Findley, L.J., Codina, M., La Torre, P. and Martinez-Lage, J.M.	99
Scoliosis in Friedreich's ataxia Allard, P., Dansereau, J., Thiry, P.S., Geoffroy, G., Raso, J.V. and Duhaime, M.	105
Roentgenographic study of cavus foot deformity in Friedreich's ataxia patients: preliminary report. Allard, P., Sirois, J.P., Thiry, P.S., Geoffroy, G. and Duhaime, M.	113
Kinematics of the foot. Allard, P., Thiry, P.S., Duhaime, M. and Geoffroy, G.	119
Urodynamic evaluation of patients with hereditary ataxias. Vezina, J.G., Bouchard, J.P. and Bouchard, R.	127
Electrophysiological investigation of the auditory system in Friedreich's ataxia. Taylor, M.J., McMennamin, J.B., Andermann, E. and Watters, G.V.	131
Ultrastructural observations on spinal ganglion biopsy in Friedreich's ataxia - a preliminary report. Lamarche, J., Luneau, C. and Lemieux, B.	137
B. DRUG TRIALS	
Pilot study of threonine supplementation in human spasticity. Barbeau, A., Roy, M and Chouza, C.	141
A six-month phosphatidylcholine trial in Friedreich's ataxia. Filla, A. and Campanella, G.	147
Oral lecithin and linoleic acid in Friedreich's ataxia: I. Design of the study, material and methods. Melancon, S.B., Dallaire, L., Potier, M., Vanasse, M., Marois, P., Geoffroy, G. and Barbeau, A.	151
Oral lecithin and linoleic acid in Friedreich's ataxia: II. Clinical results. Melancon, S.B., Vanasse, M., Geoffroy, G., Barabe, L., Proulx, A., Fontaine, G., Dallaire, L. and Potier, M.	155
Oral lecithin and linoleic acid in Friedreich's ataxia: III. Biochemical results. Melancon, S.B., Dallaire, L., Potier, M., Cousineau, J., Vanasse, M. and Geoffroy, G. Fontaine, B., Grignon, B.	165
Effect of gamma-vinyl GABA in Friedreich's ataxia. De Smet, Y., Mear, J.Y., Tell, G., Schechter, P.J., Lhermitte, F. and Agid, Y.	171

C. ANIMAL STUDIES

Influence of nicotinamide on neurobehavioral effects of 3-acetylpyridine.
 Jolicoeur, F.B., Barbeau, C.M., De Michele, G. and Barbeau, A. 175

Glutamate and aspartate do not modify the ataxic gait of acrylamide treated animals.
 De Michele, G., Jolicoeur, F.B. and Barbeau, A. 179

Tissue lipids in acute acrylamide intoxicated rats.
 Huang, Y.S., Wong, P., Blache, D., Barbeau, A. and Davignon, J. 181

Amino acid changes in the mouse mutant dystonia musculorum similar to those in Friedreich's ataxia — Messer, A. 185

D. BIOCHEMISTRY

Pituitary responses to a neuroactive tripeptide (TRH) in Friedreich's ataxia families.
 Tolis, G., Mehta, A., Andermann, E., Harvey, C. and Barbeau, A. 189

Plasma lipoprotein lipase and hepatic lipase activities in Friedreich's ataxia.
 Blache, D., Bouthillier, D., Barbeau, A. and Davignon, J. 191

Increased plasma catecholamines in patients with Friedreich's ataxia.
 Pasternac, A., Wagnart, P., Olivenstein, R., Peticlerc, R., Krol, R., Andermann, E., Melancon, S., Geoffroy, de Champlain, J. and Barbeau, A. 195

Plasma catecholamines in Friedreich's ataxia: assayed using high performance liquid chromatography with electrochemical detection.
 Merkel, A.D. and Barbeau, A. 205

A possible genetic pattern of taurine urinary excretion in Friedreich's ataxia.
 Barbeau, A., Patenaude, F., Nadon, G., Charbonneau, M. and Cloutier, T. 209

Reduced formation of hippuric acid after oral benzoic acid in Friedreich's ataxia.
 Barbeau, A., Bouchard, R., Cloutier, T. and Bouchard, J.P. 217

Pyruvate dehydrogenase activity in the liver, brain and adipose-tissue of lipid deprived developing rats: effect of minute amounts of polyunsaturated fatty acids.
 Lorette, C., Launay, M., Lapous, D. and Raulin, J. 221

Quantitative metabolic profiling of α -keto acids in Friedreich's ataxia.
 Bertrand, M.J., Bouchard, R., Gauthier, G.L., Bouchard, J.P. and Barbeau, A. 231

Leukocyte valine dehydrogenase activity in Friedreich's ataxia.
 Barbeau, A., Cloutier, T., and Charbonneau, M. 235

Effect of a valine load-test on plasma alpha-keto acids in Friedreich's ataxia.
 Barbeau, A., Bertrand, M., Bouchard, R., Gauthier, G.L. and Bouchard, J.P. 239

Friedreich's Disease 1982: Etiologic hypotheses - a personal analysis — Barbeau, A. 243
