

Index to Volume 8, 2006

A		demographics	269, 275	intravenous epinephrine	289	priapism	119
acuity	317	dexamethasone	393	intravenous regional		primary amebic	
acute coronary syndromes	27	diagnostic and treatment		anesthesia	247	meningoencephalitis	365
acute ischemic stroke	54	facility	247	intravenous tPA	54	primary care	247
acute myocardial infarction	27	diagnostic tests	251	intubation	80, 347,	procedural sedation	85, 94
adrenal insufficiency	349	disease prevention	100	intubation, rapid sequence	351	propofol	85
advance care paramedics	401	dislocation	355	ischemia modified			
advanced life support				albumin	27		
interventions	6	E		ischemic upper limb	370	Q-R	
adverse drug effects	289	ED information systems	417	IV-IA thrombolytic		QRS prolongation	361
all-terrain vehicles	158, 277	EDIS	417	approach	54	rapid sequence intubation	351
amphotericin B	365	emergency department,		K-L		receiver operating	
analgesia	85, 94	community	94	ketamine	85	characteristic curve,	
anticonvulsants	361	emergency department,		laboratory biomarkers	27	diagnosis	19
antidote	409	rural	94	lamotrigine	361	respiratory illness	323
appendicitis	425	emergency cardiovascular		lidocaine	80	RSI	351
atlanto-occipital		care, resuscitation	37			S	
dislocation	50	emergency medical		M		safety effectiveness	94
		services	6	medical records	417	SARS	323
B		etomidate	347	midazolam	85	satisfaction survey	148
basic life support		eye	123	migraine	393	severe acute respiratory	
interventions	6	F-G		mortality	339	syndrome	323
bier block	247	family physicians	94	myocardial infarction	339, 401	sensitivity	19
brain natriuretic peptide	27	felbamate	361	myocardial ischemia	27	sepsis	339
		fentanyl	80			sickle cell disease	119
C		forearm injuries	247	N		sigmoid perforation	358
calculus	285	gastrointestinal		NT-proBNP	251	specificity	19
Canadian Emergency		decontamination	358	<i>Naegleria fowleri</i>	365	spinal trauma	50
Department Triage		general practitioners	94	natriuretic peptides	251	socioeconomic status	269
and Acuity Scale	317	glucose	339	neurologic injury,		sternoclavicular	355
capnometry	94	guidelines	37	diagnosis of AOD	50	stroke	339
cardiac arrest	13, 109, 329			neuroprotection	80	subcutaneous abscess	285
cardiopulmonary		H		neuron-specific enolase	13		
resuscitation	13	headache, benign	393	nitroglycerin	164	T	
cardiotoxicity	361	health promotion	100			therapeutic hypothermia	109
CEDIS	417	headache, benign	393	O-P		thoracic outlet syndrome	370
cervical rib	370	heart failure	251	orbital pseudotumour	123	toxicology	409
charcoal	358	hockey stick, composite	347	outpatient management	247	transfusion	119
chest pain	164	hypothermia	109	overdose	409	tricyclic antidepressant	361
chest trauma	347	hypothermia, induced	329	patient expectations	148	trophozoite	365
children	6, 158, 275, 425			pediatrics	275		
children, injury pattern	277	I		pediatric emergency care	269	U-V	
composite hockey stick	347	ice hockey	347	penetrating injury	347	ultrasonography	425
computed tomography	425	injury pattern	158	perinephric	285	variant angina	289
CTAS	317	insulin	339	poisoning	409	visual change	123
D		interfacility transfer,		predictive value of tests,			
databases	417	capacity	262	outcome	13
