### **The Czechoslovak Economy 1948-1988**

The Battle for Economic Reform

*Martin Myant*

This is a detailed account of the development and performance of the Czech economy since 1948, revealing the problems and tensions created by the system of centralized planning, and showing clearly that economic change can only be understood in an international and political context. The book highlights certain crucial formative periods including 1968. Dr. Myant concludes that economic reform must be accompanied by appropriate political change.

### **China's Foreign Trade Reforms Impact on Growth and Stability**

*John C. Hsu*

Drawing on material previously available only in Chinese, this book assesses China's recent reform of the foreign trade system and discusses the benefits of such reform in terms of higher growth for its economy. The result suggests that foreign trade reforms' benefits have been reduced by the lack of responsiveness among China's businesses to changes in market conditions, and by foreign trade's tendency to aggravate the inflation problem.

### **Commercialization and Agricultural Development in Central and Eastern China**

1870-1937

*Loren Brandt*

This book reinterprets the impact of accelerated commercialization of Chinese agriculture in the late nineteenth and early twentieth centuries on the growth of the rural economy of Central and Eastern China. While redressing the historical assessments of the pre-1949 economy, this book offers rich perspective on the enormous costs that enforced self-sufficiency and the restrictive commercial policies of China inflicted on the rural sector between the 1950s and the late 1970s.

### **The European Monetary System**

*Editors: Francesco Giavazzi Stefano Micossi,  
and Marcus Miller*

The European Monetary System has, since its inception in 1979, provided a fascinating example of policy coordination in practice. This volume contains the papers and proceedings of a conference which brought together academics and central bankers and offered a timely summary of current research on the European Monetary System, while the concluding panel discussion provides a valuable perspective on the concerns of policy-makers.
